

**Council Kelly Greene – Warrant Study for the Intersection at Constable Gate and Steveston Highway**

***Motion:** Direct staff to complete a warrant study at the intersection of Constable Gate and Steveston Hwy and provide an assessment of the technical need for further consideration.*

***Details:** Residents in the area are struggling to leave their neighbourhood safely due to the fact that they have only one outlet from that section of the neighbourhood. Residents identified high traffic volume and speed as concerns. In addition, transit users are experiencing unsafe crossing at that intersection due to the speed and volume of traffic. Traffic can fail to stop for pedestrians who have the right of way.*
