From:	Joe Erceg, General Manager Planning and Development	File:	08-4375-01/2014-Vol 01
Re:	Referral: West Cambie Alexandra Neighbourhood Business Office Area Review		

Staff Recommendation

1. That Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9121 to amend Schedule 2.11A in the 2041 Official Community Plan Bylaw 7100, to change the existing Business Office designation to Mixed Use Employment-Residential designation, be introduced and given first reading.
2. That Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9121, having been considered in conjunction with:
 - a. the City's Financial Plan and Capital Program;
 - b. the Greater Vancouver Regional District Solid Waste and Liquid Waste Management Plans;

is hereby found to be consistent with said program and plans, in accordance with Section 882(3)(a) of the Local Government Act.

3. That, in accordance with section 879 (2)(b) of the *Local Government Act* and OCP Bylaw Preparation Consultation Policy 5043, Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9121, be referred to the following bodies for comment for the Public Hearing:
 - a. Vancouver International Airport Authority (VIAA) (Federal Government Agency), and
 - b. The Board of Education of School District No. 38 (Richmond).
4. That City staff be directed to consult with VIAA staff regarding the proposed recommendation, prior to the Public Hearing.
5. That upon adoption of the above bylaws the West Cambie Alexandra Neighbourhood Mixed Use Employment – Residential Use Density Bonus, Community Amenity Contribution, Modest Rental Housing Rates Policy be approved.

6. That staff not proceed with the implementation of an interim sidewalk / walkway along Odlin Road and Alexandra Road, as a sidewalk/walkway already exists (south side of Odlin Road) or will be provided on at least one side of Alexandra Road within the next 2-3 years.
7. That staff consider the inclusion of interim sidewalk / walkway along Garden City Road as part of the City's 2016 capital program, if there are no immediate/imminent development applications for these fronting properties in the foreseeable future.
8. That lands along No 3 Road not be redesignated from residential use to employment use.

Joe Erceg,
General Manager, Planning and Development

REPORT CONCURRENCE		
ROUTED TO: Engineering	CONCURRENCE ☒	CONCURRENCE OF GENERAL MANAGER 
REVIEWED BY STAFF REPORT / AGENDA REVIEW SUBCOMMITTEE	INITIALS: 	APPROVED BY CAO 

Staff Report

Origin

This report responds to the following referral from July 28, 2014 Council:

It was moved and seconded,

That the staff report titled, "Referral: West Cambie Alexandra Neighbourhood Business Office Area Review" dated May 27, 2014 from the General Manager, Planning and Development, be referred back to staff for further analysis, including:

- (a) the examination of sidewalks in the West Cambie Area; and*
- (b) the examination of potentially re-designating parts of the No. 3 Road corridor from residential to employment use.*

Background

At the July 28, 2014, Planning Committee meeting, the report dated May 27, 2014 and titled, 'Referral: West Cambie Alexandra Neighbourhood Business Office Area Review' was presented and discussed (Attachment 1).

This report is to be read in conjunction with that report, as it provides the relevant background (e.g. various ratios for mixed use scenario options).

Analysis

Sidewalks in West Cambie - Alexandra Neighbourhood

In response to item (a) of the referral, Transportation staff have examined the condition and status of sidewalks in the West Cambie -Alexandra Neighbourhood and identified those areas in need of upgrades and the timing of proposed work. The following provides a summary of staff findings regarding item (a) by addressing the following three specific items:

- Item 1: Show where new sidewalks are needed,
 - Item 2: A funding source to improve sidewalks, and
 - Item 3: How the funding source will be repaid.
-
- Item 1: Show where new sidewalks are needed

A pedestrian circulation map (Attachment 2) shows the existing bus stops, existing sidewalks/walkways, and committed / planned sidewalks/walkways within the Alexandra West Cambie Area. A brief summary of staff assessment is as follows:

- Existing bus stops are located on both sides along Garden City Road, Cambie Road, and No.4 Road. There are no bus stops located along Alderbridge Way.
- Currently, for the perimeter arterial roads, there are sidewalks along both sides of Cambie Road and No.4 Road. Along Garden City Road, a sidewalk is only provided along the west side. No sidewalk is provided along Alderbridge Way.

- Two internal roads (i.e., Odlin Road and Alexandra Road) that existed, prior to the redevelopment of the West Cambie Area, did not have sidewalks originally. The implementation of an interim sidewalk / walkway along Odlin Road and Alexandra Road is not required, as a sidewalk/walkway already exists (south side of Odlin Road) or will be provided on at least one side of Alexandra Road within the next 2-3 years.
 - These two roads have been / will be upgraded shortly, as part of development frontage works, to include a continuous sidewalk / walkway on the south side of both roads in the interim.
 - Other new and recently constructed internal roads already include a sidewalk / walkway along the development frontage (i.e., Stolberg St., McKim Dr., May Dr., Dubbert St. and Tomicki Ave.).
 - All future internal roads will include a sidewalk on both sides of the road, which will be completed as part of development frontage works.
 - Current gaps in the sidewalk network to access existing bus stops (blue lines on Attachment 2) are located:
 - Along the east side of Garden City Road, from Alexandra Road to Cambie Road. This gap may be eliminated if the West Cambie Business Office area is amended and results in earlier redevelopment of the fronting properties.
 - At various sections along the north side of Odlin Road and Alexandra Road, where there is no existing sidewalk, nor is a sidewalk committed as part of development frontage works.
 - Staff's current plan is to eliminate these gaps in the sidewalk network as part of future development frontage works.
- Item 2: A funding source to do it now

Below are order of magnitude cost estimates to provide an interim asphalt walkway to fill in the gaps in the sidewalk network as noted above:

- Along the east side of Garden City Road: approximately \$350,000 (interim asphalt walkway); a concrete sidewalk with curb and gutter costs in the range of \$1.5M - \$2M.
- Along the north side of Odlin Road: approximately \$200,000 (interim asphalt walkway); a concrete sidewalk with curb and gutter costs in the range of \$1.0M - \$1.5M.
- Along the north side of Alexandra Road: approximately \$170,000 (interim asphalt walkway); a concrete sidewalk with curb and gutter costs in the range of \$0.7M - \$1.0M.

Note that the above cost estimates were prepared without the benefit of any design and, as such, the cost estimates will need to be reviewed/revised when the road functional design is prepared.

These interim asphalt walkway projects may be funded through Roads DCC funding, as part of the annual sidewalk / walkway improvement programs. However, in the current proposed 2015 Capital Program (budgeted at \$300,000) there is no allowance for walkways or sidewalks in this area. If it is decided to implement any of the above noted walkway projects this year, all other planned projects for 2015 would need to be deferred, such as the new sidewalk proposed on east side of Minoru Boulevard from Alderbridge Way to Elmbridge

Way and a new walkway on north side of Bridgeport Road from Viking Way to No. 6 Road. Alternatively, these interim walkway improvements could be implemented starting in 2016.

If the decision is to pursue the ultimate concrete sidewalk along Garden City Road in the short term, it would be necessary to seek alternative funding, as the current Roads DCC funding level is not sufficient due to other planned transportation projects. If directed by Council, staff would confirm the project cost and identify specific funding options as part of City's Budget Process and report back to Council for consideration.

Based on above, staff recommend not proceeding with the implementation of an interim sidewalk / walkway along Odlin Road and Alexandra Road, as a sidewalk/walkway already exists (south side of Odlin Road) or will be provided on at least one side of Alexandra Road within the next 2-3 years. The City may, however, consider the inclusion of interim sidewalk / walkway along Garden City Road, as part of the City's 2016 capital program, if there are no immediate/imminent development applications for these fronting properties in the foreseeable future.

- Item 3: How the funding source will be repaid

The funding source (Roads DCC) will not be repaid for advancing these interim walkway improvements, as internal borrowing is not required. To advance the ultimate sidewalk improvements along Garden City Road, however, would necessitate the use of alternative funding (e.g. internal borrowing) that may require payback from Roads DCC.

Employment Use

In response to item (b) of the referral, *the examination of potentially re-designating parts of the No. 3 Road corridor from residential to employment use*, Policy Planning staff conducted additional research and an evaluation of the employment space in consideration of identifying an acceptable mixed use employment-residential option that provides an overall benefit to the City. The following provides a summary of the findings.

Current Inventory of Employment Lands

There are currently 391 ha (966 acres) of employment designated lands within 1 km of the Canada Line stations (Attachment 3). These lands equate to 42 Million (M) sq. ft. of employment space at only 1.0 FAR; the current designations anticipate much higher densities.

Employment lands fronting onto to No. 3 Rd. north of Granville Rd. (Attachment 4) are estimated at 12.2 M sq. ft. of space at 1.0 FAR and the current designations anticipate future development at much higher densities.

Employment Space Projections/Trends – Good News

Current proposals being considered by the City involve nearly 5.2 M sq. ft. of commercial space, including nearly 1.4 M sq. ft. of office being completed and added to the City's inventory in the City Centre near current or proposed Canada Line Stations. Considering anticipated phasing and

potential market absorption, it is projected that current proposals could result in nearly 4 M sq. ft. of commercial space being completed by 2020.

The *2041 Employment Land Strategy* (ELS) project that the employment space in City Centre would rise from 2.0 M sq. ft. in 2009, up to just over 2.5 M sq. ft. by 2041. It is important to note that, current trends indicate that the City Centre area will exceed 3.2 M sq. ft. by 2025, far surpassing the ELS projections of 2.5 M sq. ft. - approximately 20 years sooner than anticipated.

Based on known proposals, City-wide employment space projections are expected to rise from their 2009 level of 6.4 M sq. ft., up to 7.7 M sq. ft. by 2025. This market trending is well above the ELS projections for 8.0 M sq. ft. of employment space City Wide by 2041. The only areas in the City trending below the ELS projections are in North Richmond, including the *West Cambie Area Plan (WCAP) Alexandra Neighbourhood*, where redevelopment and/or intensification of employment lands is occurring at a slower rate.

Therefore, the City is in a much better position than previously anticipated in terms of employment lands being developed for office space in the City Centre and City-wide, which significantly reduces the importance of retaining all the employment lands in the Alexandra Neighbourhood.

Displacement of Employment Space

The employment space, based on the WCAP land use designation at 1.25 FAR, could achieve a maximum of 865,000 sq. ft. over the entire 15.9 acre site. Relaxing the employment space to a minimum of 30% of the floor area (.52 FAR), based on an increased FAR of 1.75, reduces the projected employment space by 58% to a minimum of 364,000 sq. ft.

The theoretical loss of employment space in the West Cambie Business Office Area would be an estimated maximum of 500,000 sq. ft., which could be acceptably made up in several nearby areas, such as:

- i) Lands immediately to the west across Garden City Road currently form part of the City's mixed employment lands. Under the current WCAP designation, this area could provide up to 4.5 M sq. ft. of employment space at 1.2 FAR. Increasing the FAR in this area by 0.15 FAR to 1.35 employment use could make up for the ½ M sq. ft. of 'lost' employment space in West Cambie.
- ii) Lansdowne Mall area is in a key location along the Canada Line. Comprehensive long term planning of this site could encourage additional employment space to be included in its redevelopment, and could better provide for Transit Oriented Development office space, which supports desired higher-paying jobs. The 'lost' employment space could also be redirected to this location.

Together, these two areas could more than make up for the 'lost' West Cambie Employment Space.

While the above specifically identifies where the theoretical ‘lost’ employment space from the Alexandra neighbourhood could be relocated, the recent employment space trends indicate that the City Centre is trending to surpass the ELS projected needs for employment space 20 years ahead of schedule. This would suggest that employment space being ‘lost’ from the WCAP does not require replacement through policy, but will be redirected through market forces to areas that are supported by the commercial/office industry and end users.

City Centre Area Plan

The *City Centre Area Plan* (CCAP) addresses the future land uses in this area, and recognizes that some of the lands along the No. 3 Road corridor are located in the flight paths of the *Vancouver International Airport* runways and thus are not deemed suitable for residential uses.

The balance of the No. 3 Road corridor accommodates a mix of employment and residential uses that will help build this area into a vibrant complete community for people to live, work and play. This, along with the abundant supply of employment lands, lead staff to advise that re-designating lands along the No. 3 Rd. from residential use to employment use is not recommended or required to accommodate ‘lost’ West Cambie Employment Space.

Implications of Mixed Use

The implications of creating a new designation in the WCAP of Mixed Use Employment-Residential uses to replace the Business Office area designation include the following:

- There is a potential for a quicker build out and completion of the WCAP– Alexandra Neighbourhood area, due to higher market interest.
- Through density bonus incentives, much needed additional built affordable housing, low end market rental and market rental units to serve the nearby retail shops and services workers would be provided.
- The OCP Airport Noise Sensitive Development designation will need to be removed to allow residential uses subject to stringent noise mitigation covenants.
- Changing to a mixed use designation could encourage speculative land owners nearby (e.g., west of Garden City Rd.) to hold off developing employment space in hopes of achieving higher residential prices for their lands. Such possible speculation could prevent further employment space development, in the short term in this area. Any such residential use increase requests can be managed on a case by case basis.

Affordable Housing Needs

The Westmark proponents for the change in use in this area recently amended their proposal based on meetings with staff and now include a commitment for a minimum 5% of the residential floor area to be built Affordable Housing (AH), as per the City’s standard agreement. The provision of built Affordable Housing at a rate of at least 5% of the total residential floor area would be one of the requirements for an additional 1.28 Residential FAR Bonus Density above the base density of 0.52 FAR for employment uses.

Also to qualify for the residential Bonus Density, the developer must also provide a minimum 7.5% of the residential floor area in the form of purpose built, modest rental housing, subject to a non-standard housing agreement to ensure that the units remain as long-term rental properties

(Table 1). As these modest rental units are not subject to the City's standard housing agreement, the customized housing agreement will also ensure that no additional fees (e.g. strata type fees) are passed onto tenants in addition to the controlled rental rates.

Table 1

Unit Type	Maximum Monthly Rent*	Maximum Total Household Annual Income*
Bachelor	\$700	\$34,000 or less
One bedroom	\$750	\$38,000 or less
Two bedroom	\$1,100	\$46,500 or less
Three bedroom	\$1,400	\$57,500 or less

*Note: Rents and household income may be reviewed periodically.

