Comments:

I object to this proposed designation that will result in 25 townhouses on 5 properties. (Changing Low Density Residential to Medium Density Residential and then rezoning again from 'Single Family Housing District' to 'Comprehensive Development District'). Council's role is not to maximize developers' profits at the expense of the ambience of Richmond. It's time to stop and give some thought before rubber-stamping developers' plans. We're all wondering why the setbacks have been reduced on all these developments? It's very noticeable in comparison to past condo/apartment buildings. Are natural grass and glimpse of sky anathema to Richmond? Quit paving our paradise. "Development, not Destruction" please. Richmond will soon acquire the description 'city of asphalt, saplings and shrubs', not an island by nature.
