Additional Comments:

I am the son of Musqueam members Delbert & Frances Guerin (nee Point). My mother's branch of my family were the most recent Musqueam members to reside at q'aya'x'w (Garry Pt./Steveston). They had traditional big-houses there and only moved to Musqueam IR#2 during the 1950's at the insistence of the Indian Agent for New Westminster District and under threat of the revocation of their recognized Indian Status. That was, effectually, disassociation from a significant part of their ancestral home. Return of the lands in question is one step toward reconciliation of wrongs imposed upon our people at the hands of colonial authority.

Subject: GCL opinion for circulation

Mayor Brodie,

I have attended some of the ongoing Garden City Lands public hearing, but unfortunately did not get my name on the speakers list in time last night. This evening, I have a family commitment and may not be able to attend. I would appreciate an opportunity for my brief comments to be heard, and authorize you to circulate this email as may be appropriate this evening.

For the record, I am:

Roy Oostergo

9391 Glenbrook Drive, Richmond

604-275-0276

Sometimes representing the Richmond Sports Council, the Richmond Soccer Alliance, the Richmond Girls Soccer Association, but today representing my family.

3 points, very simple.

1. Council should continue with the ALC exclusion application. The City can do nothing without having ownership of the lands, or part of them. Richmond doesn't own any of the lands today - one cannot "lose" anything they do not already have. Nobody's wishes can be accommodated if we don't own any of the land. Richmond has tried for generations to get this done. Please get it done this time.

2. Many people have started their presentations with 5 words "I'm not an expert, but....." and proceeded to throw out uneducated opinions on legal, technical and societal issues. This is their right and I respect that. However, on the key question of whether the GCL is suitable for farming, we have heard two undeniable experts - Mr. Zylmans and Mr. Jones - lifetime Richmond farmers, the people quoted in the newspapers every year about food farming in Richmond. Both indicated the lands are not suitable for farming, and that neither they nor their farming associates would want the lands for farming. That expert advice good enough for me.

3. The public hearing process should be revisited in the future by whatever legal requirements are necessary. Time limits should be used and enforced for applicants and the public. It is insulting to those who have waited for days to speak to listen to ridiculously long and repetitive presentations. Council is to be applauded for their commitment to and patience with the current process. It is the process itself that should change.

With respect, thank you.

FAX: 604-984-4244
northvancouverhotel.ca

- My name is Steven Chen. I am Sales Manager for the North Vancouver Hotel. I am speaking on behalf of North Vancouver Hotel.
- The Richmond community, including North Vancouver Hotel, has long sought to achieve ownership of these lands for the benefit of all our citizens and businesses. This negotiated agreement provides the only viable route for the City of Richmond to have a role in the future of the Garden City Lands. But we must first ensure that the land comes out of the ALR. Once this occurs it will allow the City of Richmond the opportunity to purchase its 50 percent share of the land for public use such as parks, trails, community gardens and gathering places. Creating a City that will be attractive to residents and visitors alike.
- The land is currently sitting vacant and has been vacant for many years.
- If the Memorandum of Understanding remains in place, any development by the City, Canada Lands Company and Musqueam First Nation on Garden City Lands must still go through provincial and municipal land use approval processes, integrate with the Official Community Plan and comply with city zoning bylaws. We will still have many more opportunities to express our views on the future use of this land through the public process. And North Vancouver Hotel will continue to support this process and we encourage our Mayor, Council and City staff to continue striving to have this land removed from the ALR so we can all move forward in promoting Richmond as a sustainable, livable and excited destination to visit.

Sincerely,

Steven Chen

Re: Public hearing on the Garden City Lands, 5555 No. 4 Road, Richmond

Keep Garden City Lands Green

I, Torbin Mackenzie , OPPOSE the City of Richmond's block application to remove the Garden City Lands from the Agricultural Land Reserve (ALR) for the following reasons:

- The City of Richmond has a shortage of green space and we need to keep it.
- Food security is important to me and we need to keep agricultural land so that future generations can feed themselves
- The City of Richmond does not need a lot more high rises. Development on the Garden City Lands will only increase traffic, congestion and pollution in the downtown core.

Keep the Garden City Lands in the ALR so that ALL the citizens of Richmond can enjoy it.

Sent: Monday, 17 March 2008 3:54 PM
To: Mayor and Councillors
Subject: Public hearing on Garden City Lands, 5555 No. 4 Road, Richmond

Dear Mayor and Councillors:

I am concerned about the current status of the Garden City Lands, and am writing to let the City of Richmond know that I strongly oppose the City's block application to remove the Garden City Lands from the Agricultural Land Reserve (ALR).

This is something that concerns me deeply. Green spaces and proximity to nature are prized elements in any living environment. Richmond needs to hold on to its green spaces, and resist the lure of short-term profit from selling land to developers. The vast expanses of pavement and sprawling shopping complexes are not things that make me proud of my city, and I am concerned to think Council is considering pursuing more development on such a large undeveloped block. The traffic, congestion and pollution in the downtown core are already too high.

