Re: Steveston Village Conservation Program

Dear Mayor Brodie and Councillors:

I have had the opportunity to review the proposed Steveston Village Conservation Program. I commend you for taking the steps to conserve the significant elements of Steveston Village, as outlined in your Steveston Village Conservation Program. I feel the vision that has been articulated sets a commendable direction for the future of Steveston Village.

The reason that I am writing is to request the addition of the Gulf of Georgia Cannery National Historic Site within the proposed boundaries as outlined in the map of the study area that is included in the document entitled *Steveston Village Conservation Program: Conservation Strategy – Managing Change*. The stated vision includes heritage as a key value of Steveston Village. I believe that the inclusion of the Gulf of Georgia Cannery National Historic Site would positively contribute to the vision that you have created for the future of Steveston Village.

I would be more than happy to meet with representatives from the City of Richmond to further discuss this request if necessary.

Sincerely,

John Aldag
