Staff Report

Origin

Section 197 of the *Community Charter* requires municipalities to establish property tax rates for the current year after the adoption of the 5 Year Financial Plan and before May 15th. Council must, under subsection 197(3.1), consider the tax distribution to each assessment class prior to adopting the tax rate bylaw.

This report supports Council's Strategic Plan 2018-2022 Strategy #5 Sound Financial Management:

Accountable, transparent, and responsible financial management that supports the needs of the community into the future.

5.1 Maintain a strong and robust financial position.

5.4 Work cooperatively and respectfully with all levels of government and stakeholders while advocating for the best interests of Richmond.

Analysis

BC Assessment provides assessment values that reflect the market condition as of July 1st of the preceding year. Assessment totals are comprised of market values for existing properties and values for new properties (new growth).

Tables 1 and 1.1 provide a comparison of 2019 to 2020 and 2018 to 2019 market value changes and new growth respectively.

Table 1: Comparison of Assessment Values 2019 - 2020

- (1) Prior year's property assessment values provided by BC Assessment which is based on the state and condition of 83,876 properties as of July 1st 2018.
- (2) Current year's market value change of the same 83,876 properties from 2019 to 2020.
- (3) New growth is the term used for new developments and any new exemptions. New developments add taxable value to the class while new exemptions reduce the value to that class. Re-class refers to property shifts between assessment classes. The 2020 assessments determined there were 1,364 additional folios created from new growth.
- (4) Current year's total property assessment values which is based on the state and condition of 85,240 properties as of July 1st 2019.
- (5) Percentage increase based on market value change of the original 83,876 properties from 2019 to 2020 (percentage change of column (2) from column (1)).

In early 2018, the BC Provincial government announced the new speculation/vacancy and additional school taxes that would be implemented in 2019. Since then, the 2019-2020 market value change for residential properties decreased 11.40%, whereas in the prior year the market value change for residential properties began stabilization and increased by 2.45%.

Market value changes for the business related assessment classes stabilized in 2020 while new growth increased compared to prior years.

Highlights:

- From 2019 to 2020, total market value decreased by approximately \$8.924 billion (column 2) or -8.31% (column 5). In comparison, 2018 to 2019 had a total market value increase of approximately \$5.586 billion or 5.60%.
- The breakdown of the market value changes by assessment class shows that residential market values decreased by \$9.622 billion or an average -11.40%. This is significant decrease compared to 2019 where residential market values increased by \$1.976 billion or an average increase of 2.45%.
- In 2020, a further breakdown of the residential class shows that strata residential properties had an average decrease in market value by 9.26% while single family detached properties had an average decrease of 12.57%. For 2020, most strata properties will have tax increases while single family detached homes on average will have minimal tax increases. This is relatively consistent with 2019 where demand for single family detached homes declined resulting in minimal market value increases.

- The breakdown of the market value changes by assessment class shows that business market values increased by \$304 million or an average of 1.61%. This is a significant stabilization in comparison to 2019 where the business market values increased by \$3.047 billion or an average of 19.23%. Class 06 – Business/Other also experienced new growth increases for properties that were redeveloped by \$385 million. This is a significant increase in comparison to 2019 where business new growth increased by \$69 million.
- Total new growth and reclassification (column 3) in 2020 is approximately \$1.441 billion, which is \$560 million lower than the prior year's new growth of \$2.001 billion. The decline was mainly due to a slowdown in Class 01 - Residential developments for approximately \$758 million compared to the prior year.

Revenue from new growth was estimated and included as a separate income source when preparing the 2020 Operating Budget. This new tax revenue reduces the tax increase required to balance the operating budget.

2020 Tax Rate Calculation

When assessment values increase from the prior year, the City must adjust the tax rates lower in order to collect the same amount of taxes as the prior year. Once that adjustment is made, rates are then adjusted to reflect the Council approved tax increase. Under the *Community Charter*, Council must review the City's property tax distribution prior to adopting the annual property tax rate bylaw. The City has consistently achieved and even surpassed the 5 Year Financial Plan objective of maintaining the business to residential tax ratio in the middle of the comparator group. To date, the City has the lowest business to residential tax ratio of the comparator group to competitively attract and retain businesses.