The modest rental unit rates will be established in the proposed West Cambie Alexandra Neighbourhood Mixed Use Employment – Residential Use Density Bonus, Community Amenity Contribution, Modest Rental Housing Rates Policy (Attachment 5). These rental rates are set lower than the City's Affordable Housing Rates.

The developer is also required to provide at least 2.5% of the residential floor space as market rental units that are subject to a housing agreement ensuring they remain as rental units in perpetuity.

The above mix of residential uses are based on Westmark's proposal and have been used as a basis to craft the policy for this area. If the above recommendations and all Bonus Densities were applied to a 2.2 ha (5.6 ac) portion of the Business Office lands, it would result in the following (Table 2):

Table 2

Use	Type	Floor Area Ratio	Est. Gross Floor Area (sq. ft.)
<i>Employment</i>	Retail/Office	.52	128,000
<i>Bonus Residential</i>	Affordable Housing (standard agreement)	.06	15,600
<i>Bonus Residential</i>	Modest Rental Housing (non-standard agreement)	.10	23,400
<i>Bonus Residential</i>	Market Rental (agreement to secure as rentals in perpetuity)	.05	7,800
<i>Bonus Residential</i>	Market Strata Units	1.09	265,200
	Total (Base + Bonus Density)	1.80	440,000

Included in the residential component, and based on maximum densities, could be an estimated 39,000 sq. ft. of built Affordable and Modest rental housing space which would equate to between 50-60 non-market rate residential units of various sizes. The final configuration of the space in terms of total units, sizes and number of bedrooms/unit would be guided by the City's needs identified by the Affordable Housing staff and confirmed prior to their application coming forward to Planning Committee at a later date.

The above approach would provide a significant benefit to the City in terms of meeting its housing needs.

The revised proposal and recent office/commercial development proposals and trends, lead staff to now support and recommend an amendment to the WCAP Business Office designated lands, to allow a base density of .52 FAR for employment uses, with an available 1.28 FAR of residential bonus space, for a total of 1.8 FAR for mixed-use employment residential space. All of the built AH and modest rental units would be required to be built within the first half of the residential floor area development of each project, and in conjunction with the completion of the employment floor area. Establishing a minimum of 0.52 FAR for employment space and setting that as the base density, while allowing bonus residential floor area with a minimum (based on floor area) of 5% for built affordable housing, 7.5% for secured modest rental housing, and 2.5% market rental units provides significant benefit to the City.

Employment-Residential Mixed Use

Staff have provided their recommendations on two previous occasions, the first recommendation in 2013 was to retain the land for 100% employment at 1.25 FAR (Status Quo), which was subsequently referred back to staff for a recommendation for an employment-residential mixed use ratio. As an employment-residential mixed use option was preferred by Council, in 2014 staff recommended a 60% Employment: 40 % Residential option, with an opportunity for adding up to an additional 0.5 FAR Bonus to secure needed affordable housing. The increased FAR, to a maximum of 1.75 FAR, was intended to also minimize the impact on future employment lands being lost. This option proved to be unacceptable to Council.

Since the latest referral from July, 2014, staff researched updated reports and statistics, including proposals for commercial and office space with the City Centre Area Plan (CCAP). The most recent trends in office development support claims that office demand is focused along the Canada Line and within short walking distance to transit stations.

Given this new information and most recent trends, staff can now support the option of approximately 30 % Employment use at 1.75 FAR, which is equal to .52 FAR of employment space. The available residential Bonus Density, in terms of allowing for any residential floor area, enables the City to achieve the much needed built Affordable Housing, Modest rental housing and purpose built long-term market rental housing while providing adequate incentives to the developer.

Employment Lands Summary

Given the new information in terms of actual proposals and recent office trends, staff support the scenario for a minimum of .52 FAR (approximately 30 % Employment use at 1.75 FAR) with an available 1.28 FAR residential bonus density for a total 1.8 FAR, providing that the residential floor space is comprised of a minimum of 5 % built Affordable Housing, 7.5% purpose built modest rental controlled units, and 2.5% market rental units, making up a minimum total of 15% of the residential floor area.

Implementation

To implement the above, the following is proposed for the West Cambie Alexandra Neighbourhood Business / Office area:

1. The 2041 OCP will be amended by:
 - re-designating the area, from Mixed Employment, to Mixed Use,
 - removing from the area, the OCP Aircraft Noise Sensitive Development (ANSD) overlay,
2. The West Cambie Area Plan (WCAP) will be amended by:
 - re-designating the area, from Business Office, to Mixed Use Employment - Residential, and
 - making the appropriate text and map changes throughout the Area Plan, and
3. A new policy titled “West Cambie Alexandra Neighbourhood Mixed Use Employment – Residential Use Density Bonus, Community Amenity Contribution, Modest Rental Housing Rates Policy” is proposed to establish effective housing policies. The Policy is to be approved when the OCP and Area Plan amendments are adopted.

Once the above changes are approved, Council will have established a clear direction as to how the area is to re-develop and meaningful community benefits (e.g., built affordable housing, low end rental housing and market rental housing) are to be provided.

Based on these policies, developers may bring forth rezoning proposals for consideration.

Financial Impact

None

Conclusion

Staff has responded to Planning Committee’s request to:

1. examine and report on the sidewalks in the West Cambie Alexandra neighbourhood,
2. examine the potential need to redesignate portions of the No 3 Road corridor from residential use to employment use, and
3. further examine mixed use employment-residential options.

Staff recommend:

1. That staff not proceed with the implementation of an interim sidewalk / walkway along Odlin Road and Alexandra Road, as a sidewalk/walkway already exists (south side of Odlin Road) or will be provided on at least one side of Alexandra Road within the next 2-3 years.

2. That staff consider the inclusion of interim sidewalk / walkway along Garden City Road as part of the City's 2016 capital program, if there are no immediate/imminent development applications for these fronting properties in the foreseeable future.
3. That lands along No 3 Road not be redesignated from residential use to employment use.
4. Redesignating the *Business Office* area to *Mixed Use Employment-Residential* at a base density of 0.52 FAR for Employment space, with an available bonus residential density of 1.28 FAR, provided that built Affordable Housing is included at a minimum rate of 5% of the total residential floor area and an additional 7.5% of the residential floor area is provided as modest rental units and 2.5% as secured long-term market rental housing, combining for a total of at least 15% of the residential FAR.
5. Establishing the West Cambie Alexandra Neighbourhood Mixed Use Employment – Residential Use Density Bonus, Community Amenity Contribution, Modest Rental Housing Rates Policy.

Economic Development	☒	
REVIEWED BY STAFF REPORT / AGENDA REVIEW SUBCOMMITTEE	INITIALS:	APPROVED BY CAO

Staff Report

Origin

This report responds to the following referral from April 23, 2014 Planning Committee:

It was moved and seconded

That the staff report titled, West Cambie; Alexandra Neighbourhood Business/Office Area Review, dated April 4, 2014 be referred back to staff so that it may be:

- (1) deferred to a subsequent Planning Committee meeting to receive comment from the City's economic land consultant regarding the land use proposals; and*
- (2) referred to the Economic Advisory Committee for feedback.*

Background

At the April 23, 2014, Planning Committee meeting, the report dated April 4, 2014 and titled, "*West Cambie: Alexandra Neighbourhood Business / Office Area Review*" was presented and discussed (Attachment 1).

This report is to be read in conjunction with the original April 4, 2014 report, as it provides the requested feedback from the Economic Advisory Committee (EAC) and clarification on assumptions made in the analysis of the four Development Scenarios from the City's real estate consultant, *Site Economics Ltd.* Additional office market information and detailed statistics have also been provided to address the viability of Business Office development in the West Cambie Study Area.

Analysis

1.0 Referral Feedback – Economic Advisory Committee (EAC)

The Economic Advisory Committee (EAC) has reviewed this matter twice, first time in early 2013 and, as requested by the Planning Committee, again at its May 15, 2014 meeting.

In May 2013, the EAC reviewed the report titled, *West Cambie-Alexandra Neighbourhood Business Office Area Review* which supported retaining the existing Area Plan *Business Office* designation, as it was consistent with the Employment Land Strategy 2010 and the 2041 OCP. The EAC supported retaining the Business Office designation.

On May 26, 2014, as requested by Planning Committee, the EAC once again considered the report to Committee which provided an analysis of the following Development Scenarios:

- Development Scenario 1 - 100% Mixed Employment,
- Development Scenario 2 - 60% Employment: 40% Residential (Staff recommendation),
- Development Scenario 3 - 30% Employment: 70% Residential (Westmark Proposal #2),
- Development Scenario 4 - 20% Employment: 80% Residential (Westmark Proposal #1).

The EAC reviewed the report and provides the following comments for consideration:

After a broad discussion and given the Committee's mandate and perspective, the EAC upholds its initial position and supports Scenario 1 Retain 100% Employment Uses for the Study area. The reasons remain unchanged from the EAC's 2013 initial position to retain 100% employment in the Study Area, including:

- Keep employment lands as such, per the City's recently adopted 2041 Employment Lands Strategy and 2041 OCP;*
- Don't give in to market pressure to convert employment land to residential use because the capacity of the existing residential zone is virtually limitless, while the capacity of office and industrial is limited;*
- Avoid setting a precedent of converting employment land to residential, just because the immediate market opportunity is suggesting residential uses, when the underlying principle is need [sic] to be a long term overall City economic benefit to the community;*
- Constraints (e.g., appropriate zoning) will encourage creativity for the development of the employment lands and current zoning and Area Plan requirements should not be ignored, due to current market conditions; and*
- Respect the process and Council-approved outcomes of the 2041 OCP, the 2014 Resilient Economy Strategy and the 2041 Employment Lands Strategy and the effort of staff, volunteers and the larger community who participated in those processes to maintain the credibility and integrity of the work completed to date.*

2.0 Clarification of Assumptions

At the April 23, 2014 Planning Committee meeting, there were questions with regards to the term "industry standard" for mixed use commercial-residential developments. The information below provides further clarification with regards to this matter.

"Industry Standard"

The reference to industry standard by *Site Economics Ltd.*, the City's real estate consultant, reflects development ratios where mixed use commercial-residential uses are permitted into an area designated as "employment lands". The consultant's position is that when the percentage of employment space is diminished to below 60% of the total floor area, then the area is seen by commercial office developers as being a "residential" area that has some mixed uses that may or may not include needed office space.

As these lands are identified in the *2041 OCP* and *Employment Lands Strategy* as protected employment lands, then employment space should maintain a dominant role. The consultant indicates that commercial office developers would not likely view this location as a viable employment area in which to invest in building new commercial office space, if residential is the dominant use of the site.

3.0 Office Locations throughout the City

Since the April 23, 2014, Planning Committee meeting, staff have reviewed additional information and more detailed statistics regarding the City's office market to better address Committee's questions.

Since office tenants have different requirements, they locate in different areas to meet their individual needs and budgets. Office space is generally identified by the *Building Owners and Managers Association* (BOMA) *Building Classification* system and by proximity to rapid transit stations. These are usually major factors in a company's decision to locate in a particular area and building, and are explained in further detail below.

BOMA Office Building Classification

The BOMA Office Building Classification system provides a general description of various types of office buildings which characterize the building's prestige based on the building's level of exterior and interior finishes including infrastructure, the types of clients and the relative market lease rates for the area. In Richmond, the main office building classifications are outlined below along with the recent reported vacancy rates and average asking gross rental rates for comparison purposes.

- **“Class A” Buildings:** Prestigious buildings competing for premier office users with rents above average. Characterized by buildings that have high-quality standard finishes, state-of-the-art systems, exceptional accessibility and a definite market presence.
 - *Percentage of Richmond Office Inventory:* **48%**
 - *Asking gross rental rates (Richmond, BC):* **\$ 29.39**
- **“Class B” Buildings:** Characterized by new buildings in non-prime locations and older buildings with good quality tenant improvements, competing for a wider range of users with average rents. Finishes are fair to good for the area and systems are adequate, but the building does not compete with Class A at the same price.
 - *Percentage of Richmond Office Inventory:* **44%**
 - *Asking gross rental rates (Richmond, BC):* **\$ 21.23**
- **“Class C” Buildings:** Characterized by older structures, poor-to-average quality of tenant improvements and may not have elevators and air conditioning. Competes for tenants requiring functional space at rents below average.
 - *Percentage of Richmond Office Inventory:* **8%**
 - *Asking gross rental rates (Richmond, BC):* **\$ 14.35**

The office building classifications and net asking rents illustrate how there are different office spaces to meet different needs and budgets.

Proximity to Rapid Transit

Not everyone wants or needs to be located within 500m of a Rapid Transit Station. An employment (e.g., office) building's proximity to rapid transit can contribute to its market attractiveness and thus can often demand higher rents than comparable buildings elsewhere.

However, this trend towards offices within 500m of rapid transit is not a guarantee for landlords, as seen in Burnaby and Surrey, where large blocks of office space were recently vacated, as the tenants moved to other transit serviced spaces in New Westminster (*Jones Lang LaSalle, Rapid Transit Index, Q3, 2013*).

4.0 Office Vacancy Rates

A Healthy Office Vacancy Rate

When reviewing office vacancy rates, it should also be noted that a “healthy office vacancy rate” is considered to be around 8% (*DTZ-Barnicke Real Estate Advisors, 2014*). The consultants advise that an 8% vacancy rate is healthy, as it enables office tenants to relocate from one area to another area to better meet their changing needs and circumstances. As well, an office vacancy rate above 8% generally indicates an oversupply of office space, while a vacancy rate under 8% suggests that there is an undersupply and additional office space is welcomed. For these reasons, it is suggested that office space in the West Cambie Study Area will be viable

Comparable West Cambie Office Vacancy Rates

Since the April 23, 2014, Planning Committee meeting, staff have further researched office vacancy rate statistics and confirmed that the office vacancy rate that would be most comparable to the West Cambie Study Area is 6.3%. In Richmond, a comparable office area is located within 800m of a Canada Line rapid transit station which has comparable Class A and B office vacancy rates. Class C office space which involves existing older structures, as described in Section 3.0 above, is not included in the comparison, as in the West Cambie Study Area, those types older buildings do not exist and are not proposed for the Study Area. For these reasons, the Class C Office vacancy rate is not relevant to the comparison.