I am even more concerned about the possible removal of these lands from the ALR when I think about food security in the future. Today, much of our food is imported. There are several factors which may seriously impinge on the ability of residents of Richmond and BC to access or produce enough food in the future: climate change, fuel scarcity (or at the least ever-increasing fuel prices), and new initiatives to convert possible food sources into fuel (e.g. biofuels, corn-based ethanol, etc.). At this moment, none of us can predict the extent of these issues' impact on where our food is grown and how we can obtain it, but I think we can agree that there is uncertainty. In the face of such risks, I as a citizen expect that my governments make plans for such uncertainties and develop policies to protect the collective good.

Removing the Garden City Lands from the ALR will not only be a permanent loss for the City of Richmond, but it will set a dangerous precedent for removing other still-undeveloped lands across the province. We have already lost so much arable land to urbanization and development: we must protect the land still left. I would love to see Richmond become a leader both in developing sustainable agricultural practices as well as innovative ways of combining agricultural and urban activities side-by-side. As a thriving urban centre with many active farms within our city itself, we are ideally positioned to take on such a leadership role. That would be a legacy of which our councillors and city planners could feel justly proud.

The creation of the ALR is an example of government taking a long-range view: bravo for that! Our governments - at all levels - must think about the collective good and interests of all residents of Richmond, and BC, for the long term. As our elected officials, you must imagine what will be best for Richmond for generations to come, not just between now and the next election. Please, make the prudent choice: vote to keep the Garden City Lands in the ALR. This is also the choice which challenges you, and all of us, to creatively define new opportunities and paths towards a sustainable future. I look forward to Richmond embarking on such a civic project. Thank you for your time.

Yours sincerely,
Jenna Newman

Re: Garden City Lands ALR
Exclusion Application

Dear Councilors,

My name is Leonid Stasyuk and I have been living in Richmond for 12 years. I worry about the status of the Garden City Lands.

Personally I think it's very important to keep the Garden City Lands green, and build a green park over there. Unfortunately I've heard that City Council is going to reduce the park zone rate per person, which is very unfortunate. Many Richmond citizens love this green square in the middle of the city and want to protect it from the housing and commercial development. There are huge housing developments to the north and south and all these people will need a park or other green facilities soon.

I am asking Council to reconsider this agreement and to start looking for other solutions.

I hope City Council will come up with a right one. Please save this land for the future generations.

Keep this land in the ALR, build a park and do not allow any residential development.

It's very simple, more residential towers will bring more people on the roads. The recent carbon tax would not change much of driving behavior of those who need to drive to work, school, etc.

Traffic congestion in Richmond is a huge problem. I know city council and the Mayor are working hard on this issue, but it looks like it's not enough.

The Canada Line would not solve much of the traffic problem for Richmond either as it's intended mostly for Vancouver commuters.

Therefore, please do not allow any residential development on the Garden City Lands and build a green park over there.

Best personal regards,

Leonid Stasyuk , Richmond , BC.

Re: Garden City Lands ALR
Exclusion Application

Recd. Mar 17/08.

Galina Sharamova
6331 Coltsfoot Dr. Rmd

Dear Councilors,

My name is Galina Sharamova and I live and work in Richmond for the last 12 years.

I think that council will have to decide soon whether to proceed with the application to remove Garden City Lands from agricultural reserve and to start to develop it into the mixed residential and community use area with the expected population for these lands more then 12,000.

I am very much upset to hear that. Richmond is getting very overcrowded and loses its quality of life. I do not feel that anyone in City's council cares that we, people living in Richmond, did not choose all this dense development to take over our city, and now our beautiful Garden City Lands field is going to be destroyed too despite its very special spiritual value for us.

I know that some parts of this field are proposed to be developed into the community facilities and sport fields but why do we need to loose the bigger part of this field to the dense development? I read how our mayor explains the deal and it just doesn't make any sense and looks like a cover for the developers to go ahead like they did all over the city already.

Our council has to think more about its own citizens being satisfied with their life in Richmond, not the developers; we pay taxes and expect our city hall to care and protect what we value - the quality of our life and the spirit of our community. There are many people in Richmond who feel depressed and betrayed by the way our town is changing.

It is not too late to stop this deal and to show that you care about our feelings.

Caring people of Richmond want to keep this land in the ALR and build a park over there.

Thank you for your attention,
Galina

Your Name:	Joann Lee
Your Address:	61-9339 alberta rd
Subject Property Address OR Bylaw Number:	5555 No. 4 Road (Garden City Lands)
Comments:	I am a Kwantlen student and I oppose the application to remove Garden City Lands from the ALR because I see this piece of land everyday. It's nice to NOT see tall buildings hiding our skies when we look out of our class studios. I strongly feel that this land needs to be kept the way it is because it is one of the few pieces of nature we have left in Richmond within the city core. The Garden City Lands is an area I walk past everyday and it would be a shame if they turned into a parking lot, or more commercial areas. In other words, things we DO NOT REQUIRE and for profit. Let it be.