Tax Ratio

The tax ratio is a direct comparison of the tax rates between all classes against the residential tax rate. Fluctuations in the market value for residential class will affect all resulting tax ratios since tax rates are adjusted annually to ensure that the City collects only what is needed to balance the budget. With a combination of the annual tax rate increase for 2020 and new growth, the residential tax rate was adjusted to 1.80065 per \$1,000 of assessment from the 2019 rate of 1.54934 per \$1,000 of assessment. Since the residential tax rate is the denominator in the tax ratio calculation, if market values of the assessment class decreases, the resulting tax ratio will be higher.

The 2020 business and light industry tax rate was adjusted to 4.26880 per \$1,000 of assessment from the 2019 rate of 4.27024 per \$1,000 of assessment. Since the residential tax rate increased by 0.25131 per \$1,000 of assessment and the business tax rate increased by 0.00144 per \$1,000 of assessment; the 2020 business to residential tax ratio decreased from 2.76 to 2.37.

Table 2 provides the 2019 tax rates and business to residential ratio ranking for comparative municipalities.

For comparison purposes, the 2019 assessment ratios and tax distributions are provided in Table 3.1.

Table 3.1 – Breakdown of 2019 Assessments and Tax Distribution by Property Class

Property Class	Tax Rates	Assessment Ratio	Folio Count	Tax Distribution	Tax Ratio
Class 01 - Residential	1.54934	78.56%	74,941	56.58%	1.00

- The number of residential folios increased by 1,231 from 74,941 folios in 2019 to 76,172 folios in 2020. New growth in residential assessment value increased by \$1.126 billion and as a result decreased the residential tax burden from 56.58% in 2019 to 56.53% in 2020.
- Properties in Class 03 – Supportive Housing are residential properties with specific BC Provincial government requirements and should therefore have the same tax rates as Class 01 – Residential. With the \$2 in assessment value given to each class 03 property, there will be essentially no taxes charged to supportive housing units.
- All municipalities are concerned with maintaining competitiveness in attracting businesses to their community and retaining the existing business base. Richmond’s business to residential tax ratio decreased from 2.76 in 2019 to 2.37 in 2020. This decrease is largely attributed to new growth increases of \$189 million for commercial properties which require a decrease in tax rates from \$4.27024 per \$1,000 in assessment to \$4.26880 in order to collect only what is required to balance the 2020 operating budget.
- Attachment 1 provides a comparison of the average assessment value, municipal taxes, and class burden for various assessment classes in the comparator group. In 2019, the City continued to rank 3rd highest in average residential assessment value at \$1,126,101 and had the 2nd lowest average municipal taxes of \$1,745.
- Business class had the 4th highest average assessed value of \$2.669 million and the lowest average municipal taxes of \$11,398. The light Industry class had the 4th highest average assessment value and the 2nd lowest average municipal taxes.

- Richmond's Major Industry class had the 4th highest average assessment value and 2nd lowest average municipal taxes in comparison to others in the group. The City's municipal tax as a percentage of assessment value for this class is at 0.99%.
- Municipal taxes as a percentage of assessment value shows the municipal tax charged for every \$1 of assessment. In the Major Industry, Light Industry, and Business categories, Richmond has the lowest or 2nd lowest percentages in the comparator group, which supports Council's objective of being competitive in maintaining and attracting businesses.
- Attachment 2 provides the 2019 tax rates for the comparator group. Richmond's tax rates were consistently in the middle or amongst the lowest in comparison to the group.

Financial Impact

Property tax rates provided in Bylaw 10174 will generate the municipal taxes necessary to balance the Council approved 2020 Operating Budget.