Table 1 - Detailed Office Statistics

Office Location and Class	Class A		Class B		Class C		Total
	Inventory	Vacancy Rate	Inventory	Vacancy Rate	Inventory	Vacancy Rate	Vacancy Rate
Transit Oriented (<500m)	163,000	< 1.0 % (undersupply)	Stats not available	Stats not available	Stats not available	Stats not available	5.3 %
Near Transit (<800 m)	755,028	5.8% (undersupply)	75,640	10.9%	269,332	22.5%	10.8%
West Cambie Comparable*) 800 m of rapid transit*	Class A+B (near transit) Inventory: 830,668 sq. ft Vacancy Rate: 6.3% (undersupply)				-	-	6.3%
City Centre	711,385	7.5% (undersupply)	105,765	9.3%	367,633	19.2%	11.2%
Note: A Healthy (ideal) Vacancy Rate is 8%							
Crestwood	964,165	34.3 %	87,304	73.7 %	60,000	4.3 %	35.8% (oversupply)
Richmond	2,507,839	26.3 %	916,508	26.4 %	724,037	17.1 %	24.7% (oversupply)

Source: Coriolis Consulting Group, *Richmond Resilient Economy Strategy*

* Jones Lang LaSalle *Rapid Transit Index (RTI) Q3-2013*

** Based on Class and proximity to transit; Statistics derived from Coriolis report for this table

Table 1 above emphasises that there is a viable demand for Class A and B office space in the Study Area.

Interpreting Office Vacancy Rate Statistics

One way that office vacancy rates are often misinterpreted is that they are generally reported as an average across all office classes throughout the City which is inappropriate for comparison to the Study Area. The recently approved *2014 Richmond Resilient Economy Strategy, Technical Report #3: Richmond's Role as a Regional Office Centre*, prepared by Coriolis Consulting Ltd. for the Richmond Economic Development Division, provides more detailed and in-depth statistics that differentiate office vacancies by Building Class and proximity to Transit (Table 1).

As well, the study reveals that the city wide office vacancy rate for all building classes in Richmond is 18.8%, as reported by *Colliers International* in their *Q1, 2014 Office Statistics*; however, the most relevant office vacancy rate for comparison to the West Cambie Study Area is 6.3%, as it includes only Class A and B office buildings and is near rapid transit.

5.0 Quality of Jobs and Annual Salaries*Quality of Jobs*

The April 4, 2014 Report to Committee (Attachment 1) indicated that the proposed Class A and B office jobs in the Study Area under the recommended Scenario (60% Employment: 40% Residential) would enable excellent, higher paying jobs. This evaluation was based on the amount of projected jobs, since in each of the scenarios, retail space would be limited to the ground floor only and oriented towards the arterial roads. Retail floor space and the associated jobs would remain the same in each scenario, therefore any change in the amount of commercial floor space has direct correlation to the amount of projected office jobs (more commercial space = better quality jobs).

Since the recommended Scenario (60% Employment: 40% Residential) retains 84% of the existing allowable commercial (employment) floor space found in Development Scenario 1 (100% Employment), it was ranked as excellent. Scenarios 3 and 4 would retain only 42% and 28% of the commercial space, respectively, therefore they were ranked lower quality jobs.

Annual Salary

Site Economics Ltd. estimated an average annual salary of \$60,000 for projected jobs in the West Cambie Study Area. Statistics Canada reports that the average hourly wage of a permanent job in BC is \$25 in 2014 and the average annual base salary for office type occupations was over \$57,000 with total compensation packages at approximately \$72,000 (Table 2 below).

As incomes are generally higher in the Greater Vancouver area and development completion in the Study Area is at least 4 years from the present, the figures are confidently estimated to be \$60,000 or approximately 10% higher than the current rate.

The consultant's assumption used in the analysis, that the average salary would be approximately \$60,000 per year, is consistent with the statistics outlined below in Table 2.

Table 2 Examples of 'Office Type' Occupations to be attracted to West Cambie

Occupation	Base Salary	Benefits (25%)	Total Compensation
Management	\$ 75,358	\$ 18,840	\$ 94,198
Business, finance and administrative	\$ 46,301	\$ 11,575	\$ 57,876
Natural and applied sciences and related	\$ 66,539	\$ 16,635	\$ 83,174
Health	\$ 60,320	\$ 15,080	\$ 75,400
Social science, education, government service and religion	\$ 60,507	\$ 15,127	\$ 75,634
Sales and service	\$ 35,173	\$ 8,793	\$ 43,966
Average	\$ 57,366	\$ 14,342	\$ 71,708

6.0 Future Office Development - Is there a Glut?

Since April 23, 2014, staff have verified that there is currently 1.3M sq. ft. of office space proposed in developments that are underway in the City Centre, with an anticipated completion over the next 15 years (2029). More specifically, there is 290,000 sq. ft. of proposed office space in Capstan Village and 1,000,000 sq. ft. in Bridgeport Village (e.g., Duck Island).

The 2009 City Centre Area Plan reported an existing 80 acres of zoned land for office uses, with a projected demand of 119 acres required by 2041 to accommodate the estimated 17.0 M square feet of new office space. So while the 1.3M sq. ft. may initially seem to be a large amount of office space development, it is only 13% of the 2041 OCP forecasted average yearly growth required to meet the *2041 OCP Employment Land Strategy* objectives. Thus, staff consider the proposed 1.3M sq. ft. of office space to be an undersupply of office space and not a "glut".

7.0 Summary

The West Cambie Study Area is a competitive and viable location for office space for the following reasons:

- Comparable Class A and B office space near transit has only a 6.3% vacancy rate (Coriolis, 2013) which means that there is an undersupply, since a healthy office vacancy rate is 8% (DTZ-Barnicke, 2014).
- As not all office space needs to be in the City Centre, the Study Area is very viable for Class A and B offices.
- 82% of Richmond's workforce are in positions that require office space.
- As approximately 92,000 Richmond workers travel to work by various methods: 76% by private vehicle, 18% take public transit, and 6% walk, bike or use other means, the Study Area is viable as:
 - The Aberdeen (Rapid Transit) Station is only 810m away and is easily walkable,
 - It is currently well served by six bus routes within 200m of the Study Area, and
 - It has excellent vehicle access, as it is located on a major arterial road network with highway access.

- Future planned/in process office development in the City Centre is still considered an undersupply as it is below the average growth rate to meet the City's Employment Land Strategy (i.e., no glut).

Financial Impact

None

Conclusion

Staff has responded to Planning Committee's request to provide Economic Advisory Committee comments and to clarify certain Study Area topics.

Report to Committee

To: Planning Committee
From: Joe Erceg, General Manager
Planning and Development
Date: April 4, 2014
File:
Re: West Cambie: Alexandra Neighbourhood Business/Office Area Review

Staff Recommendation

1. That Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9121 to amend Schedule 2.11A in the 2041 Official Community Plan Bylaw 7100, to change the existing Business Office designation to Mixed Use (60% Employment:40% Residential) designation, be introduced and given first reading.
2. That Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9121, having been considered in conjunction with:

- a) the City's Financial Plan and Capital Program;
- b) the Greater Vancouver Regional District Solid Waste and Liquid Waste Management Plans;

is hereby found to be consistent with said program and plans, in accordance with Section 882(3)(a) of the Local Government Act.

3. That, in accordance with section 879 (2)(b) of the *Local Government Act* and OCP Bylaw Preparation Consultation Policy 5043, Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9121, be referred to the following bodies for comment for the Public Hearing:
 - a) Vancouver International Airport Authority (VIAA) (Federal Government Agency), and
 - b) The Board of Education of School District No. 38 (Richmond).
4. That City staff be directed to consult with VIAA staff regarding the proposed recommendation, prior to the Public Hearing.

REPORT CONCURRENCE		
ROUTED TO: Finance Division Community Social Development Parks Services Engineering Development Applications Transportation	CONCURRENCE 	CONCURRENCE OF GENERAL MANAGER 
REVIEWED BY STAFF REPORT / AGENDA REVIEW SUBCOMMITTEE	INITIALS: 	APPROVED BY CAO 

Staff Report

Origin

On July 8, 2013, Council passed the following resolution:

That the report from the General Manager, Planning and Development, dated June 24, 2013, titled: West Cambie – Alexandra Neighbourhood Business/ Office Area Review be referred back to staff to further consider mixed use including commercial, residential and office use and the appropriate proportion and number of units for each use.

The purpose of this staff report is to address this referral.

2011 – 2014 Council Term Goals

The report addresses the following 2011 - 2014 Council Term Goal 7:

- *Managing Growth and Development.*

Background

1. West Cambie Area Plan - Alexandra Quarter

The West Cambie Area Plan was adopted in 2006. At the time of approval, the Alexandra quarter section of the Area Plan (approx. 160 acres) was estimated to enable 6,000 people and 2,000 jobs at build out in 2041. Since the Area Plan was approved, development in the Alexandra quarter has proceeded as intended (e.g., as multi-family residential projects, the Smart Centres project which includes a Walmart retail outlet, a child care facility, a district energy utility, parks and trails).

2. The Study Area - Alexandra Mixed Employment (Business/Office) Area

Of the 160 acre Alexandra quarter, approximately 16 acres (15.9 acres) is designated as a Business/Office Area which occupies the north west corner of the quarter and is bounded by Alexandra Road to the south, Garden City Road to the west, Cambie Road to the north and Dubbert Street to the east: this is the Study Area (Attachments 1 & 2). The Area Plan currently allows the following uses in the Business/Office Area:

Business and Office Uses over Retail up to 1.25 FAR including office commercial, restaurants, neighbourhood pubs, retail and retail services commercial - small floor plate only including service station, educational facilities, recreational facilities, enclosed commercial parking, preferably structured and neighbourhood commercial, at the southeast corner of Garden City Road and Cambie Road.

3. Summary of the January 2014 Westmark Proposal

Initially in 2013 and later revised in January 2014, the Westmark Development Group (Westmark) applied to rezone one third (5.1 acres) of the Alexandra Neighbourhood Business/ Office Area which they have assembled along the west portion of the Alexandra quarter and which fronts onto Garden City Road, north of Odlin Road and south of McKim Way, to enable a 20% Mixed Employment (e.g., office, commercial) and 80% Residential development (Attachment 2). The developer has been advised that their rezoning application will not be processed, until Council has decided upon an updated land use policy for the area.

Relevant Policies and Considerations

1. Planning Policies

Policy Planning staff established a review team involving Transportation, Engineering, Community Services and Parks staff, to address the referral. Staff were guided by the *2041 Official Community Plan* (e.g., *2041 OCP Population*, *2041 Housing and Employment Projections Study*, *2041 OCP Employment Lands Strategy*, *2041 City OCP Aircraft Noise Sensitive Development [ANSD] Policies*), the *2006 West Cambie Area Plan (WCAP)*, the *2007 Affordable Housing Strategy*, the *2022 Parks and Open Space Strategy*, the *Metro Vancouver – 2040 Regional Growth Strategy* and recent market trend considerations. As well, staff sought the advice from *Site Economics Ltd.* an economic land consultant to assist in evaluating the economic, employment and property tax impacts of the Development Scenarios. *Site Economics Ltd.* helped prepare the *2041 OCP Employment Lands Strategy*.

2. Study Area Characteristics

The Business Office Use Area, in the Alexandra Quarter is intended to assist the City in meeting its long term 2041 OCP employment land needs. The characteristics of the Study Area are summarized in Table 1 below:

Table 1: Study Area Characteristics Business Office Use, Alexandra Quarter, West Cambie	
Topic	Summary
Study Area - Size	- 16 acres: (15.89 acres, or 6.43 ha - 692,601 ft²) - Approximately 10% of the whole Alexandra Quarter Section
Total Buildable Area	- 865,755 ft² (at 1.25 FAR)
2041 OCP Land Use Designation	Mixed Employment Those areas of the City where the principal uses are industrial and stand-alone office development, with a limited range of support services. In certain areas, a limited range of commercial uses are permitted such as the retail sale of building and garden supplies, household furnishings, and similar warehouse goods.
2041 OCP Noise Sensitive Development Area (ANSD) Designation	- Designation - Area 1A (35 - 40 NEF) - New Aircraft Noise Sensitive Land Uses (residential, school, hospital, day care) are prohibited
West Cambie Area Plan, Alexandra Quarter Land Use, Density, Height:	Business Office Uses (non residential) - Office commercial - Restaurants and neighbourhood pub - Retail and retail services commercial — small floor plate only - Educational facilities - Recreational facilities - Enclosed commercial parking, preferably structured. - A service station and neighbourhood commercial uses, at the southeast corner of Garden City Road and Cambie Road. - Maximum FAR 1.25 - Maximum Height: 2 to 4 storeys (8 metres – 15 metres); 5 storeys (20 metres) of non-combustible construction can be considered.
Existing Zoning	Mainly Single Family - RS1/F (1x CG2 lot and 1x RD1 lot) Width = 18 m (60 ft) Minimum Area 828 m ² (8,913 ft ²)
Existing Uses	Single Family Residential
Transit Services	- The Study Area is well serviced by public transit with two current bus routes fronting Garden City Road (407 and 430), bus service along Cambie Road and there are direct bus connections to the Richmond-Brighouse and Bridgeport Canada Line stations.

Table 1: Study Area Characteristics Business Office Use, Alexandra Quarter, West Cambie	
Topic	Summary
	- The Canada Line is about 1 km (about a 15 minute walk) from the area. - The City is working with TransLink to monitor service levels and seek service improvements over time.
Water	System
Sanitary	Septic Tank: Sanitary Sewer System connection required with development
Drainage	Yes
Alexandra District Energy Utility (ADEU)	New development will be required to connect to the ADEU

3. Criteria to Evaluate the Development Scenarios

The Study Area's Business/Office designation was established to meet the City's short and long term needs by having an ample supply of employment lands to enable job creation, a range of high paying jobs, a healthy tax base and a mini Complete Community. The 2041 OCP indicates that Mixed Employment (Business Office) areas are to be protected, retained and densified to ensure the City has sufficient mixed employment land to meet its long term needs.

