Report to Development Permit Panel

To: Development Permit Panel **Date:** February 16, 2015
From: Wayne Craig **File:** DP 13-642725
Director of Development
Re: **Application by Amela Brudar - GBL Architects for a General Compliance Ruling
for "Phase 2" at 8888 Patterson Road and 3333 Hazelbridge Way**

Staff Recommendation

That the attached plans involving changes to the design of the Phase 2 building at 8888 Patterson Road and 3333 Hazelbridge Way (addressed as 8988 Patterson Road) are considered to be in General Compliance with Development Permit (DP 13-642725).

Wayne Craig
Director of Development

WC:spc
Att.

Staff Report

Origin

Amela Brudar – GBL Architects, on behalf of Concord Pacific, has requested a General Compliance ruling regarding Development Permit DP 13-642725 for the proposed development of the “Concord Gardens” Phase 2 building at 8888 Patterson Road and 3333 Hazelbridge Way (Attachment 1), which was endorsed by the Development Permit Panel at its meeting on January 15, 2014 and approved by Council on January 27, 2014.

Drawings indicating the scope of the proposed changes (Attachment 2) and the proposed replacement Development Permit plans (Attachment 3) are attached to this report.

Finding of Facts

The “Concord Gardens” Phase 2 building is the second of three phases proposed for 8888 Patterson Road and 3333 Hazelbridge Way. Phase 1 is currently under construction (DP 12-611486 / BP 13-643300) and a Development Permit for the third phase is under review (DP 14-670686). The two final phases of “Concord Gardens” will be the subject of a future Development Permit application on an adjacent property south of the subject site (3340 Sexsmith Road).

The proposed changes to the approved Phase 2 Development Permit include the following:

1) Indoor Amenity Space Enhancements

The approved Development Permit provides for a large, multi-level, indoor amenity facility at the lower levels of Phase 2 for the shared use of all five phases of “Concord Gardens”, together with two smaller indoor amenity spaces at Levels 4 and 11 for the private use of Phase 2 residents. No change is proposed to the distribution or use of these indoor amenity spaces; however, the developer proposes changes to the larger facility to enhance its attractiveness and operation, including:

- Addressing Vancouver Coastal Health requirements by rearranging the swimming pool area so that pool users enter via the change rooms, the spa is removed from the wet area, and the pool is divided into a larger pool for swimming and a smaller, gradual entry pool for children’s play; and
- Enhancing use of the gymnasium, especially for badminton and basketball, by increasing its clear height from 5.2 m to 7.6 m (17 ft to 25 ft) (without changing the approved building height) and adding windows to allow for day-lighting.

2) Structural and Mechanical Issues

The approved Development Permit provides for mechanical and structural systems to support the approved building, but the proposed increase in gymnasium height, changes in the pool design, and District Energy Utility (DEU) detailed design requirements, among other things, necessitate changes to these systems that affect the approved design including:

- Replacing the “V” shaped columns at the large amenity facility (due to structural issues that made them squat and bulky) with a simplified structural system integrated into the building facade and a lighter colonnade and sunshade;
- Raising the finished floor elevation of the lowest dwelling level by 0.67 m (2.2 ft) due to structural issues affecting parkade headroom, together with related landscape changes along the Garden City Road townhouse frontage; and
- Enlarging the mechanical rooms proposed for the Level 11(mid-rise) and tower rooftops, together with related minor landscape changes.

3) Design Development Issues

Technical issues arising through design development have prompted the developer to propose various changes to the approved design of Phase 2, including:

- Refinements to the privately-owned, publicly-accessible Neighbourhood Park to improve playground safety, enhance public access, and mitigate venting of the below-grade parkade;
- Landscape changes to mitigate potential streetscape impacts related to above-grade utilities;
- Window pattern changes to mitigate conflicts with columns and sheer walls; and
- The conversion of two standard units to Basic Universal Housing (BUH) units (increasing Phase 2's total from 48 to 50 BUH units) and the application of the standard Zoning Bylaw floor area exclusion of 1.86 m^2 (20 ft^2) per BUH unit (i.e. 93.0 m^2 ($1,000 \text{ ft}^2$) in total).

Staff Comments

Building Design

Staff's review of the proposed changes to the approved building design determined the following:

- 1) At the large indoor/outdoor amenity facility:
 - Changes to the pool and gymnasium enhance the amenity of the facility and satisfy Vancouver Coastal Health requirements; and
 - The replacement of the approved design's bold V-shaped columns with a lighter, airier, colonnade and perforated sunshade complements the clean, modern lines of the overall development, enhances the relationship of the building's lower level with its upper floors (where the sunshade is part of the approved design), and provides visual interest and architectural features that are in scale with the character and quality of the on-site landscape, garden pavilion, and adjacent public Neighbourhood Park.
- 2) At the Garden City Road townhouses, the proposed increase in the grade change between the sidewalk and the units, from 1.78 m (5.8 ft) to 2.45 m (8.0 ft), has been handled sensitively. As per the approved design, the townhouses have direct access to the sidewalk and the frontage is landscaped with plants and trees; however, the type of plant material has been revised to include more climbing vines that will green the proposed terrace walls and complement the character of the adjacent parks, while the increased elevation of the townhouse patios will help buffer them from Garden City Road's traffic noise and related impacts.
- 3) At the Level 11 (mid-rise) rooftop, the proposed addition of a mechanical room at the west side of the approved indoor amenity/elevator penthouse building has negligible impact on the surrounding indoor/outdoor amenity area due to its small size, its integration into the design of the amenity/penthouse building, and its screening with a raised planter bed, tree, and built-in garden storage shed.
- 4) At the tower rooftop, the proposed expansion of the mechanical space has been designed to minimize impacts on the form and character of the approved design by breaking the mechanical enclosure into two parts, varying their heights and setbacks, and cladding them in materials like those used elsewhere on the building (i.e. a higher, cubic volume clad in solid, iridescent metal panels and a lower, rectangular volume screened with an open lattice). This, together with a band of perforated sunshades around the edge of the rooftop (which is part of the approved design), will help the mechanical enclosures to visually blend into the overall building design and significantly screen views from the Neighbourhood Park and public and amenity areas below.