Conclusion

It is the recommendation of staff:

1. That the Annual Property Tax Rates (2020) Bylaw No. 10174 be introduced and given first, second and third readings; and
2. That the Annual Property Tax Rates (2020) Bylaw No. 10174 be adopted.

Annual Property Tax Rates (2020) Bylaw No. 10174

The Council of the City of Richmond enacts as follows:

- (a) Parts 1 through 6 excluding Part 3, pursuant to the *Community Charter*; and
- (b) Part 3 pursuant to section 100 of the *Municipalities Enabling and Validating Act*.

PART ONE: GENERAL MUNICIPAL RATES

1.1 General Purposes

- 1.1.1 The tax rates shown in column A of Schedule A are imposed and levied on the assessed value of all land and improvements taxable for general municipal purposes, to provide the monies required for all general purposes of the **City**, including due provision for uncollectible taxes, and for taxes that it is estimated will not be collected during the year, but not including the monies required for payments for which specific provision is otherwise made in the *Community Charter*.

1.2 City Policing, Fire & Rescue and Storm Drainage

- 1.2.1 The tax rates shown in columns B, C & D of Schedule A are imposed and levied on the assessed value of all land and improvements taxable for general municipal purposes, to provide monies required during the current year for the purpose of providing policing services, fire and rescue services and storm drainage respectively in the City, for which other provision has not been made.

PART TWO: REGIONAL DISTRICT RATES

- 2.1 The tax rates appearing in Schedule B are imposed and levied on the assessed value of all land and improvements taxable for hospital purposes and for Greater Vancouver Regional District purposes.

PART THREE: TRUNK SEWERAGE RATES

- 3.1 The tax rates shown in Schedule C are imposed and levied on the assessed values of all land only of all real property, which is taxable for general municipal purposes, within the following benefitting areas, as defined by the Greater Vancouver Sewerage & Drainage District:
- (a) Area A, being that area encompassing those portions of sewerage sub-areas and local pump areas contained in the Lulu Island Sewerage Area of the Greater Vancouver Sewerage and Drainage District as shown on the current plan of the Lulu Island West Sewerage Area; and
 - (b) Area B, being that area encompassing Sea, Mitchell, Twigg and Eburne Islands, which is that part of the **City** contained in the Vancouver Sewerage Area of the Greater Vancouver Sewerage and Drainage District as shown on the current plan of the Vancouver Sewerage Area; and
 - (c) Area C, being that part of the City contained in the Fraser Sewerage Area of the Greater Vancouver Sewerage and Drainage District as shown on the current plan of the Fraser Sewerage Area,

and the total amount raised annually is to be used to retire the debt (including principal and interest) incurred for a sewage trunk system, which includes the collection, conveyance and disposal of sewage, including, without limiting the generality of the foregoing, forcemain sewers and their pumphouses and such ancillary drainage works for the impounding, conveying and discharging the surface and other waters, as are necessary for the proper laying out and construction of the said system of sewerage works, provided however that land classified as "Agriculture Zone" in Section 14.1 of the **Zoning Bylaw**, is exempt from any tax rate imposed or levied pursuant to this Part.

PART FOUR: GENERAL PROVISIONS

4.1 Imposition of Penalty Dates

- 4.1.1 All taxes payable under this bylaw must be paid on or before July 2, 2020.

4.2 Designation of Bylaw Schedules

- 4.2.1 Schedules A, B and C are attached and designated a part of this bylaw.

PART FIVE: INTERPRETATION

5.1 In this bylaw, unless the context otherwise requires:

CITY means the City of Richmond.

ZONING means the Richmond Zoning.

BYLAW Bylaw 8500, as amended from time to time.

PART SIX: PREVIOUS BYLAW REPEAL

6.1 Annual Property Tax Rates (2019) Bylaw No. 10016 is repealed.

PART SEVEN: BYLAW CITATION

7.1 This Bylaw is cited as "Annual Property Tax Rates (2020) Bylaw No. 10174".
