Re: **Application by Casa Mia Projects Ltd. to rezone the properties at 10231 and 10251 Ruskin Road from Single Detached (RS1/E) to Single Detached (RS2/B)**

Staff Recommendations

1. That Richmond Zoning Bylaw 8500 Amendment Bylaw 8871 be abandoned.
2. That Richmond Zoning Bylaw 8500 Amendment Bylaw 9519 for the rezoning of the properties at 10231 and 10251 Ruskin Road from Single Family Detached (RS1/E) to Single Detached (RS2/B) be introduced and given first reading.

Affordable Housing	<input checked="" type="checkbox"/>	

Staff Report

Origin

Casa Mia Projects Ltd. has applied to the City of Richmond for permission to rezone the properties at 10231 and 10251 Ruskin Road (Attachment 1) in order to construct three (3) single family dwellings from the “Single-Detached (RS1/E)” Zone to the “Single Detached (RS2/B)” Zone (Attachment 2).

Background

Prior to this application, Council considered an earlier proposal (RZ 11-591786) and Richmond Zoning Bylaw 8500 Amendment Bylaw 8871 (Attachment 3) was introduced and given first, second and third reading. As the applicant has withdrawn RZ 11-591786, the current rezoning application includes abandonment of Richmond Zoning Bylaw 8500 Amendment Bylaw 8871.

Findings of Fact

A Development Application Data Sheet, providing the technical details of the proposed development, is attached (Attachment 4).

Surrounding Development

Development that immediately surrounds the subject property includes:

- To the north and south along Ruskin Road, parcels are zoned “Single Detached (RS1/E)”.
- To the east along Ruskin Road, parcels are zoned “Single Detached (RS1/E) Zone”, “Single Detached (RS1/B)” and “Single Detached (RS2/B)”.
- To the west along Leonard Road, parcels are zoned “Single Detached (RS1/E)”.

Related Policies and Studies

Official Community Plan

The Official Community Plan land use designation for the subject properties is “Neighbourhood Residential”. This redevelopment proposal is consistent with this designation.

Single Family Lot Size Policy 5469

The subject site is located within Single Family Lot Size Policy Area 5469 that Council adopted on February 19, 2001 (Attachment 5). The Single Family Lot Size Policy permits those properties along Ryan Road, Leonard Road, Ruskin Road and Ruskin Place to rezone to the Single Detached (R1/B) Zone. However, the Single Detached (R1/B) Zone was subsequently replaced with the Single Detached (RS2/B) Zone, as per Richmond Zoning Bylaw 8500 Section 2.3.8, where the minimum lot size is 360 m² and minimum lot width is 12 m. Given the proposed subdivision is three lots of 491 m² with lot width of 13.41m, this rezoning complies with RS2/B zoning standards and Single Family Lot Size Policy 5469.

Flood Plain Designation and Protection Bylaw 8204

The development proposal is required to comply with the City's Flood Plain Designation and Protection Bylaw 8204. Registration on property title of a restrictive covenant for the purpose of flood indemnity is required prior to the adoption of the Richmond Zoning Bylaw 8500 Amendment Bylaw 9519.

Public Consultation

A rezoning sign is installed on the subject properties. To date the City has not received any comments from the public about the proposal. Should Council introduce and give first reading to the Richmond Zoning Bylaw 8500 Amendment Bylaw 9519, this application would then proceed to a Public Hearing.

Analysis

Tree Retention and Replacement

The applicant has submitted a Certified Arborist Report, which identifies on-site and off-site tree species, assesses their condition and provides recommendations on tree retention and removal in relation to the proposed development. Specifically, the Report assesses five (5) trees on the subject parcels and two (2) trees near the east property line that are sited within the City Right-of-Way along Ruskin Road.

The City's Tree Preservation Coordinator and Parks Department Arborist have reviewed the Arborist Report, conducted visual tree assessments and provide the following comments, which are consistent with the Arborist Report submitted:

- Two (2) trees (tags #1 and #2) in City Right-of-Way should be removed.
- Three (3) trees (tags #3, #4 and #5) located on the development site should be removed.
- One (1) tree (tag #6) 90cm caliper Pine to be retained and protected.
- One (1) tree (tag #7) 18m caliper Holly to be retained and protected.

Tree Retention

Two (2) trees (tags #6 and #7) are required to be retained and protected as identified in the Tree Retention and Removal Plan (Attachment 6).