As the West Cambie Area Plan also emphasizes office jobs in this location, the loss of the Study Area's Business Office lands to residential use would have negative implications for the City's economy and job creation. With this in mind the following criteria to assess and evaluate a range of development scenarios was used:

a) *Jobs*

- Maximize potential jobs through the protection and development of designated employment lands.
- Maximize high paying jobs and total jobs.
- Avoid creating employment land challenges which must be addressed later (e.g., replacing employment lands for needed jobs).
- If introducing residential uses into the Study Area ensure that the long term viability of the employment uses and their jobs, are not jeopardized by the residential use.

b) *Conformity with City Policies*

- Comply with City policies including land use, density, urban design, building, parking, transportation, infrastructure, social (e.g. affordable housing) and parks.

c) *City-VIAA Relations*

- Avoid jeopardizing the City's relationships with the VIAA.

d) *Property Taxes*

- Maximize property tax revenues.

e) *Precedent*

- Avoid creating an undesirable precedent (e.g. converting employment lands to other uses).
- Generate more positive benefits than the negative implications.

4. Considerations in Applying the Criteria

a) *Jobs*

Advice from *Site Economics Ltd.* indicates that high paying, long-term jobs are best achieved where the majority of the employment is in an office environment. These jobs are anticipated to be full-time, permanent and pay an average of \$60,000 annually, while

retail and service jobs tend to be less secure and pay much less. Higher paying jobs could be achieved by managing office and retail uses as follows:

- Restrict retail uses to the ground floor as this will allow more office height & density above and thus the potential for more higher-paying office jobs.
- Retail uses can likely pay more than office for ground floor space due to the arterial road exposure.
- Retail uses on the ground floor make office space above more attractive for office workers.

By restricting retail uses, office space marketability is increased and more viable, as people can live and work in the same neighbourhood.

b) *Conformity with City Policies*

- *Land Use, Density and Urban Design* - Planning staff have reviewed the Study Area in the context of the adjacent land use designations which limit the base density to 1.25 FAR. A maximum building height of 6 storeys (25 m) is proposed for Mixed Use Employment-Residential use, as the height is consistent with adjacent designations, and would maximize the employment floor area in each scenario.
- *Transportation Services* – Transportation staff advise they have no issues, as transportation improvements would be provided at the time of redevelopment based on required developer studies and City requirements (e.g., City Wide & Local Area DCCs, on and off site contributions).
- *Infrastructure Services (water, sanitary sewer, drainage)*- Engineering staff advise that they have no issues, as infrastructure improvements would be provided at the time of redevelopment based on required developer studies, and City requirements (e.g., City Wide & Local Area DCCs, on and off site contributions).
- *Affordable Housing* – to encourage the provision of built affordable housing, staff recommend offering a total 0.5 FAR Bonus Density, to be split proportionately between the Employment and Residential uses. This would have an added benefit of providing additional employment space.
- *Park Space*- Park staff advise that they have no issues as additional parks are not required in the Alexandra Neighbourhood as there is already sufficient space in the area. The existing DCC charges will apply to contribute to park land acquisition and improvements.

c) *City-VIAA Relations*

Establishing and maintaining good relations with other governments and organizations is an integral part of running a City. The introduction of residential uses in this location would require changing the 2041 OCP Aircraft Noise Sensitive Development Area (ANSD) designation from Category 1A (which prohibits residential uses) to Category 2 (which permits residential uses subject to aircraft noise mitigation measures). In response to the possibility of allowing residential uses in the Study Area, on March 27, 2013, Vancouver International Airport Authority (VIAA) staff provided the following comments:

With regards to the position of the Vancouver Airport Authority, the ANSD designation should stand and we do not support changes to the OCP to allow the proposed development. The property in question is located within the 35 Noise

Exposure Forecast (NEF) planning contour, where Transport Canada does not recommend residential development per their land use guidelines. The property is also directly under the flight path of the 24-hour south runway and is one of the most severely noise affected areas of the City.

We also do not support the concept of 'swapping' land within other areas of the City's ANSD Policy to offset the proposed development. However, if the City wishes to undertake this option, the new offset lands to be protected should be located within the West Cambie area and have an equivalent exposure to noise and aircraft over-flights.

In summary, the VIAA does not support allowing residential uses in the Study Area to avoid the possibility of aircraft noise complaints. While Council can make OCP ANSD decisions to allow residential uses in the study area unilaterally, it runs the risk of jeopardizing City-VIAA relations.

d) *Property Taxes*

Commercial/ employment properties are taxed at a higher mill rate than residential uses thus producing much more tax revenue for the City. Residential uses also tend to place more demands on City services and therefore they are more costly to tax payers. From a tax perspective, arrangements which have a higher proportion of employment uses are more desirable.

e) *Precedent*

Any introduction of residential uses into the Study Area has the potential to set an undesirable precedent. Owners of employment lands across the street to the west of the Study Area have already indicated that they also want their lands to be redesignated for residential use to attract higher real estate prices.

If residential uses are permitted, strict parameters for land use development ratios, density and phasing are needed to limit the negative impact of residential speculation and use. Strict and clear requirements for managing residential and employment uses will ensure that employment uses are not jeopardized by residential uses and may deter the wide spread land speculation throughout other employment areas in the City.

Analysis

1. Review of Development Scenarios

To address the referral, staff identified the following Development Scenarios for the Study Area:

- Development Scenario 1: An Enhanced 100% Mixed Employment Scenario: retain the existing Business / Office designation and clarify employment uses (Attachment 3),
- Development Scenario 2: A 60% Mixed Employment and 40% Residential Mixed Use Scenario: based on consultant advice and industry norms (Attachment 4),
- Development Scenario 3: A 30% % Mixed Employment and 70% Residential Option to provide an additional possibility (Attachment 5), and
- Development Scenario 4: A 20% Mixed Employment and 80% Residential Mixed Use Scenario based Westmark's January 2014 proposal: this Scenario was evaluated both for the 5 acre Westmark site and the 16 acre Study area (Attachment 6).

With the assistance of *Site Economics Ltd.*, each of the Development Scenarios are described and evaluated below, illustrated in Attachment 7 and summarized in Table 2.

Table 2 Summary of Land Use Implications for the Four Development Scenarios				
	Scenario 1	Scenario 2	Scenario 3	Scenario 4 Westmark Proposal
Land Use Ratio Employment Residential	Emp: 100% Res: 0%	Emp: 60% Res: 40%	Emp: 30% Res: 70%	Emp: 20% Res: 80%
Base and Bonus Density (FAR)	Base: 1.25 (Employ) Bonus: None Max: 1.25 FAR	Base: 1.25 (0.75 Employ + 0.50 Res) Bonus*: 0.5 (0.3 Employ + 0.2 Res) Max: 1.75 FAR	Base: 1.25 (0.375 Employ + 0.875 Res) Bonus*: 0.5 (0.15 Employ + 0.35 Res) Max: 1.75 FAR	Developer proposes 1.77 FAR, did not propose a density bonus
Floor Area @ Max FAR (Base + Bonus)	865,238 ft ²	1,212,057 ft ²	1,212,057 ft ²	1,226,084 ft ²
Commercial floor	865,238 ft ²	726,800 ft ²	363,617 ft ²	245,217 ft ²
Residential floor	n/a	485,257 ft ²	848,440 ft ²	980,867 ft ²
Ongoing Employment Completed Project (jobs)**	3,502	3,047	1,656	1,220
Quality of Jobs	Excellent	Excellent (Higher paying office)	Good (Less office)	Good (Low paying retail)
Total Estimated Annual Salaries	\$210 million	\$183 million	\$99 million	\$73 million
Est. Residential Units	0	606	1,061	1,226
Est. Additional Residents	0	1,300	2,200	2,600
Total Projected Alexandra Population	6,700	8,000	9,000	9,300
Annual Property Taxes	\$4,297,595	\$4,516,000	\$3,397,177	\$3,057,435

* Bonus FAR requires that 5% of total residential area is built affordable housing and that Bonus Employment FAR also be built.

**Jobs are calculated based on 1 job per 220ft² of commercial space plus 1 job per 4000ft² of residential space

a) *Development Scenario 1 - 100% Mixed Employment*

With this Scenario, employment uses are protected by continuing to exclude residential uses. The implications of this Scenario are summarized below.

- The Alexandra quarter's Mixed Employment (Business Office) uses are required to achieve the City's long term 2041 employment objectives.
- Employment uses for this area are suitable and should prove to be technically and economically feasible over the long-term.
- Not all offices should go in the City Centre, nor be on a rapid transit line.
- Community-wide office vacancies have been declining in Richmond over the last year, dropping by 20% in one year and ending at 16.3% at the end of 2013, compared to 20.3% at the end of 2012. Declining office vacancy rates, with no growth in inventory over the

last 3 years, signal a potential growing demand for office development in Richmond in the near-term.

- According to the Rapid Transit Index (RTI) Study published regularly by John Lang LaSalle, Richmond's transit oriented office vacancy rate is at 5.3% (for buildings within 500 metres of a rapid transit station). This is the lowest among all suburban markets and has created some interest in the development community towards adding product along the Canada Line. However, the uptake has been slow, given prohibitive land prices in the immediate proximity to rapid transit. This may signal a more immediate opportunity for office development in areas such as the Study Area – areas that are still within a walking distance of the Canada Line, yet far enough to allow more reasonable land prices.
- Employment uses cannot compete for land in this area without municipal protection, as residential demand drives up land prices making employment uses less financially viable.
- Sudden surges in the demand for employment land, such as a single major office tenant may occur and thus the lands should remain available for such employment uses as intended.
- Single-use office buildings are easiest and most efficient to build, however when located on an arterial road (e.g., Garden City Road), then mixed employment buildings with ground floor retail are warranted, as the retail uses can benefit from good exposure on an arterial road.
- The Study Area was also established to accommodate similar uses which may be displaced from other redeveloping areas of the City (e.g., the City Centre), an important long term City economic re-development objective. In this regard, the range of such displaced opportunities include: Retail and Related Uses: furniture, mattress, food catering, private security uses and Office Uses: property management, holding and investment, consulting, printing, assembly, education, import/ export, travel agency, book making and binding uses. The Richmond Economic Advisory Committee acknowledges this opportunity.
- The potential long term employment and tax revenue benefits of maintaining the existing Study Area's uses outweigh the benefits of adding residential uses and reducing the Study Area's employment potential.
- When the Area Plan was prepared in 2006, it was estimated that the Alexandra quarter would generate 2,000 jobs (1,000 in the Study Area: 1,000 in the Mixed Use where SmartCentres is located). The recent analysis reveals that the Study Area may generate an estimated 3,500 jobs, which is an increase of 2,500 jobs over the original estimate. The 2041 OCP employment policies encourage such increases here and throughout the City as a high priority is placed on using land effectively and generating as many jobs as possible to maintain the City's high job to labour force ratio.
- This Scenario avoids the possibility of generating more similar requests which would jeopardize the long term availability of needed employment lands.
- While service industries (e.g. business management, financing, accounting, insurance uses) are allowed in the area, to enhance the viability of the Development Scenario 1, staff suggest amending the Area Plan to clarify that the following employment uses are permitted in the Study Area: bio-tech, research, lab uses, information technology (IT), media/software, private and public institutions such as medical facilities.

In financial terms, office uses generate significant direct and indirect economic benefits, which exceed those of residential use. Employment development pays more in property taxes annually, creates more ongoing jobs and generates fewer costs to the City than

residential uses. The estimated number of ongoing jobs would be almost three times as high in Development Scenario 4 put forth by the developer. Based on the economic analysis, it is clear that Development Scenario 1 - 100% Mixed Employment has the greatest overall positive economic, social, and planning benefits of all the Development Scenarios.

To enhance *Development Scenario 1 - 100% Mixed Employment*, staff suggest that an Amendment Bylaw be considered to clarify that the following uses are allowed in the Study Area: Bio-tech, research, lab uses, Information technology (IT), media/software, and Institutional (private and public) uses including medical facilities.

- b) *Development Scenario 2 – 60 % Employment: 40% Residential Use (Recommended)*
If residential uses are to be introduced into the Study Area, the economic land consultant recommends Development Scenario 2 (60% Employment: 40% Residential Use), as it best reflects the industry's recommended level of two thirds employment and one third residential use (Attachment 4). This preferred ratio is intended to stimulate the development of needed employment uses including highly desired office space by enticing developers with multi-family residential development potential. The inclusion of multi-family residential uses provides an incentive to landowners to sell or develop their lands, as it would increase their market value from the existing employment only use. The developer/builder is also provided an incentive to develop the employment space as a condition of building residential uses which provide much higher returns due to the strong residential market. The higher percentage of employment use in a mixed use development (60% Employment: 40% Residential) is believed necessary by the commercial land industry to protect the long term viability of the employment lands.

Also *Development Scenario 2* is preferred as it includes the following benefits:

- Provides 87% of the potential jobs of Scenario 1 (100% Employment) and almost twice as many jobs and \$110 million more in annual salaries than if Scenario 3 (30% Employment) was selected.
- Is the most representative of industry standards for mixed use employment-residential development which better protects the long-term viability of employment uses and higher paying office jobs.
- Is estimated to accommodate approximately 600 new residential multi-family units (1,300 residents) which assist in offsetting the costs to the developer for providing needed employment space for new jobs.
- Provides the highest potential property tax revenues (\$4.5M) and over \$1 million more annually than the other mixed use employment-residential scenarios.

- c) *Development Scenario 3 – 30 % Mixed Employment: 70% Residential Use*
This Scenario is proposed to provide an alternate land use arrangement to the recommended industry standard that is represented by Scenario 2. It would involve allowing the Study Area to develop up to 70% Residential and 30% Employment uses (Attachment 5). However, as the industry standard for Mixed Use areas involves a floor area ratio of 66% employment and 33% residential use, this Option may not be appropriate.

d. *Development Scenario 4 – 20% Employment, 80% Residential Use (Westmark Proposal)*

Staff reviewed the most recent Westmark proposal from January 2014, which proposes 20% Employment and 80% Residential uses (Attachment 8). While the Westmark proposal involves only 30% of the 16 acre Study Area, the following comments apply to the both the Westmark site and the whole Study Area.

The proposal as submitted was forwarded onto *Site Economics Ltd.*, the City's economic land consultant, who provided the following comments:

- Based on market conditions, there is clearly room to allocate a larger share of the proposal to office space, which would better support the City's long term needs and the 2041 OCP Mixed Employment designation.
- The retail component is problematic, as it is at the grade level of the proposed office building making the proposed parking difficult and limited.
- The proposed supermarket and drug store could find it very difficult to attract tenants, as the site lacks easily accessible surface parking and is not on a corner.
- The ideal situation is for ground floor retail to be located on Garden City Road frontage with good access and exposure.
- The proposed office space layout is optimal in terms of floor plate, height, and overall configuration.
- The only real issue with proposed office area is the limited scale.
- The 80% residential use reduces the viability and amount of employment space.
- Developer could be required to make a significant contribution from the residential component to subsidize employment space in the area.

