Re: Application by Ryan Cowell on behalf of 0737974 B.C. Ltd. for a Zoning Text Amendment to Increase the Permitted Floor Area Ratio to 0.78 for the Property Located at 5600 Parkwood Crescent

Staff Recommendation

That Richmond Zoning Bylaw 8500, Amendment Bylaw 9245, for a Zoning Text Amendment to the "Vehicle Sales (CV)" zone, to increase the overall allowable Floor Area Ratio (FAR) to a maximum of 0.78 for the property, be introduced and given first reading.

Wayne Craig
Director of Development

REPORT CONCURRENCE

CONCURRENCE OF GENERAL MANAGER

Staff Report

Origin

Ryan Cowell, on behalf of 0737974 B.C. Ltd., has applied to the City of Richmond for a Zoning Text Amendment to the “Vehicle Sales (CV)” zone in order to increase the overall allowable Floor Area Ratio (FAR) to 0.78 for the property located at 5600 Parkwood Crescent, where development of two (2) auto dealerships is proposed. Location maps are included as Attachment 1. For reference, a site plan for the proposed auto dealership application is attached (Attachment 2).

Findings of Fact

The subject site was part of a rezoning and Official Community Plan (OCP) amendment that included the adjacent northern parcel, 5580 Parkwood Crescent (RZ 12-626430). The lots were rezoned from “Industrial Business Park (IB1)” to “Vehicle Sales (CV)” and redesignated from “Mixed Employment” and “Industrial” in the OCP and East Cambie Area Plan respectively to “Commercial” on February 23, 2015 (Bylaw 9054). A Servicing Agreement (SA) was required as a condition of rezoning bylaw adoption and required utility upgrades as well as land dedication to improve the road network.

The project proponent has applied for a Development Permit (DP 14-676613) to permit development of two (2) auto dealership buildings on the subject site (Attachment 2). At the design stage, it was recognized that the proposed buildings exceed the density permitted by the site’s “CV” zoning. The applicant proposes a text amendment to the “CV” zone to increase the allowable FAR on the subject site to 0.78 FAR based on consideration of the site specific context and the feasibility of accommodating the proposed density on the subject site. Under the current “CV” zone, the total FAR that can be achieved is 0.50. The “CV” zone includes reference to two properties, which are within proximity of the subject development proposal, where density is increased (to 0.58 and 0.75 FAR).

A Development Application Data Sheet providing details about the development proposal is attached (Attachment 3).

Surrounding Development

The subject property is located within the Richmond Auto Mall. The following land uses surround the site:

To the north, proposed redevelopment of an existing two-storey industrial business park building to a two-storey auto dealership (Acura) within the Richmond Auto Mall, zoned “Vehicle Sales (CV)” and designated “Commercial” in the East Cambie Area Plan.

To the east, across Knight Street, two-storey office buildings, zoned “Industrial Business Park (IB1)” and designated “Industrial” in the East Cambie Area Plan.

To the south, existing vehicle sales and service dealerships within the Richmond Auto Mall on sites zoned “Vehicle Sales (CV)” and designated “Commercial” in the East Cambie Area Plan.

To the west, vehicle sales and service dealerships within the Richmond Auto Mall on sites zoned “Vehicle Sales (CV)” and designated “Commercial” in the East Cambie Area Plan.

Related Policies & Studies

Official Community Plan (OCP)/East Cambie Area Plan

The subject site is designated “Commercial” in both the Official Community Plan (OCP) and the East Cambie Area Plan. Redevelopment of the site as an auto dealership is supported by both plans and is compatible with adjacent land uses.

Flood Protection

The site is located in the East Cambie Planning Area; where the Flood Construction Level (FCL) requirement is 2.9 m GSC for habitable spaces. A Flood Indemnity Restrictive covenant was secured as a condition of rezoning bylaw adoption (RZ 12-626430).

Ministry of Transportation and Infrastructure (MOTI)

The development proposal was referred to MOTI at the time the associated rezoning (RZ 12-626430) was reviewed. MOTI approval was granted conditional to all storm water being directed to a municipal storm drain system and prohibition of direct access to the site from Highway 91.

The site is permitted to drain into the highway system provided storm water first enters the Municipal City system. Through the associated rezoning process, storm water management was reviewed. The site will drain into the existing City storm water management system that will travel along Parkwood Crescent then along the edge of the northern adjacent property, 5580 Parkwood Crescent before discharging into the highway system, which complies with MOTI requirements. No additional provisions need to be secured through the subject text amendment application.

Richmond Auto Mall Association Review

As the site is located within the Richmond Auto Mall, the applicant has confirmed that the proposed text amendment, to permit increasing the density on the subject site from 0.5 FAR to 0.78 FAR, is supported by the Richmond Auto Mall Association (RAMA).

Public Consultation

The applicant has confirmed that information signage describing the proposed Zoning Text Amendment has been installed on the subject site. Notification signage of the associated proposed Development Permit to permit development of two (2) auto dealerships on the site is currently posted on the site. Staff have not received any comments from the public about the proposal.

Staff Comments

Site Servicing

No servicing concerns based on the proposed increase in floor area ratio have been identified. Frontage improvement works, including a new road, new sidewalk and boulevard have been secured as part of the concluded associated rezoning application (RZ 12-626430).

Analysis

The subject application is being brought forward for consideration based on the following site-specific considerations.

- The subject site is located within the Richmond Auto Mall, which co-exists with adjacent industrial office park uses where properties are zoned “Industrial Business Park (IB1)” and the associated permitted density is a maximum of 1.0 FAR, which is double the floor area permitted by the site’s existing “CV” zoning and more than the 0.78 FAR proposed by the subject application.
- The “CV” zone has been amended twice in the past to increase allowable density on two (2) properties within the Auto Mall (5571 Parkwood Way and 13340 Smallwood Place). Notably, the existing Lexus dealership within the Auto Mall, located at 5571 Parkwood Way, amended the “CV” zone to increase the allowable density on-site to 0.75 FAR.
- The applicant has provided architectural plans, which are in the process of being reviewed through the Development Permit review process (DP 14-676613), that demonstrate the proposed density can be accommodated on-site. The Development Permit review process also includes consideration of the form and character of the proposed buildings and associated on-site landscaping.
- The applicant proposes two (2) auto dealership buildings that consist of two (2) full stories and a partial third storey. The building massing is compatible with existing two (2) storey auto mall and industrial business park buildings in the immediate proximity. The buildings are not expected to cast shadows, obstruct views, or introduce overlook concerns to adjacencies.
- The proposed redevelopment is one of a series of applications either recently reviewed or in the process of being reviewed by the City to expand the Richmond Auto Mall to meet increased demand. The applicant proposes multi-storey buildings; thereby maximizing density within the proposed building footprint. By maximizing the functionality of the existing Auto Mall, commercial land that is located elsewhere within the City remains available for other uses.

Financial Impact or Economic Impact

No financial or economic impact is anticipated as a result of the proposed development.

Conclusion

The Richmond Auto Mall was created to consolidate auto dealerships and establish a destination location for auto service and purchase. The proposed Zoning Bylaw Text Amendment to increase the permitted density on the subject site would maximize use on the subject property without significantly affecting nearby land uses. The "CV" zone has been previously amended to support greater density on two other sites within the Richmond Auto Mall. Based on consideration of the site specific context and feasibility of accommodating the proposed density without significantly affecting adjacencies, it is recommended that Zoning Bylaw 8500, Amendment Bylaw 9245 be introduced and given first reading.

Diana Nikolic, MCIP
Planner 2-Urban Design