To ensure the protection of these trees, the applicant must complete the following items prior to adoption of Richmond Zoning Bylaw 8500 Amendment Bylaw 9519:

- Submit a contract with a Certified Arborist for supervision of all works conducted within close proximity to the tree protection zone. The contract must include the scope of work, including the number of monitoring inspections at specified stages of construction, and specific measures to ensure tree protection, and a provision for the Arborist to submit a post-construction impact assessment to the City for Review.
- Submit a Survival Security in the amount of \$2,000.

Prior to demolition of the existing buildings on the subject site, the applicant is required to install tree protection fencing around the Pine and Holly trees at a minimum radius of 3 m from the base of these trees. Tree protection fencing must be installed to City standards in accordance with the City's Tree Protection Information Bulletin TREE-03 prior to any works being conducted on-site and must remain in place until the construction and on-site landscaping works are completed.

Tree Replacement

A total of three (3) trees are recommended for removal from the subject site. The OCP tree replacement ratio of 2:1 requires that six (6) replacement trees be planted and retained on-site. Two (2) trees are also recommended to be removed from the City Right-of-Way.

To ensure that the required replacement trees are planted at construction stage and maintained, the applicant is required to submit a Landscape Security of \$500 per tree, or \$3,000 total, for the trees on the subject site. To cover the costs associated with the removal and replacement, the Parks Department requires the applicant to contribute to the City's Tree Compensation Fund in the total amount of \$2,600. Both the Landscape Security and the City Tree Fund contributions must be secured prior to adoption of Richmond Zoning Bylaw 8500 Amendment Bylaw 9519.

Affordable Housing Strategy

The City's Affordable Housing Strategy policy for single-family rezoning applications received prior to September 14, 2015 requires a secondary suite or coach house on 50% of new lots, or a cash-in-lieu contribution of \$2/ft² of total buildable area towards the City's Affordable Housing Reserve Fund.

The applicant proposes to construct a legal secondary suite in 2 (two) single family dwellings. To ensure that the secondary suites are built to the satisfaction of the City, in accordance with the Affordable Housing Strategy, the applicant is required to enter into a legal agreement to be registered on title stating that no final Building Permit inspection will be granted until 2 (two) secondary suites are constructed to the satisfaction of the City in accordance with the BC Building Code and the Zoning Bylaw. Registration of this legal agreement is required prior to adoption of Richmond Zoning Bylaw 8500 Amendment Bylaw 9519.

Site Servicing and Frontage Improvements

Prior to approval of subdivision, the applicant is required to secure the design and construction of off-site improvements along Ruskin Road through a Work Order or a Servicing Agreement, as stated in Attachment 7.

Financial Impact

This rezoning would result in an insignificant Operational Budget Impact (OBI) for off-site City infrastructure, such as road works, waterworks, storm sewers, sanitary sewers, street lights, street trees, and/or traffic signals.

Conclusion

The proposal to rezone is consistent with the OCP land use designation and Single-Family Lot Size Policy 5469 and the applicant has consented to all Rezoning Considerations. It is recommended that Richmond Zoning Bylaw 8500 Amendment Bylaw 8871 be abandoned and that Richmond Zoning Bylaw 8500 Amendment Bylaw 9519 be introduced and given first reading.

DWG No. 4592--TOPO--02

Site Survey - Not to Scale

City of Richmond

Rezoning Considerations
Development Applications Department
6911 No. 3 Road, Richmond, BC V6Y 2C1

Address: 10231/10251 Ruskin Road

File No.: RZ 15-710997

Prior to final adoption of Richmond Zoning Bylaw 8500, Amendment Bylaw No. 9519, the developer is required to complete the following:

1. Submission of a Landscape Security in the amount of \$3,000 for the planting and maintenance of a total of six (6) replacement trees on the subject site. If required replacement trees cannot be accommodated on-site, a cash-in-lieu contribution in the amount of \$500/tree to the City's Tree Compensation Fund for off-site planting is required.
2. City acceptance of the developer's offer to voluntarily contribute \$2,600 to the City's Tree Compensation Fund for the planting of replacement trees within the City.
3. Submission of a Contract entered into between the applicant and a Certified Arborist for supervision of any on-site works conducted within the tree protection zone of the trees to be retained. The Contract should include the scope of work to be undertaken, including: the proposed number of site monitoring inspections, and a provision for the Arborist to submit a post-construction assessment report to the City for review.
4. Submission of a Tree Survival Security to the City in the amount of \$2,000 for the two trees to be retained.
5. Registration of a flood indemnity covenant on title.
6. Registration of a legal agreement on Title to ensure that no final Building Permit inspection is granted until a secondary suite is constructed on two (2) of the three (3) future lots, to the satisfaction of the City in accordance with the BC Building Code and the City's Zoning Bylaw.

