- uncorrected audit misstatements, including disclosures
- corrected audit misstatements, including disclosures

#### Uncorrected Audit Misstatements

We have not identified misstatements that remain uncorrected for the year ended December 31, 2014.

#### Corrected Audit Misstatements

Refer to the Attachment II in the draft management's representation letter in Appendix 1 for a Summary of Corrected Audit Misstatements.

#### ***CONTROL DEFICIENCIES***

##### Background and professional standards

As your auditors, we are required to obtain an understanding of internal control over financial reporting (ICFR) relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

Our understanding of ICFR was for the limited purpose described above and was not designed to identify all control deficiencies that might be significant deficiencies. Therefore, there can be no assurance that all significant accounting deficiencies and other control deficiencies have been identified.

Our awareness of control deficiencies varies with each audit and is influenced by the nature, timing, and extent of audit procedures performed, as well as other factors.

##### Identification

In the current year, we did not identify any control deficiencies that we consider to be significant deficiencies in ICFR. The performance improvement observations noted in the prior year have been appropriately dealt with by management and we have no further comments on them.

#### ***DOCUMENTS CONTAINING OR REFERRING TO THE AUDITED FINANCIAL STATEMENTS***

We are required by our professional standards to read only documents containing or referring to audited financial statements and our related auditors' report that are available through to the date of our auditors' report. The objective of reading these documents through to the date of our auditors' report is to identify material inconsistencies, if any, between the audited financial statements and the other information. We also have certain responsibilities, if on reading the other information for the purpose of identifying material inconsistencies, we become aware of an apparent material misstatement of fact.

We are also required by our professional standards when the financial statements are translated into another language to consider whether each version, available through to the date of our auditors' report, contains the same information and carries the same meaning.

### ***CONFIRMATION OF INDEPENDENCE***

We confirm that we are independent with respect to the City within the meaning of the relevant rules and related interpretations prescribed by the relevant professional bodies in Canada and any applicable legislation or regulation from January 1, 2014 up to the date of this letter.

### ***CURRENT DEVELOPMENTS***

In addition to the developments previously reported to you, we note the following developments in Canadian Public Sector Accounting Standards:

#### Liability for Contaminated Sites

- As previously reported to you, PS 3260 Liability for Contaminated Sites is effective for years commencing on or after April 1, 2014. Early adoption is encouraged.
- Governments will be required to recognize a liability for contaminated sites when the government is responsible for, or accepts responsibility for, the contamination, and the contamination exceeds existing environmental standards. The amount recorded as a liability must be reasonably estimable and would include costs directly related to the remediation activities and post-remediation costs that are an integral part of the remediation strategy. Costs related to asset purchases to be used in remediation would be included in the liability to the extent that the assets have no alternative use.
- Management has commenced work to adopt the new accounting standard.

#### Related Party Disclosures and Inter-Entity Transactions

- The PSA Handbook previously had no specific accounting standards relating to related parties. PSAB recently approved two new sections: related party disclosures and inter-entity transactions. These new accounting standards are required to be adopted for the City's fiscal year beginning January 1, 2016.
- Related party disclosures
  - Related parties include entities that are controlled by or subject to shared control by a reporting entity, entities that are subject to common control, and entities that are subject to shared control. Disclosure is only required when transactions and events between related parties have or could have a material financial effect on the financial statements.
  - Related parties also include key management personnel and close family members. Disclosure of key management personnel compensation arrangements, expense allowances and other similar payments routinely paid in exchange for services rendered is not required.
  - Determining which related party transactions to disclose is a matter of judgment based on assessment of the terms and conditions underlying the transactions; the financial materiality of the transactions; the relevance of the information; and the need for the information to enable users' understanding of the financial statements and for making comparisons.
- Inter-entity transactions involving the transfer of assets or liabilities should be recognized by both a provider and a recipient at carrying amount, exchange amount or fair value depending on the particular circumstances of each case. Inter-entity transactions in the normal course of operations or under a policy of cost allocation and recovery should be recognized on a gross basis at the exchange amount.

### Exposure Drafts

PSAB has issued various exposures drafts during 2014 which are still in the comments process. Below is a listing some of the relevant exposure drafts:

- *Assets, Contingent Assets, and Contractual Rights* –Additional guidance on the definition and disclosure requirements of the assets, contingent assets, and contractual rights is provided. The guidance includes the definition of economic resources, future economic benefits, control, and past transactions and events for assets, the characteristics of contingent assets, and the characteristics of contractual rights.
- *Retirement Obligation* - Retirement obligations associated with tangible capital assets result from legal, constructive, and equitable obligations. Retirement costs increase the carrying amount of the related tangible capital assets and are expensed in a rational and systematic manner. Subsequent remeasurement of the liability can result in a change in the carrying amount of the related tangible capital asset. Retirement obligations include post-retirement operation, maintenance and monitoring.
- *Revenue* - A Statement of Principles was issued in 2013 and comments are currently under deliberation. Adoption of these principles would result in a need to assess current accounting policies. In the case of revenues arising from an exchange, a public sector entity must ensure the recognition of revenue aligns with the satisfaction of related performance obligations. For unilateral revenues, recognition occurs when there is authority to record the revenue and an event has happened that gives the public sector entity the right to the revenue.
