Hello there, I am writing to voice my concern with the proposed rezoning for a 5 story low rise structure from westmark developments. Myself, and other residents in the building understand that our view is not guaranteed, but the design of the building could certainly be reconsidered to make it more cohesive with the surrounding neighborhood.

I think reorientation of the proposed building, a lower height, or a move of the open space is a much better alternative for all involved, and will ensure my neighbors quality of life, and property values are not affected. Our building is full of first time home buyers, who struggled to obtain property in Richmond, and if our equity is weakened, we will be in a bad spot.

We ask for consideration of additional options.

Matthew