From a City perspective, the Westmark proposal is not considered to be a viable Development Scenario, as:

- 1) The proposed density of 1.77 FAR exceeds the existing maximum density of 1.25 FAR and consists of only 0.36 FAR for employment uses (1.41 FAR for residential use), greatly reducing the potential number and quality of jobs.
- 2) The proposed realignment of Dubbert Street further west would unacceptably reduce available employment lands from 5.1 acres to 4.59 acres, further reducing potential jobs while increasing residential use of lands to the east.
- 3) The realignment unacceptably changes the future land use of the site to a roadway and unacceptably proposes to relocate the intersection of Dubbert Street and Cambie Road closer to Garden City Road which does not conform to the Area Plan, negatively affects other property owners and enables Westmark to reduce their road costs and place them on other developers.
- 4) The 1.77 FAR is the base density and therefore does not have any bonus density and therefore does not provide for affordable housing.
- 5) The proposed density is not consistent with the form and character of adjacent lands that have maximum densities of 1.5 FAR along High Street and 1.5 FAR (with density bonus for affordable housing up to a maximum 1.7 FAR) to the east of the Study Area, and;
- 6) Four isolated "orphan" sites remain at the southwest corner and one orphan site at the northeast corner of the block, which are too small to develop and are not permitted under the Area Plan (Attachment 2).

Overall, for economic, planning and urban development reasons staff recommend that Westmark's proposal, *Development Scenario 4*, be eliminated from further consideration as it is not a viable mixed use Development Scenario.

2. Managing Mixed Use Employment-Residential Uses.

a) *General*

The introduction of residential uses into the Study Area has its benefits and challenges. Residential uses on these lands represent a significant change and require special consideration. The goal is to ensure that the proposed land use ratios help stimulate the development of desirable employment space by allowing some development of higher demand residential uses.

The ratio of employment to residential use must be carefully managed. The industry standard to protect the viability of employment uses indicates that employment uses should be the majority use and residential use the minority use (i.e. 66% Employment: 33% Residential).

Allowing residential (multi-family) uses into the Study Area may speed up the development of the employment uses, as the developer would be able to subsidize the development of employment space (e.g., lower construction and lease costs). As well, the developer would install necessary roads and services for the residential uses which would simultaneously benefit the development of employment and office space.

To prevent only residential uses being developed and no employment uses, staff recommend that all Rezoning, Development Permit and Building Permit applications must meet the selected Development Scenario land use ratio (e.g. 60% E:40% R) that restricts the maximum percentage of residential floor (e.g. maximum 40% residential) area and ensures that the employment space is built.

b) *2041 OCP and Area Plan Policy Implications*

Introducing residential use in the Study Area would require amendments to the *2041 OCP Mixed Employment* designation and to the *2041 OCP Aircraft Noise Sensitive Development Area* (ANSD) designation to remove the residential use prohibition. As well, the *West Cambie Area Plan* would require amendment to re-designate the "Business Office" area to "Mixed Use Employment-Residential" to allow multifamily uses. A mixed-use proposal would not affect the *Metro Vancouver 2040 Regional Growth Strategy* (RGS), as the RGS designates the Study Area "Urban" which accommodates employment and residential uses.

c) *City-VIAA Relations*

As indicated above, the introduction of residential uses in this location would require changing the *2041 OCP Aircraft Noise Sensitive Development Area* (ANSD) designation from Category 1A (which prohibits residential uses) to Category 2 (which permits residential uses subject to aircraft noise mitigation measures).

The *Vancouver International Airport Authority* (VIAA) does not support allowing residential uses in the Study Area to avoid the possibility of aircraft noise complaints, as they regard the policy as very important and may oppose any new residential uses in the

Study Area. In this regard the VIAA would not likely support Development Scenario 2, 3 or 4 which allow residential uses.

While not typically done, Planning Policy staff intend to meet with VIAA staff regarding the proposed report and recommendation, prior to the Public Hearing, to ensure that VIAA staff understand the City's rationale for the proposed recommendation.

d) Density

As there may be a desire by the City to introduce residential uses in the Study Area to encourage the development of employment uses, the existing maximum 1.25 FAR was reviewed to ensure that employment uses occur along with the required subsidizing residential uses and to allow for building affordable housing.

An additional 0.5 FAR density enables market residential development to subsidize employment space and includes the provision for built affordable housing raising the maximum density to 1.75 FAR. This bonus FAR will be split according to the approved development scenario ratio (e.g. 60% Employment:40% Residential), which for this example, would equate to a 0.2 FAR bonus for residential space. For the developer to take advantage of this additional FAR, they would be required to also provide the additional employment floor space at 0.3 FAR. The combination of the available density and the applicable ratio (e.g. 60% Employment:40% Residential) would ensure that residential development does not deter the development of needed employment space.

e) Affordable Housing

Where residential uses are allowed, as Council has indicated that built affordable housing is needed, staff recommend that all residential developments are to provide at least 5% of the total residential building area (a minimum of 4 units) as built affordable housing units. Cash-in-lieu contributions are not acceptable. This approach is to be applied instead of the older, 2006 *West Cambie Affordable Housing Density Bonusing* policies.

The proposed OCP Amendment Bylaw includes a policy change to require that built affordable housing units are required.

f) Building Height

The introduction of residential uses in the Study Area also necessitates the reconsideration of the maximum height of buildings. As there remains a desire and need to attract and accommodate employment uses in this location, the Study Area height needs to be attractive to developers and builders. Along with increasing the maximum FAR, the maximum building height is proposed to be increased from 5 storeys (20m) to 6 storeys (25m). This allows the applicant greater flexibility in accommodating the employment uses along with the residential uses on their sites. The proposed height limit is consistent lands to the west of Garden City Road which are located in the City Centre Area Plan and lands to the east within the Alexandra Neighbourhood (Attachment 9).

g) General Development Requirements for Mixed Use Employment -Residential

It is recommended that any mixed use employment-residential Development Scenario approved by Council, be required to comply with the following provisions:

- The commercial and office components of mixed use buildings should be oriented towards the arterial road network (Garden City Road and Cambie Road) to provide a consistent and complementary streetscape with future development on the west side of Garden City Road.
- Residential and ancillary uses should be inward oriented or towards the collector roads (e.g. Dubbert Street) in accordance with existing WCAP Development Permit Guidelines.
- Residential and associated accessory uses may comprise a maximum of 40% (or 70%) of the total floor area within Study Area Development Blocks 1, 2 and 3, as identified in the proposed amended Alexandra map (Attachment 10).
- To prevent only residential uses being developed and no employment uses, all Rezoning, Development Permit and Building Permit applications must meet the selected Development Scenario (e.g. 60% E:40% R) that restricts the maximum percentage of residential floor space.
- Stand alone retail buildings should not be permitted.
- Notwithstanding the clause above, stand alone single-use buildings and/or mixed-use buildings may be considered, provided that they form part of the comprehensively planned Development Blocks, 1, 2 and 3, as identified in the proposed amended Alexandra map (Attachment 10).

A summary of the OCP amendment requirements for introducing Mixed Use Employment Residential uses to the Study Area (Development Scenarios 2, 3 and 4) are outlined in Attachment 11.

3. Summary of Analysis

In summary, staff recommend Development Scenario 2 – 60% Employment: 40% Residential for the following reasons: it:

- potentially provides almost as many jobs as the existing Area Plan and almost twice as many jobs and over \$110 million more in annual salaries than if Scenarios 3 or 4 were selected,
- is the most representative of industry standards for mixed use commercial-residential development that better protects the long-term viability of higher paying office jobs,
- potentially provides the highest property tax revenues (\$4.5M) and over \$1 million more annually than the other mixed use commercial-residential scenarios, and;
- is estimated to accommodate more than 600 new residential multi-family units (1,300 residents), offsetting the costs to the developer for providing needed employment space.

Whichever Development Scenario is selected, staff will continue to monitor the City's long term employment land needs and co-operate with Metro Vancouver staff as they undertake long term employment land studies. As these studies are brought forward, staff will update Council regarding any changes in the City's employment land needs.

If the recommended Development Scenario 2 is chosen, the necessary OCP and Area Plan amendments are in proposed Official Community Plan Bylaw 7100, Amendment Bylaw 9121 to amend Schedule 2.11A in the 2041 Official Community Plan Bylaw 7100.

Alternatively, if Development Scenario 3: A 30% Mixed Employment and 70% Residential Option is preferred, Attachment 12 contains the necessary OCP amendment Bylaw, draft Bylaw 9122.

Should Council decide to protect and enhance the employment uses in the Study Area and not allow residential uses Staff suggest Development Scenario 1- 100% Enhanced Employment be implemented. Attachment 13 contains the necessary OCP amendment Bylaw, draft Bylaw 9120.

4. Next Steps

Staff recommend the purposed OCP Bylaw 7100, Amendment Bylaw 9121 be referred to the Vancouver International Airport Authority (VIAA) and the Board of Education of School District No. 38 (Richmond) for comment, prior to the Public Hearing (e.g., anticipated to be held on May 20, 2014). In addition, while not usually done, City staff recommend that they meet with VIAA staff prior to the Public Hearing to explain the report and recommendation.

Financial Impact

As noted in report.

Conclusion

Staff's evaluation shows that, based on criteria such as the potential for creating high quality full-time jobs, maintaining good government relations, maximizing property tax revenue and avoiding an undesirable precedent, *Development Scenario 1 – 100% Employment* (existing Area Plan) is the best option. As it is staff's understanding that Council may wish to introduce residential uses into the Study Area, the second best option would be *Development Scenario 2 – 60% Employment: 40% Residential*, as it is considerably superior to Scenario 3 and Scenario 4.

The necessary OCP and Area Plan amendments are in proposed Official Community Plan Bylaw 7100, Amendment Bylaw 9121 to amend Schedule 2.11A in the 2041 Official Community Plan Bylaw 7100.

ATTACHMENT 3

Development Scenario 1 Enhanced 100% Mixed Employment (Business Office Use)

General Description

The following Table summarizes the characteristics of Development Scenario 1 – 100% Mixed Employment (Business Office Use, with land use enhancements):

Development Scenario 1 100% Business Office Use Scenario	
Topic	Summary
Study Area - Size	16 acres: (15.89 acres, or 6.43 ha) Approximately 10% of the whole Alexandra Quarter Section
Maximum Density	1.25 FAR
Total Gross Buildable Area	865,755 ft ² (Net 770,522 ft ²)
2041 OCP Land Use Designation	100% Mixed Employment: Those areas of the City where the principal uses are industrial and stand-alone office development, with a limited range of support services. In certain areas, a limited range of commercial uses are permitted such as the retail sale of building and garden supplies, household furnishings, and similar warehouse goods.
2041 OCP Noise Sensitive Development Area (ANSO) Designation	- Designation - Area 1A (35 - 40 NEF) - New Aircraft Noise Sensitive Land Uses (residential, school, hospital, day care) are prohibited
West Cambie Area Plan, Alexandra Quarter Land Use	Business Office Uses (non residential) - Office commercial - Restaurants and neighbourhood pub - Retail and retail services commercial — small floor plate only - Educational facilities - Recreational facilities - Enclosed commercial parking, preferably structured. - A service station and neighbourhood commercial uses, at the southeast corner of Garden City Road and Cambie Road
Retail Uses	- Retail uses can pay more for ground floor space due to arterial road exposure. - Retail uses make office space more attractive for workers (not isolated in suburbs) - Retail uses subsidize the development of office space
Height	Maximum Height: - 2 to 4 storeys (8 metres – 15 metres) - 5 storeys (20 metres) of non-combustible construction can be considered The more height & density enables more office & likely higher paying jobs.
Existing Zoning	- Mainly Single Family - RS1/F - Width = 18 m (60 ft) - Minimum Area 828 m² (8,913 ft²)
Existing Uses	Single Family Residential
Transit Services	- Promote the Study Area as transit oriented, as the 800 m distance to station which is not long. - The Study Area is well serviced by public transit with two current bus routes fronting Garden City Road (407 and 430), bus service along Cambie Road and there are direct bus connections to the Richmond-Brighouse and Bridgeport Canada Line stations. - The Canada Line is about 1 km (about a 15 minute walk) from the

4210602

Development Scenario 1 100% Business Office Use Scenario	
Topic	Summary
	area. - The City is working with TransLink to monitor service levels and seek service improvements over time.
Water	System
Sanitary	Septic Tank: Sanitary Sewer System to be provided with development
Drainage	Yes
Alexandra District Energy Utility (ADEU)	New development will be required to connect to the ADEU
Enhanced Land Uses: Adding the Following Land Uses For Clarity	- Bio-tech, research, labs, information technology (IT), media/software, private and public institutions such as medical facilities.
Built Out Features	- Buildings may be stand alone or mixed employment uses, as the flexibility increases likelihood of getting office built - May want to restrict retail from being in standalone buildings, as this would negatively the planned character of Study Area - Workers may opt to live & work in same neighbourhood - Nearby amenities such as retail encourage more and better tenants
Parking	- Excellent, surface parking, as uses cannot support the cost of structured parking at this time.
Visual Examples	- The proposed urban design look will not be a suburban look and will ensure a high quality local design - Retail most likely to form the ground floor of any employment use
Managing Nuisances (Noise, Odour Vibration)	- Apply the same mitigation requirements, as in other parts of the city - Focus commercial on and close to arterial roads minimizes the impact of commercial on residential - Have separate accesses and apply existing industry design standards
Number and Quality of Jobs* Ranking	- Excellent: Highest: the most & highest paying jobs (e.g., \$60,000 per year) - Number of Jobs (includes multiplier) – 3,502 jobs - Annual Salaries = \$210 million
Maximum Alexandra Jobs* at Build Out	$3,502 + 1,000 = 4,235$ jobs
Study Area Build Out Population	0
Total Alexandra build Out Population	6,700 people
Annual Taxes Generated	\$4,297,595