Re: Public hearing on the Garden City Lands, 5555 No. 4 Road, Richmond

Keep Garden City Lands Green
* *

I, Christie Lagally, OPPOSE the City of Richmond's block application to remove the Garden City Lands from the Agricultural Land Reserve (ALR) for all of the following reasons:

q The City of Richmond has a shortage of green space and we need to keep it.

Food security is important to me and we need to keep agricultural land so that future generations can feed themselves

q The City of Richmond does not need a lot more high rises. Development on the Garden City Lands will only increase traffic, congestion and pollution in the downtown core.

Keep the Garden City Lands in the ALR so that ALL the citizens of Richmond can enjoy it.

Re: Public hearing on the Garden City Lands, 5555 No. 4 Road, Richmond

Keep the Garden City Lands Green.

I OPPOSE the City of Richmond's block application to remove the Garden City Lands from the Agricultural Land Reserve (ALR) for reasons such as the following:

- The City of Richmond has a shortage of green space and we need to keep it.
- We need to keep agricultural land for food security for future generations.
- High-density development on the Garden City Lands will only increase traffic congestion and pollution in Richmond's downtown area.

Keep the Garden City Lands in the ALR for the people's benefit.

Dear Mayor and Council

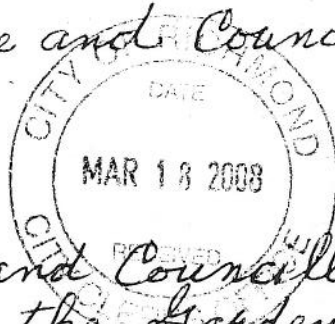

On behalf of the Burke Mountain Naturalists, we ask you to not support the removal of **Garden City Lands, 5555 No. 4 Road**, from the ALR. Future generations (and quite of few of us currently living) will applaud your wisdom if you choose to keep this land in the ALR. This is prime agricultural land and publicly owned. Please, do not allow it to be developed.

Thank you
Elaine Golds

Dear Mayor Brodie and Councillors:

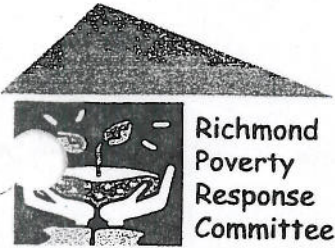

I believe that the Garden City Lands should remain in the Agricultural Land Reserve.

I believe we should endeavour to grow more food in B.C. I understand that we import about half of the food which we eat in B.C. Perhaps using the Garden City Lands for agricultural purposes may encourage people to grow food in their back yard and on other patches of land which are not being used.

If we import less food less fuel will be used which would be good for the environment. We import food from many countries where people are hungry and need the food we import.

I think that it would be good if some of the Garden City Lands were used for garden plots. My friend and I had a garden plot on Palmberg Road for many years until I gave it up two years ago when I was sick. I think many people who live in an apartment as I do would enjoy gardening and making friends when they garden.

Thank you for your consideration.
 Yours sincerely,
 Orval Chapman

Richmond Food Security Task Force Garden City Lands Petition

MayorandCouncillors

To: March 11, 2008 Public Hearing
Re: Garden City Lands ALR
Exclusion Application

From: on behalf of MayorandCouncillors
Subject: FW: Send a Submission Online (response #367)

From: Webgraphics [mailto:webgraphics@richmond.ca]
Sent: Monday, 17 March 2008 20:38
To: MayorandCouncillors
Subject: Send a Submission Online (response #367)

Your Name:	Tamara Kramar
Your Address:	Apt.4 7400 Heather street
Subject Property Address OR Bylaw Number:	Garden City Lands
Comments:	Please make this piece of land a green zone to enjoy for busy and hard working people of Richmond; where they can come in their lesure time to relax and spend time with their families.

Re: Garden City Lands ALR
Exclusion Application

From: on behalf of MayorandCouncillors
Subject: FW: Send a Submission Online (response #368)

From: Webgraphics [mailto:webgraphics@richmond.ca]
Sent: Tuesday, 18 March 2008 12:58
To: MayorandCouncillors
Subject: Send a Submission Online (response #368)

Your Name:	Silvana Harwood
Your Address:	11911 Pintail Drive
Subject Property Address OR Bylaw Number:	Garden City Lands
Comments:	I just want to comment that it seems reasonable to expect the lands in question to be developed sooner or later ... using this land agriculturally seems almost absurd at this point. However, if they could be developed in such a fashion as to allow for gardens, parks, and community use properties (allotment gardens) that would benefit all the people in Richmond, why not at least plan for it now to make sure it is developed intelligently. Many thanks - Silvana Harwood