Prior to Subdivision approval, the developer must complete the following requirements:

- The applicant must identify and commit to design and/or provision of the following required water, storm and sanitary sewer connections, and utility works, as secured through a Work Order or a Servicing Agreement:

Water Works:

- Using the OCP Model, there is 123 L/s of water available at a 20 psi residual at No. 1 Road frontage. Based on your proposed development, your site requires a minimum fire flow of 95 L/s.
- The Developer is required to submit Fire Underwriter Survey (FUS) or International Organization for Standardization (ISO) fire flow calculations to confirm the development has adequate fire flow for onsite fire protection. Calculations must be signed and sealed by a Professional Engineer and be based on Building Permit Stage and Building designs.
- At Developer's cost, the City will (a) cut and cap at main the existing water service connections along the Ruskin Road frontage; and (b) install three (3) new water service connections complete with meters and meter boxes along the Ruskin Rod frontage.

Storm Sewer Works:

- A ditch infill may be required to facilitate future driveway construction. This may require a watercourse crossing permit.
- At Developer's cost, the City will (a) install one new storm service connection complete with IC located at the sites north property line fronting Ruskin Road; and (b) install one new storm service connection complete with IC and dual connections located at the adjoining property line of two southern lots along the Ruskin Road frontage.

Sanitary Sewer Works:

- The Developer is required to retain two existing sanitary service connections along Ruskin Road frontage.
- At Developers cost, the City will install a new sanitary IC service connection located at the southeast corner of the newly subdivided property

Utility Works:

- The Developer is required to coordinate with BC Hydro, Telus and other private communication service providers in order to (a) underground Hydro service lines; (b) relocate or modify any existing power poles and/or guy wires within the property frontages and (c) to determine if above ground structures are required and coordinate locations on-site (e.g. Vista, PMT, LPT, Shaw cabinets, Telus Kiosks, etc).
- Obtain a Building Permit (BP) for any construction hoarding. If construction hoarding is required to temporarily occupy a public street, the air space above a public street, or any part thereof, additional City approvals and associated fees may be required as part of the Building Permit. For additional information, contact the Building Approvals Department at 604-276-4285.

Note:

- * This requires a separate application.
- Where the Director of Development deems appropriate, the preceding agreements are to be drawn not only as personal covenants of the property owner but also as covenants pursuant to Section 219 of the Land Title Act.

All agreements to be registered in the Land Title Office shall have priority over all such liens, charges and encumbrances as is considered advisable by the Director of Development. All agreements to be registered in the Land Title Office shall, unless the Director of Development determines otherwise, be fully registered in the Land Title Office prior to enactment of the appropriate bylaw.

The preceding agreements shall provide security to the City including indemnities, warranties, equitable/rent charges, letters of credit and withholding permits, as deemed necessary or advisable by the Director of Development. All agreements shall be in a form and content satisfactory to the Director of Development.

- Additional legal agreements, as determined via the subject development's Servicing Agreement(s) and/or Development Permit(s), and/or Building Permit(s) to the satisfaction of the Director of Engineering may be required including, but not limited to, site investigation, testing, monitoring, site preparation, de-watering, drilling, underpinning, anchoring, shoring, piling, pre-loading, ground densification or other activities that may result in settlement, displacement, subsidence, damage or nuisance to City and private utility infrastructure.
- Applicants for all City Permits are required to comply at all times with the conditions of the Provincial *Wildlife Act* and Federal *Migratory Birds Convention Act*, which contain prohibitions on the removal or disturbance of both birds and their nests. Issuance of Municipal permits does not give an individual authority to contravene these legislations. The City of Richmond recommends that where significant trees or vegetation exists on site, the services of a Qualified Environmental Professional (QEP) be secured to perform a survey and ensure that development activities are in compliance with all relevant legislation.