General Pros	General Cons
- Clarify that bio-tech, research, labs, information technology (IT), media/software, private and public institutions such as medical facilities and private schools are allowed - A range of non residential mixed employment	- In the short term, may see slow Business / Office use redevelopment, as anticipated - May continue to receive requests from developers to convert Business / Office uses to other uses (e.g., residential)

General Pros	General Cons
uses is continued to support needed local employment opportunities - The important Complete Community (Live, Work, Play) Concept is retained - Avoids reducing the OCP ANSD Area 1A designation - Avoids setting an undesirable land use change precedent - Continues to achieve the 2041 OCP and Employment Lands Strategy - It was always anticipated that the build out of Study Area employment uses would take time and that it is not strategic or practical to allow them to be replaced with residential uses for short term developer gain - Enables City priorities and positive relationship with YVR to continue - Supported by YVR, the Richmond Economic Advisory Committee (REAC) and Mr. R. Wozny, the City's real estate consultant	

*Jobs are calculated based on 1 job per 220ft² of commercial space plus 1 job per 4000ft² of residential space

ATTACHMENT 4

Development Scenario 2 60% Mixed Employment:40% Residential Scenario

General Description

The following Table summarizes the characteristics of Development Scenario 2 - 60% Mixed Employment:40% Residential:

Development Scenario 2 A Mixed Use (60% Employment:40% Residential) Scenario	
Item	General Description
Study Area	- 16 acres: (15.9 acres) - Approximately 10% of the whole Alexandra Quarter Section
Base and Density Bonus FAR	- Base Density= 0.75 FAR (Employ) + 0.50 FAR (Res) = 1.25 FAR - Bonus Density= 0.30 FAR* (Employ) +0.20 FAR (Res) = 0.50 FAR - * Bonus Residential FAR requires Bonus Employment FAR to also be built
Maximum FAR	1.75 FAR maximum
Total Buildable Floor Area	At 1.75 FAR, total proposed gross floor area = 1,212,057 ft ² - 60% Employment Uses = 727,234 ft² Gross - 40% Residential Uses = 484,823 ft² Gross
Maximum Height	6 storeys (25 metres) of non-combustible construction may be considered for non-combustible or concrete construction, increased open space, and no additional overshadowing of neighbouring properties.
Alexandra District Energy Utility (ADEU)	Will connect to ADEU
OCP ANSD Designations In Study Area: Replace ANSD Area 1A with an Area 2 designation to allow ANSD uses	- Existing ANSD Designation is: Area 1A (35 - 40 NEF) which prohibits new Aircraft Noise Sensitive Land Uses (residential, school, hospital, day care) - With Development Scenario 2, to allow multifamily residential uses, the existing ANSD Designation would need to be replaced with the Area 2 Designation - The 2041 OCP does not require an equivalent Area 1 replacement area to achieve a No Net Loss arrangement and no such replacement area has been found, - YVR does not wish to see the residential prohibiting policy to be removed, to ensure that there will not be any residential complaints regarding aircraft noise.
Number and Quality of Jobs*	- 3,047 jobs, Excellent Quality (e.g., avg. \$60,000 per year) - Annual Salaries \$183 million
Maximum Alexandra Jobs*	- 3,047 + 1,000 in the remainder of the Quarter = 4,047 jobs
Estimated Residential Units	- Built Affordable Residential Units = 40 units (@ 600 ft²) - Market Residential Units = 566 units (@ 814 ft²) - Total units = 606 units - Residential Uses = 484,823 ft² (Gross)
Affordable Housing	- At least 5% of total maximum buildable sq. ft. of residential area to be provided as Built Affordable units (minimum of 4 units)

Development Scenario 2 A Mixed Use (60% Employment;40% Residential) Scenario	
Item	General Description
Additional Residents	- 1,300 people
Total Alexandra population	- 1,300 + 6,700 in the remainder of the Quarter = 8,000 people
Built Out Features	- Buildings may be stand alone or mixed employment uses, as the flexibility increases likelihood of getting office built - May want to restrict retail from being in standalone buildings, as this would negatively the planned character of Study Area - Workers may opt to live & work in same neighbourhood - Nearby amenities such as retail encourage more and better tenants
Parking	- Good, surface and underground parking
Visual Examples	- See Attachment 7, the proposed urban design look will not be a suburban look and will ensure a high quality local design - Retail most likely to form the ground floor of any employment use
Managing Nuisances (Noise, Odour Vibration)	- Apply the same mitigation requirements, as in other parts of the city - Focus commercial on and close to arterial roads minimizes the impact of commercial on residential - Have separate accesses and apply existing industry design standards
Parking	- Good, mixed surface and structured
Annual Taxes Generated (Highest)	- \$4,516,000
Pros	Cons
- Could possibly accelerate redevelopment in the Study Area - Majority of space is for employment, for a variety of employment uses. - Affordable housing is provided	- Removes large amount of commercial and office floor area compared to Option 1. - Any redesignation of land from office or other employment uses may later require them to be replaced elsewhere in North Richmond not in the City Centre, in order to meet the City's long term 2041 employment land targets - Reduces the OCP ANSD Area 1A designation. - Sets an undesirable land use change precedent - May generate similar undesirable requests - May damage City relationships with YVR - Not supported by YVR, the Richmond Economic Advisory Committee (REAC) and Mr. R. Wozny, the City's real estate consultant

*Jobs are calculated based on 1 job per 220ft² of commercial space plus 1 job per 4000ft² of residential space

ATTACHMENT 5

Development Scenario 3 30% Mixed Employment:70% Residential Scenarios

General Description

The following Table summarizes the characteristics of a Development Scenario 3 - 30% Mixed Employment:70% Residential:

Development Scenario 3 30% Employment:70% Residential Scenario	
Item	General Description
Study Area	- 16 acres: (15.9 acres) (1,212,057 ft²) - Approximately 10% of the whole Alexandra Quarter Section
Base and Density FAR	- Base Density= 0.375 FAR (Employ) + 0.875 FAR (Res) = 1.25 FAR - Bonus Density= 0.15 FAR* (Employ) +0.35 FAR (Res) = 0.50 FAR - * Bonus Residential FAR requires Bonus Employment FAR to also be built
Maximum FAR	1.75 FAR maximum
Total Buildable Floor Area	At 1.75 FAR, Gross Total (BFA) is: 1,212,057 ft ² - Using 30% for Employment Use = 363,617 ft² (Gross) - Using 70% Residential Use = 848,440 ft² (Gross)
Maximum Height	Up to 6 storeys
Alexandra District Energy Utility (ADEU)	Will connect to ADEU
OCP ANSD Designations In Study Area: Replace ANSD Area 1A with an Area 2 designation to allow ANSD uses	- Existing ANSD Designation is: Area 1A (35 - 40 NEF) which prohibits new Aircraft Noise Sensitive Land Uses (residential, school, hospital, day care) - With Development Scenario 2, to allow multifamily residential uses, the existing ANSD Designation would need to be replaced with the Area 2 Designation - The 2041 OCP does not require an equivalent Area 1 replacement area to achieve a No Net Loss arrangement and no such replacement area has been found, - YVR does not wish to see the residential prohibiting policy to be removed, to ensure that there will not be any residential complaints regarding aircraft noise.
Number and Quality of Jobs*	- 1,665 jobs, Good quality, less than \$60,000 per year salary - Annual Salaries \$99 million
Maximum Alexandra Jobs*	- 1,665 jobs + 1,000 in the remainder of the Quarter = 2,665 jobs
Estimated Residential Units	- Built Affordable Residential Units = 71 units (@ 600 ft²) - Market Residential Units = 990 units (@ 814 ft²) - Total units = 1061 units - Residential Uses = 848,440 ft² (Gross)
Affordable Housing	- At least 5% of total maximum buildable sq. ft. of residential area to be provided as Built Affordable units (minimum of 4 units)
Additional Residents.	- 2,250 people
Total Alexandra population	- 2,250 + 6,700 in the remainder of the Quarter = 8,950 people
Built Out Features	- Buildings may be stand alone or mixed employment uses, as

	- the flexibility increases likelihood of getting office built - May want to restrict retail from being in standalone buildings, as this would negatively the planned character of Study Area - Workers may opt to live & work in same neighbourhood - Nearby amenities such as retail encourage more and better tenants
Parking	Moderate, mixed surface and structured parking
Visual Examples	- See Attachment 7, the proposed urban design look will not be a suburban look and will ensure a high quality local design - Retail most likely to form the ground floor of any employment use
Managing Nuisances (Noise, Odour Vibration)	- Apply the same mitigation requirements, as in other parts of the city - Focus commercial on and close to arterial roads minimizes the impact of commercial on residential - Have separate accesses and apply existing industry design standards
Annual Taxes Generated	\$3,397,177

Pros	Cons
- Could possibly accelerate redevelopment in the Study Area - Would retain some floor space for a variety of employment uses. - Affordable housing is provided	- Removes 70% of the commercial/office floor area compared to Option 1 - Any redesignation of land from office or other employment uses may later require their replacement elsewhere in North Richmond not in the City Centre, in order to meet the City's long term 2041 employment land targets - Reduces the OCP ANSD Area 1A designation - Sets an undesirable land use change precedent - Will likely generate similar undesirable requests - May damage City relationships with YVR - Not supported by YVR, the Richmond Economic Advisory Committee (REAC) and Mr. R. Wozny, the City's real estate consultant

*Jobs are calculated based on 1 job per 220ft² of commercial space plus 1 job per 4000ft² of residential space

Development Scenario 4
20% Mixed Employment:80% Residential Scenarios

General Description

The following Table summarizes the characteristics of Development Scenario 4 - 20% Mixed Employment:80% Residential:

Development Scenario 4 20% Mixed Employment:80% Residential Scenario	
Item	General Description
Study Area	- 16 acres: (15.9 acres) (1,212,057 ft²) - Approximately 10% of the whole Alexandra Quarter Section
Base and Density FAR	- Base Density= 0.25 FAR (Employ) + 1.0 FAR (Res) = 1.25 FAR - Bonus Density= 0.1 FAR (Employ) +0.40 FAR (Res) = 0.50 FAR
Maximum FAR	- 1.75 FAR maximum - Note while Westmark proposes 1.77 FAR, the calculations in this table use 1.75 FAR
Total Buildable Floor Area	At 1.75 FAR, Gross Total (BFA) is: 1,212,057 ft ² - Using 20% for Employment Use = 242,410 ft² (Gross) - Using 80% Residential Use = 969,645 ft² (Gross)
Maximum Height	Up to 6 storeys
Alexandra District Energy Utility (ADEU)	Will connect to ADEU
OCP ANSD Designations In Study Area: Replace ANSD Area 1A with an Area 2 designation to allow ANSD uses	- Existing ANSD Designation is: Area 1A (35 - 40 NEF) which prohibits new Aircraft Noise Sensitive Land Uses (residential, school, hospital, day care) - The existing ANSD Designation would need to be replaced with the Area 2 Designation - The 2041 OCP does not require an equivalent Area 1 replacement area to achieve a No Net Loss arrangement and no such replacement area has been found, - YVR does not wish to see the residential prohibiting policy to be removed, to ensure that there will not be any residential complaints regarding aircraft noise.
Number and Quality of Jobs*	- 1,220 jobs, Good, low paying retail - Annual Salaries - \$73 million
Maximum Alexandra Jobs*	- 1,220 jobs + 1,000 in the remainder of the Quarter = 2,220 jobs
Estimated Residential Units	- Built Affordable Residential Units = 81 units (@ 600 ft²) - Market Residential Units = 1132 units (@ 814 ft²) - Total units = 1213 units - Residential Uses = 969,645 ft² (Gross)
Additional Residents	- 2,600 people
Total Alexandra population	- 2,600 + 6,700 in the remainder of the Quarter = 9,300 people
Built Out Features	- Buildings may be stand alone or mixed employment uses, as the flexibility increases likelihood of getting office built - May want to restrict retail from being in standalone buildings, as this would negatively the planned character of Study Area - Workers may opt to live & work in same neighbourhood - Nearby amenities such as retail encourage more and better

Development Scenario 4 20% Mixed Employment:80% Residential Scenario	
Item	General Description
	tenants
Parking	- Moderate, underground
Visual Examples	- See Attachment 7, the proposed urban design look will not be a suburban look and will ensure a high quality local design - Retail most likely to form the ground floor of any employment use
Managing Nuisances (Noise, Odour Vibration)	- Apply the same mitigation requirements, as in other parts of the city - Focus commercial on and close to arterial roads minimizes the impact of commercial on residential - Have separate accesses and apply existing industry design standards
Annual Taxes Generated	- \$3,057,435

Pros	Cons
- Could possibly accelerate redevelopment in the Study Area - Would retain some floor space for a variety of employment uses.	- Removes 80% of employment /office floor area compared to Option 1 - Does not conform the Area Plan (e.g., excessive density, excessive building height, unacceptable road layout, unacceptably proposes orphaned lots, avoids applicant costs while shifting them to others - Stand alone residential buildings would likely develop first and possibly still leave the office and other employment land undeveloped in the short term - Any redesignation of land from office or other employment uses will likely require them to be replaced elsewhere in North Richmond not in the City Centre, in order to meet the City's long term 2041 employment land targets - Reduces the OCP ANSD Area 1A designation - Sets an undesirable land use change precedent - Will likely generate similar undesirable requests - May damage City relationships with YVR - Not supported by YVR, the Richmond Economic Advisory Committee (REAC) and Mr. R. Wozny, the City's real estate consultant

*Jobs are calculated based on 1 job per 220ft² of commercial space plus 1 job per 4000ft² of residential space

**Example Illustrations of Development Scenarios
Alexandra Study Area**

Illustration A is a standalone Employment Building with ground floor retail and office space above, which would be appropriate in any of the proposed Development Scenarios 1-4

Illustrations B to H represents various examples of Mixed Use Employment Residential buildings that would be appropriate in Development Scenarios 2, 3 or 4 only. Some of these building forms could also be 100% Employment use.

