Subject: Planning Committee re: Rod's Building rezoning

*Related to Item 7
on Planning Committee
Agenda - May 17/16*

Ms. McPhail; Chairperson Planning Committee and members

Re: Rod's Building Supplies redevelopment

As the Chairperson of the Steveston 20/20 Group it is my pleasure to let you know that Mr. Kyle Shury of Platform Development and his team, including architect Mr. Patrick Cotter presented twice - Sept 29/15 and Feb/16 - to our organization, making themselves available for questions and comments at the meetings. As well, they offered to attend any of the individual board meetings to present and or answer any questions or concerns that may arise.

Many logistical questions, including second floor setbacks and views along Moncton St., were asked at both well attended 20/20 meetings of Mr. Shury's team that were answered and members appeared satisfied. There were no large concerns identified at the meetings with the information presented.

While I cannot speak on behalf of the member organizations I can attest to the openness and willingness of Mr. Shury and his team to answer questions and work with the points of view expressed at our meetings.

Linda Barnes
Chairperson, Steveston 20/20 Group