Alexandra Neighbourhood Land Use Map

Summary of Proposed OCP Amendment Bylaw Development Requirements For Mixed Use Employment-Residential Development Scenarios

Purpose

To summarize the OCP and Area Plan amendments, if Council pursues Development Scenarios 2, 3 or 4:

- (1) Section 8.2.1 Character Area 1 – should be renamed from Business Office to Mixed-Use Employment-Residential in the West Cambie Area Plan.
- (2) Mixed-Use Employment-Residential designations and ratios should be applied to the entire 6.4 ha (15.9 ac) employment lands, not just on Westmark's 2.1 ha (5.1 ac) parcel.
- (3) The Mixed-Use Employment-Residential area should be further segmented into Development Blocks 1, 2, and 3 (**Attachment 10**) as formed by the collector and arterial road network. Each block would form its own comprehensive planning development area required to meet the target mixed-use employment-residential ratios. Development proposals would have to demonstrate how the mixed-use targets (e.g. 60:40 or 30:70) would be met within their respective Development Blocks. Development lot assemblies forming a separate application for rezoning, should be no less than the size of Block 1, or 1.0 ha (2.47 ac), unless it constitutes the completion of that Block.
- (4) Mixed-Use Employment-Residential developments should limit the percentage of residential uses to a maximum of the total floor space built within each development and its respective residential FAR identified (e.g. 40% residential and max .70 FAR) in the bylaw; this would allow greater percentages of employment to be built if market improves.
- (5) A base density of 1.25 FAR shall continue, as per the current designation. A bonus density of up to an additional 0.5 FAR may be permitted if built affordable housing is provided. The bonus FAR must be split as per the ratios provided in the Amendment Bylaw (e.g. 40% Residential use may have a base residential FAR of 0.5 and bonus residential density of 0.2 FAR if built affordable housing is provided). The additional employment floor area must also be built, if the bonus residential area is developed, to ensure compliance with the approved ratio of employment: residential use.
- (6) To prevent only residential uses being developed and no employment uses, all Rezoning, Development Permit and Building Permit applications must meet the selected Development Scenario land use ratio that restricts the maximum percentage of residential floor space.
- (7) Development fronting along Garden City Road should be restricted to Employment and Institutional (not residential) uses only.
- (8) Development fronting along Odlin Road and Dubbert Street, south of Tomicki Avenue, should continue to conform to Section 8.2.3 Character Area 3 – The High Street, in the +Area Plan.
- (9) The maximum height of 6 storeys (25 m) should be limited to westerly portions of the Development Blocks. The height is made available to accommodate the base density of 1.25 FAR + 0.5 FAR bonus density (Max1.75 FAR) within each development block. This is to provide a transition to the City Centre to the west and to stimulate development of employment generating commercial space.
- (10) Minimum lot size and orphaned properties of 0.4 ha (1.0 ac) or less, should not be permitted, in order to facilitate development as anticipated in the WCAP and not to perpetuate non-conforming uses (e.g. single detached homes).
- (11) Development of Live-Work spaces should be prohibited to protect the viability of the office and commercial developments, as they are regarded as residential uses and detract from employment spaces.
- (12) Developers should be expected to provide at time of rezoning, a voluntary Community Amenity contribution in addition to the Local DCC's to help pay for local and city-wide amenities.

- (13) Notwithstanding the amendments to allow residential uses within the existing Mixed Employment area identified in the WCAP, development shall be required to conform to the above restrictions in addition to the Area Plan policies, including the ANSD policies.
- (14) Section 9.3, Implementation Strategy the initial 2006 affordable housing requirements will be replaced by requiring that at least 5% of total maximum buildable sq. ft. of residential floor area is provided as built affordable housing units (minimum of 4 units).

Bylaw 9122

Richmond Official Community Plan Bylaw 7100 and 9000 Amendment Bylaw 9122 (West Cambie Area Plan)

The Council of the City of Richmond, in open meeting assembled, enacts as follows:

1. Richmond Official Community Plan Bylaw 7100 is amended in Schedule 2.11A by the following:
 - a) Section 8.1.6 - under sub-heading “Lessening the Impact of Aircraft Noise”, delete the paragraph in the second bullet, and insert:
 - “There shall be no new lots for single detached housing within the Alexandra Neighbourhood (as identified on the 2041 OCP Aircraft Noise Sensitive Development Map).”
 - b) Section 8.1.6 – under the sub-heading “Building Relationship with Streets” insert a bulleted paragraph as follows:
 - “The employment components of mixed use buildings should be oriented towards the arterial road network (Garden City Road and Cambie Road) to provide a consistent and complementary streetscape with future development on the west side of Garden City Road. Residential and ancillary uses should be inward oriented towards the collector roads (e.g. Dubbert Street).”
 - c) Section 8.2 – for the map titled “Alexandra Neighbourhood Character Areas Map” – in the Legend delete: “Business Office” and insert: “Mixed Use Employment-Residential”.
 - d) Section 8.2.1 – for the map titled “Neighbourhood Character Area 1- Business Office Map” - insert labelling as follows:
 - The development block formed by Cambie Road to the north, Garden City Road to the west, the McKim Way alignment to the south and the Dubbert Street alignment to the east shall be labelled as “Block 1”.
 - The development block formed by the McKim Way alignment to the north, Garden City Road to the west, Odlin Road to the south and the Dubbert Street alignment to the east shall be labelled as “Block 2”.
 - The development block formed by Odlin Road to the north, Garden City Road to the west, Alexandra Road to the south and the Dubbert Street alignment to the east shall be labelled as “Block 3”.

- e) Section 8.2.1 – Delete the title of this section,
“CHARACTER AREA 1 – BUSINESS OFFICE”
and insert:
“CHARACTER AREA 1 – MIXED USE EMPLOYMENT-RESIDENTIAL”
- f) Section 8.2.1 – Delete the title of the map,
“Character Area 1 – Business Office Map”
and insert:
“Character Area 1 – Mixed Use Employment-Residential Map”
- g) Section 8.2.1- Delete last sentence of paragraph 1,
“No residential uses are permitted in this area, due to the City’s OCP Aircraft Noise Sensitive Development Policy”
and insert:
“Multi-family residential uses may be permitted, subject to the applicable provisions of this Area Plan, Section 8.1.6 Architectural Elements - Lessening the Impact of Aircraft Noise, and the 2041 OCP Aircraft Noise Sensitive Development Policy.”
- h) Section 8.2.1 – under sub-heading “Land Uses”, and after the bullet “Office commercial”, insert the following,
- “Bio-tech, research, and labs
 - Information technology (IT), media/software
 - Institutional (private and public) including medical facilities”
- i) Section 8.2.1 – under sub-heading “Land Uses” insert bullet:
- “**Multi-family housing** with accessory uses, amenities and community facilities. Residential and associated accessory uses shall be comprised of a maximum of 70% of the total floor area within Development Blocks 1, 2 and 3, as identified in the Character Area 1 – Mixed Use Employment-Residential Map”.
- j) Section 8.2.1 – under sub-heading “Floor Area Ratio” delete the bullet and insert:
- The total building area within each Development Block 1, 2 and 3, excluding underground parking, shall be no greater than a total of 1.25 FAR (excluding bonus density of 0.5 FAR for built affordable housing).
 - The maximum FAR for residential use, based a minimum of 30% Employment space, shall be 0.875 Base FAR with up to 0.35 Bonus FAR if at least 5% of the residential building area (minimum of 4 units) is provided as built Affordable Housing units.
- k) Section 8.2.1 – After sub-heading “Site Coverage” insert new sub-heading and text:
“**Phasing of Development**”
- All Rezoning, Development Permit and Building Permit applications shall ensure that a minimum of 30% employment floor area and maximum 70% residential

floor area (and associated residential accessory uses) is maintained throughout each phase within the applicable Development Block.”

- l) Section 8.2.1 – In sub-heading “Height” insert after the first bullet:
 - Minimum of two storeys (8m) and up to six storeys (25m) adjacent to the west boundary of each Development Block along Garden City Road.
 - m) Section 8.2.1 – In sub-heading “Site Coverage”, delete bullet and insert:
 - Depends on uses and configuration.
 - n) Section 8.2.1 – In sub-heading “Additional Building Design Considerations” insert bullet:
 - “Stand alone, single-use buildings and/or mixed-use buildings may be considered, provided that they form part of a comprehensive plan for each Development Block, 1, 2 and 3.”
 - o) Section 8.2.3 - **Character Area 3 - The High Street Map** - in the “Legend” delete: “Business Office”
and insert:
“Mixed Use Employment-Residential”
 - p) Section 9.3 – **Alexandra Neighbourhood Land Use Map** – in the “Legend” delete: “Business/Office - office over retail FAR up to 1.25”
and insert:
“Mixed Use Employment-Residential (Maximum 70% Residential) – base FAR of 1.25 (Max. 1.75 FAR with density bonus for built affordable housing)”.
 - q) Section 9.3.2 – **Alexandra Development Framework** – in **Objective 3, Policies**, and after “**Developer Contributions – Public Amenities**”,
insert new sub-heading and paragraph after paragraph g);
“**Affordable Housing in the Mixed Use Employment-Residential Area**”
h) At least 5% of the total residential building area (a minimum of 4 units) is required in the form of built affordable housing units. Cash-in-lieu contributions are not acceptable and the 2006 *West Cambie - Alexandra Interim Amenity Guidelines* as they relate to affordable housing contributions will not apply”.
2. Richmond Official Community Plan Schedule 1 of Bylaw 9000 is amended as follows:
- a) *Attachment 1* – revise the “City of Richmond 2041 OCP Land Use Map” for the designated lands, changing the Land Use and the light blue shading from: “Mixed Employment” to: “Mixed Use” with the corresponding orange shading.
 - b) Section 3.6.3 – Under sub-heading “Aircraft Noise Sensitive Development Management”, revise the “Aircraft Noise Sensitive Development Map” (pg 3-71) as follows:

Revise the map to repeal the designation of the "Business Office" lands, as identified in OCP Schedule 2 of Bylaw 7100, 2.11A West Cambie Area Plan, Section 8.2.1 of the Alexandra Neighbourhood Character Areas Map from: "Area 1A"

and insert:

"Area 2" designation.

3. This Bylaw may be cited as "**Richmond Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9122**".

**Richmond Official Community Plan Bylaw 7100 and 9000
Amendment Bylaw 9121 (West Cambie Area Plan)**

The Council of the City of Richmond, in open meeting assembled, enacts as follows:

1. Richmond Official Community Plan Bylaw 7100 is amended in Schedule 2.11A by the following:
 - a) Section 8.1.6 - under sub-heading “Lessening the Impact of Aircraft Noise”, delete the paragraph in the second bullet, and insert:
 - “There shall be no new lots for single detached housing within the Alexandra Neighbourhood (as identified on the 2041 OCP Aircraft Noise Sensitive Development Map).”
 - b) Section 8.1.6 – under the sub-heading “Building Relationship with Streets” insert a bulleted paragraph as follows:
 - “The employment components of mixed use buildings should be oriented towards the arterial road network (Garden City Road and Cambie Road) to provide a consistent and complementary streetscape with future development on the west side of Garden City Road. Residential and ancillary uses should be inward oriented towards the collector roads (e.g. Dubbert Street).”
 - c) Section 8.2 – for the map titled “Alexandra Neighbourhood Character Areas Map” – in the Legend delete “Business Office” and insert:
“Mixed Use Employment-Residential”.
 - d) Section 8.2.1 – for the map titled “Neighbourhood Character Area 1- Business Office Map” - insert labelling as follows:
 - The development block formed by Cambie Road to the north, Garden City Road to the west, the McKim Way alignment to the south and the Dubbert Street alignment to the east shall be labelled as “Block 1”.
 - The development block formed by the McKim Way alignment to the north, Garden City Road to the west, Odlin Road to the south and the Dubbert Street alignment to the east shall be labelled as “Block 2”.

- The development block formed by Odlin Road to the north, Garden City Road to the west, Alexandra Road to the south and the Dubbert Street alignment to the east shall be labelled as “Block 3”.
- e) Section 8.2.1 – Delete the title of this section,
“CHARACTER AREA 1- BUSINESS OFFICE ”
and insert:
“CHARACTER AREA 1 – MIXED USE EMPLOYMENT-RESIDENTIAL ”
- f) Section 8.2.1 – Delete the title of the map,
“Character Area 1- Business Office Map”
and insert:
“Character Area 1 – Mixed Use Employment-Residential Map ”
- g) Section 8.2.1- Delete last sentence of paragraph 1,
“No residential uses are permitted in this area, due to the City’s OCP Aircraft Noise Sensitive Development Policy.”
and insert:
“Multi-family residential uses may be permitted, subject to the applicable provisions of this Area Plan, Section 8.1.6 Architectural Elements - Lessening the Impact of Aircraft Noise, and the 2041 OCP Aircraft Noise Sensitive Development Policy.”
- h) Section 8.2.1 – under sub-heading “Land Uses”, and after the bullet “Office commercial”, insert the following,
- “Bio-tech, research, and labs
 - Information technology (IT), media/software
 - Institutional (private and public) including medical facilities”
- i) Section 8.2.1 – under sub-heading “Land Uses” insert bullet:
- “**Multi-family housing** with accessory uses, amenities and community facilities. Residential and associated accessory uses shall be comprised of a maximum of 40% of the total floor area within Development Blocks 1, 2 and 3, as identified in the Character Area 1 – Mixed Use Employment-Residential Map”.
- j) Section 8.2.1 – under sub-heading “Floor Area Ratio” delete the bullet
and insert:
- The total building area within each Development Block 1, 2 and 3, excluding underground parking, shall be no greater than a total of 1.25 FAR (excluding bonus density of 0.5 FAR for affordable housing).
 - The maximum FAR for residential use, based a minimum of 60% Employment space, shall be 0.5 Base FAR with up to 0.2 Bonus FAR if Affordable Housing is provided as built Affordable Housing units.
 - A minimum of 0.75 FAR of Employment Space shall be completed prior to developing residential space above the first 0.25 FAR
- k) Section 8.2.1 – After sub-heading “Site Coverage” insert new sub-heading and text:

“Phasing of Development

- All Rezoning, Development Permit and Building Permit applications shall ensure that a minimum of 60% employment floor area and maximum 40% residential floor area (and associated residential accessory uses) is maintained throughout each phase within the applicable Development Block.”
- l) Section 8.2.1 – In sub-heading “Height” insert after the first bullet:
- Minimum of two storeys (8m) and up to six storeys (25m) adjacent to the west boundary of each Development Block along Garden City Road.
- m) Section 8.2.1 – In sub-heading “Site Coverage”, delete bullet and insert:
- Depends on uses and configuration.
- n) Section 8.2.1 – In sub-heading “Additional Building Design Considerations” insert bullet:
- “Stand alone, single-use buildings and/or mixed-use buildings may be considered, provided that they form part of a comprehensive plan for each Development Block, 1, 2 and 3.”
- o) Section 8.2.3 - **Character Area 3 - The High Street Map** - in the “Legend” delete: “Business Office”
and insert:
“Mixed Use Employment-Residential”
- p) Section 9.3 – **Alexandra Neighbourhood Land Use Map** – in the “Legend” delete: “Business/Office - office over retail FAR up to 1.25”
and insert:
“Mixed Use Employment-Residential (Maximum 40% Residential) – base FAR of 1.25 (Max. 1.75 FAR with density bonus for built affordable housing)”.
- q) Section 9.3.2 – **Alexandra Development Framework** – in **Objective 3, Policies** and after “**Developer Contributions – Public Amenities**”,
insert new sub-heading and paragraph after paragraph g);
“**Affordable Housing in the Mixed Use Employment-Residential Area**”
- h) At least 5% of the total residential building area (a minimum of 4 units) is required in the form of built affordable housing units. Cash-in-lieu contributions are not acceptable and the 2006 *West Cambie - Alexandra Interim Amenity Guidelines* as they relate to affordable housing contributions will not apply”.
2. Richmond Official Community Plan Schedule 1 of Bylaw 9000 is amended as follows:
- a) *Attachment 1* – revise the “City of Richmond 2041 OCP Land Use Map” for the designated lands, changing the Land Use and the light blue shading from: “Mixed Employment” to: “Mixed Use” with the corresponding orange shading.

- b) Section 3.6.3 – Under sub-heading “Aircraft Noise Sensitive Development Management”, revise the “Aircraft Noise Sensitive Development Map” (pg 3-71) as follows:

Revise the map to repeal the designation of the “Business Office” lands, as identified in OCP Schedule 2 of Bylaw 7100, 2.11A West Cambie Area Plan, Section 8.2.1 of the Alexandra Neighbourhood Character Areas Map from: “Area 1A”

and insert:

“Area 2” designation.

3. This Bylaw may be cited as “**Richmond Official Community Plan Bylaw 7100 and 9000, Amendment Bylaw 9121**”.

Adopted by Council: <date>

Policy XXXX

File Ref: <file no>

**WEST CAMBIE ALEXANDRA NEIGHBOURHOOD MIXED USE EMPLOYMENT –
RESIDENTIAL USE DENSITY BONUS, COMMUNITY AMENITY CONTRIBUTION,
MODEST RENTAL HOUSING RATES POLICY**

POLICY XXXX:

It is Council policy that the following maximum monthly rental rates be established for Modest rental housing on land designated as Mixed Use Employment Residential in the West Cambie Area Plan of the Official Community Plan:

Unit Type	Maximum Monthly Rent (May be reviewed periodically)	Total Household Annual Income (May be reviewed periodically)
Bachelor	\$700	\$34,000 or less
One bedroom	\$750	\$38,000 or less
Two bedroom	\$1,100	\$46,500 or less
Three bedroom	\$1,400	\$57,500 or less

**Richmond Official Community Plan Bylaw 7100 and 9000
Amendment Bylaw 9121 (West Cambie Area Plan)**

The Council of the City of Richmond, in open meeting assembled, enacts as follows:

1. Richmond Official Community Plan Schedule 1 of Bylaw 9000 is amended as follows:
 - a) Attachment 1 – revise the City of Richmond 2041 OCP Land Use Map for the designated lands, changing the Land Use and the light blue shading from “Mixed Employment” to “Mixed Use” with the corresponding orange shading.
 - b) Section 3.6.3 (Noise Management) – Under sub-heading “Aircraft Noise Sensitive Development Management”, revise the “Aircraft Noise Sensitive Development Map” (pg 3-71) as per Schedule A.
2. Richmond Official Community Plan Bylaw 7100 is amended in Schedule 2.11A as follows:
 - a) Section 8.1.6 (Architectural Elements) – under the sub-heading “Building Relationship with Streets” insert a bulleted paragraph as follows:
 - “• The employment components of mixed use buildings should be oriented towards the arterial road network (Garden City Road and Cambie Road) to provide a consistent and complementary streetscape with future development on the west side of Garden City Road. Residential and ancillary uses should be inward oriented towards the collector roads (e.g. Dubbert Street).”.
 - b) Section 8.1.6 (Architectural Elements) – under sub-heading “Lessening the Impact of Aircraft Noise”, delete the paragraph in the second bullet, and insert:
 - “• There shall be no new lots for single detached housing within the Alexandra Neighbourhood (as identified on the 2041 OCP Aircraft Noise Sensitive Development Map).”.
 - c) Section 8.2 (Alexandra’s Character Areas) – for the map titled “Alexandra Neighbourhood Character Areas Map” – in the Legend delete “Business Office” and insert:

“Mixed Use Employment-Residential”; and

replace “Business Office” in the legend with “Mixed Use Employment-Residential”.

- d) Section 8.2.1 (Character Area 1) – replace the title to this section with the following:

“Character Area 1 – Mixed Use Employment-Residential”.

- e) Section 8.2.1 (Character Area 1) – for the Character Area 1 map, replace the existing map entitled “Neighbourhood Character Area 1 –Mixed Use Employment-Residential” as per Schedule B.

- f) Section 8.2.1 (Character Area 1) – insert a new sub-heading “Development Blocks” and insert the following bullets:

- “• The development block formed by Cambie Road to the north, Garden City Road to the west, the McKim Way alignment to the south and the Dubbert Street alignment to the east shall be labelled as Block 1.
- The development block formed by the McKim Way alignment to the north, Garden City Road to the west, Odlin Road to the south and the Dubbert Street alignment to the east shall be labelled as Block 2.
- The development block formed by Odlin Road to the north, Garden City Road to the west, Alexandra Road to the south and the Dubbert Street alignment to the east shall be labelled as Block 3.”.

- g) Section 8.2.1 (Character Area 1) – Replace the first paragraph with the following:

“This character area is located along the east side of Garden City Road (see Character Area 1 – Mixed Use Employment-Residential Map). The preferred development in this area mirrors the land uses and building scale and building setbacks to the west side of Garden City Road, immediately south of Cambie Road. Multi-family residential uses may be permitted, subject to the applicable provisions of this Area Plan, Section 8.1.6 Architectural Elements – Lessening the Impact of Aircraft Noise, and the 2041 OCP Aircraft Noise Sensitive Development Policy.”.

- h) Section 8.2.1 (Character Area 1) – under sub-heading “Land Uses”, and after the bullet “Office commercial”, insert the following:

- “• Bio-tech, research, and labs.
- Information technology (IT), media/software.
- Institutional (private and public) including medical facilities.
- Employment uses shall comprise minimum of 0.52 FAR of the total floor area within Development Blocks 1, 2 and 3, as identified in the Character Area 1 – Mixed Use Employment-Residential Map.”.

- i) Section 8.2.1 (Character Area 1) – under sub-heading “Floor Area Ratio” delete the bullet “The maximum FAR is established at 1.25” and insert:

- “• The total building area within each Development Block 1, 2 and 3, excluding underground parking, shall be no greater than a total of 0.52 FAR for employment use (excluding bonus density).

- The maximum FAR for residential use, based on a minimum of 0.52 FAR of employment space, shall be 1.28 Bonus FAR if a minimum of 5% of the total residential floor space is provided as built Affordable Housing units, with a minimum of an additional 7.5% of residential space being provided in the form of purpose built modest market rental housing units, and a minimum of 2.5% residential floor space as built market rental housing and secured as rental in perpetuity, to meet the City's needs.
 - A minimum of 0.52 FAR of Employment Space shall be completed prior to or concurrent with the completion of the residential space.”.
- j) Section 8.2.1 (Character Area 1) – In sub-heading “Height” insert after the first bullet:
- “• Minimum of two storeys (8m) and up to six storeys (25m) adjacent to the west boundary of each Development Block along Garden City Road.”.
- k) Section 8.2.1 (Character Area 1) – In sub-heading “Site Coverage”, delete the bullet “In the range of 40% to 50%” and insert:
- “• Depends on uses and configuration.”.
- l) Section 8.2.1 (Character Area 1) – After sub-heading “Site Coverage” insert a new sub-heading and text:
- “Phasing of Development
- Developments proposing to be completed in one phase shall ensure that the applications include all of the following:
 - a minimum of 0.52 FAR is allocated for employment space,
 - a minimum of 5% of the total residential floor area is provided in the form of built Affordable Housing,
 - a minimum of 7.5 % of the total residential floor area is provided in the form of built modest rent controlled rental units, and
 - a minimum of 2.5% of the total residential floor area is provided in the form of built market rental units.
 - To ensure that the Employment space is built early in any project, all Rezoning, Development Permit and Building Permit applications shall ensure that a minimum of 30% of the floor area (up to 0.52 FAR) for non-residential and employment use is maintained throughout each phase within the applicable Development Block, and that a maximum of 70% of the total built form being provided is for residential floor area (and associated residential accessory uses) until the minimum 0.52 FAR of employment space is provided.
 - Subsequent to, or in conjunction with, the employment space being completed, and to ensure that the Affordable Housing, modest rent controlled housing and market rental units are completed as part of the development for the first half of the total residential floor area, for all projects with two or more phases:

- 15% of the total residential floor area (allocated for Affordable Housing, purpose built modest rent controlled units and market rental units) shall be built and completed as part of the first 50% of the total residential floor area being built within the entire project or Development Block.
 - Applications for residential development beyond the first 50% of the total residential floor area may not be processed or considered, unless all of the employment space and affordable housing, modest rental control units and market rental units are completed in their entirety and ready for occupancy.”
- m) Section 8.2.1 (Character Area 1) – In sub-heading “Additional Building Design Considerations” insert the following bullet:
- “• Stand alone, single-use buildings and/or mixed-use buildings may be considered, provided that they form part of a comprehensive plan for each Development Block, 1, 2 and 3.”.
- n) Section 8.2.3 (Character Area 3) – In the legend of the Character Area 3 - The High Street Map delete “Business Office” and insert:
- “Mixed Use Employment-Residential”.
- o) Section 9.3 (Alexandra’s Livability Guidelines) – for the Alexandra Neighbourhood Land Use Map replace as per Schedule C.
- p) Section 9.3.2 (Alexandra Development Framework) – Under Policies for Objective 3 after “Developer Contributions – Public Amenities”, insert a new sub-heading and paragraph after paragraph g):

“Affordable Housing in the Mixed Use Employment-Residential Area

- h) A minimum of 5% of the total residential building area is required in the form of built Affordable Housing units, with an additional 7.5% of the residential floor area being provided in the form of built modest market rental units, and 2.5% of the residential floor area is provided as market rental units that are secured in perpetuity as rental units, as per the West Cambie Alexandra Neighbourhood Mixed Use Employment –Residential Use Density Bonus, Community Amenity Contribution Modest Rental Housing Rates Policy.

Cash-in-lieu contributions are not acceptable and the 2006 *West Cambie - Alexandra Interim Amenity Guidelines* as they relate to affordable housing contributions will not apply to the Mixed Use Employment-Residential designated lands.”.

Schedule A to Bylaw 9121: Revised Aircraft Noise Sensitive Development Map

Aircraft Noise Sensitive Development (ANSND) Policy Areas (see Aircraft Noise Sensitive Development Policy Table)

No New Aircraft Noise Sensitive Land Uses:

AREA 1A

New Aircraft Noise Sensitive Land Use Prohibited

AREA 1B

New Residential Land Uses Prohibited

Areas where Aircraft Noise Sensitive Land Uses may be considered: subject to Aircraft Noise Mitigation Requirements

AREA 2

All Aircraft Noise Sensitive Land Uses (except new single family) may be considered (see Table for exceptions)

AREA 3

All Aircraft Noise Sensitive Land Use types may be considered

AREA 4

All Aircraft Noise Sensitive Land Use types may be considered

No Aircraft Noise Mitigation Requirements

AREA 5

All Aircraft Noise Sensitive Land Use types may be considered

Objective: Current rezoning may proceed prior to Area Plan updates, based on the formula:
- Residential use: Up to 2/3 of the buildable square feet (BSF);
- Non-residential use: The remaining BSF (e.g., 1/3)

Objective: To support the 2010 Olympic Speed Skating Oval:
- Residential use: Up to 2/3 of the buildable square feet (BSF);
- Non-residential use: The remaining BSF (e.g., 1/3)

On Fraser River Above 30 NEF Residential (e.g. house boats) may be considered

Area to explore opportunities regarding height. Potential would be subject to application process

**Re: West Cambie Alexandra Neighbourhood Business Office Area Review
(Amendment Bylaw 9121)**

Dear Mr. Weber:

Thank you for your letter referring the above noted item to the Richmond School District for comment. We are unable to provide comment for the Public Hearing, given the short time between the receipt of the letter and the date of the Public Hearing. District staff will review the materials that accompanied your letter, and will report back to the Board at our next meeting, which is scheduled for early September. We will then be able to submit our input, following due consideration by the Board.

Sincerely,

Dr. Eric Yung, Chairperson
On Behalf of the Board of Education (Richmond)

Dear Mr. Weber:

RE: West Cambie Alexandra Neighbourhood Business Office Area Review

This letter is in response to the proposed amendment to change the existing Business Office designation to Mixed Use Employment-Residential designation in the West Cambie Alexandra area, outlined in your letter to Anne Murray, Vice President Marketing and Communications – Airport Authority, dated 26 May 2015. We understand the proposal will change existing land use to approximately 30% employment and 70% residential.

The Airport Authority does not support this amendment for the following reasons:

1. The City's Aircraft Noise Sensitivity Development (ANSO) policy prohibits residential use in this area.
2. The area is located under the extended centerline and 2.6km from the threshold of the airport's 24-hour south runway (08R/26L). This area is exposed to high levels of aircraft noise and aircraft operating at low altitudes while on approach or departure from Vancouver International Airport.
3. This area is within the 30-35 Noise Exposure Forecast contour, where Transport Canada does not recommended residential development per their land use planning guidelines.

Thank you for the opportunity to review and provide comments. Please contact me at (604) 276-6366 should you require additional information.

Sincerely yours,

Mark C. Cheng