- 5) At various locations across the building's facades, the developer proposed to vary the approved window pattern to screen structural elements. As the approved window pattern is a subtly random combination of vision glass and coloured spandrel panels, the proposed changes are expected to be undetectable.
- 6) The proposed increase in the number of BUH units is supportive of City policy and has no impact on the approved form or character of the approved development.

The proposed building changes enhance the amenity of the development and address technical issues, while respecting the overall form and character of the approved design. Staff support the developer's proposed changes.

Landscape Design

Landscape changes are proposed to the approved Development Permit in relation to the building changes described above and various technical issues. Staff's review of these proposed changes determined the following:

- 1) At the Neighbourhood Park, the proposed introduction of vents (for the below-grade parkade) is successfully mitigated by integrating them into walkways, signage, and a new play structure (the latter of which is designed to satisfy City playground safety standards).
- 2) At the building's lower levels:
 - Along Patterson Road, increased utility requirements have reduced the developer's ability to install soft landscaping between the tower lobby and loading area, but this is expected to have a negligible impact on the streetscape because the developer proposes to relocate some equipment into the parkade, enclose the above-grade utility box, and replace a gravel area (formerly for the relocated equipment) with an attractive metal grill set flush with the adjacent sidewalk and bike parking area; and
 - At the shared amenity space, the developer proposes to enlarge the outdoor pool/sunning deck and separate it from other deck areas, simplify the circulation, revise the design of the reflecting pond and planting areas to enhance privacy and visual interest, and refine the design of the garden pavilion to provide for an outdoor fireplace and a light, elegant structure in character with the building's proposed colonnade and perforated sunshade.
- 3) At Level 5, the proposed change to the gymnasium is screened by expanding the previously approved extensive green roof.
- 4) At the Level 11 (mid-rise) roof deck, the proposed mechanical room is screened with planting and a storage room that will enhance the use of the approved garden plots.

The proposed landscape changes do not reduce the overall size, function, or quality of the development's outdoor amenity spaces, and they provide for the integration of the indoor pool with adjacent outdoor spaces in a manner this is both attractive and satisfies Vancouver Coastal Health (pool) requirements. Staff support the developer's proposed changes.

Analysis

The proposed modifications to the design of the subject Phase 2 development satisfy Richmond's General Compliance Criteria as follows:

- No new or increased development variances are proposed;

- No increase in net density (i.e. after standard Zoning Bylaw exclusions) is proposed beyond what was specified in the approved Development Permit (i.e. 20,759.6 m² / 223,454 ft²);
- No elements are altered that raised concern with the public, Advisory Design Panel, or Development Permit Panel during the original Development Permit process;
- No proposed changes detract from the quality, form, or character of the building;
- No change to the approved site coverage, siting, scale, spacing, or configuration of the building is proposed;
- No reduction in the overall size or quality of indoor or outdoor amenity space is proposed;
- No reduction in the Development Permit landscape value is proposed;
- No vehicle access, loading, or parking requirements are altered; and
- No features are inconsistent with the applicable Development Permit Guidelines.

Conclusions

Amela Brudar – GBL Architects, on behalf of Concord Pacific, has requested a General Compliance ruling with respect to proposed changes to the “Concord Gardens” Phase 2 building at 8888 Patterson Road and 3333 Hazelbridge Way. The subject changes are proposed to address amenity space enhancements, Basic Universal Housing, and structural and mechanical issues. The changes satisfy Richmond’s General Compliance Criteria, enhance the project’s amenity facilities, and are consistent with the quality and character of development established through the approved Development Permit. In light of this, staff recommend that the proposed changes are considered to be in General Compliance with the approved Development Permit (DP 13-642725).

General Scope of Proposed Changes to the Approved Development Permit: Site Plan

- 1** Improvements to lower-level indoor amenity facilities (e.g., pool, gym) and related landscaping in coordination with the replacement of exterior "V" columns with a lighter colonnade and sunshade
- 2** Landscape changes along the Garden City Road townhouse frontage to address a rise of 0.67 m (2.2 ft) in the residential floor elevation and provide for a pedestrian-friendly streetscape
- 3** Screening and landscape changes to address increased mechanical equipment requirements at the mid-rise and tower rooftop levels
- 4** Neighbourhood Park improvements provided to improve playground safety, enhance public access, and mitigate venting of the parkade structure beneath the park
- 5** Landscape changes to mitigate potential streetscape impacts related to above-grade utilities
- 6** Window pattern changes to mitigate conflicts with columns and sheer walls
- 7** Two (2) additional Basic Universal Housing (BUH) units

Proposed Change

- 1 Improvements to lower-level indoor amenity facilities (e.g., pool, gym) and related landscaping in coordination with the replacement of exterior structural columns with a lighter colonnade and sunshade

BLOCK 5; NORTH RANGE 6 WEST; NEW
WESTMINSTER DISTRICT PLAN #2027512

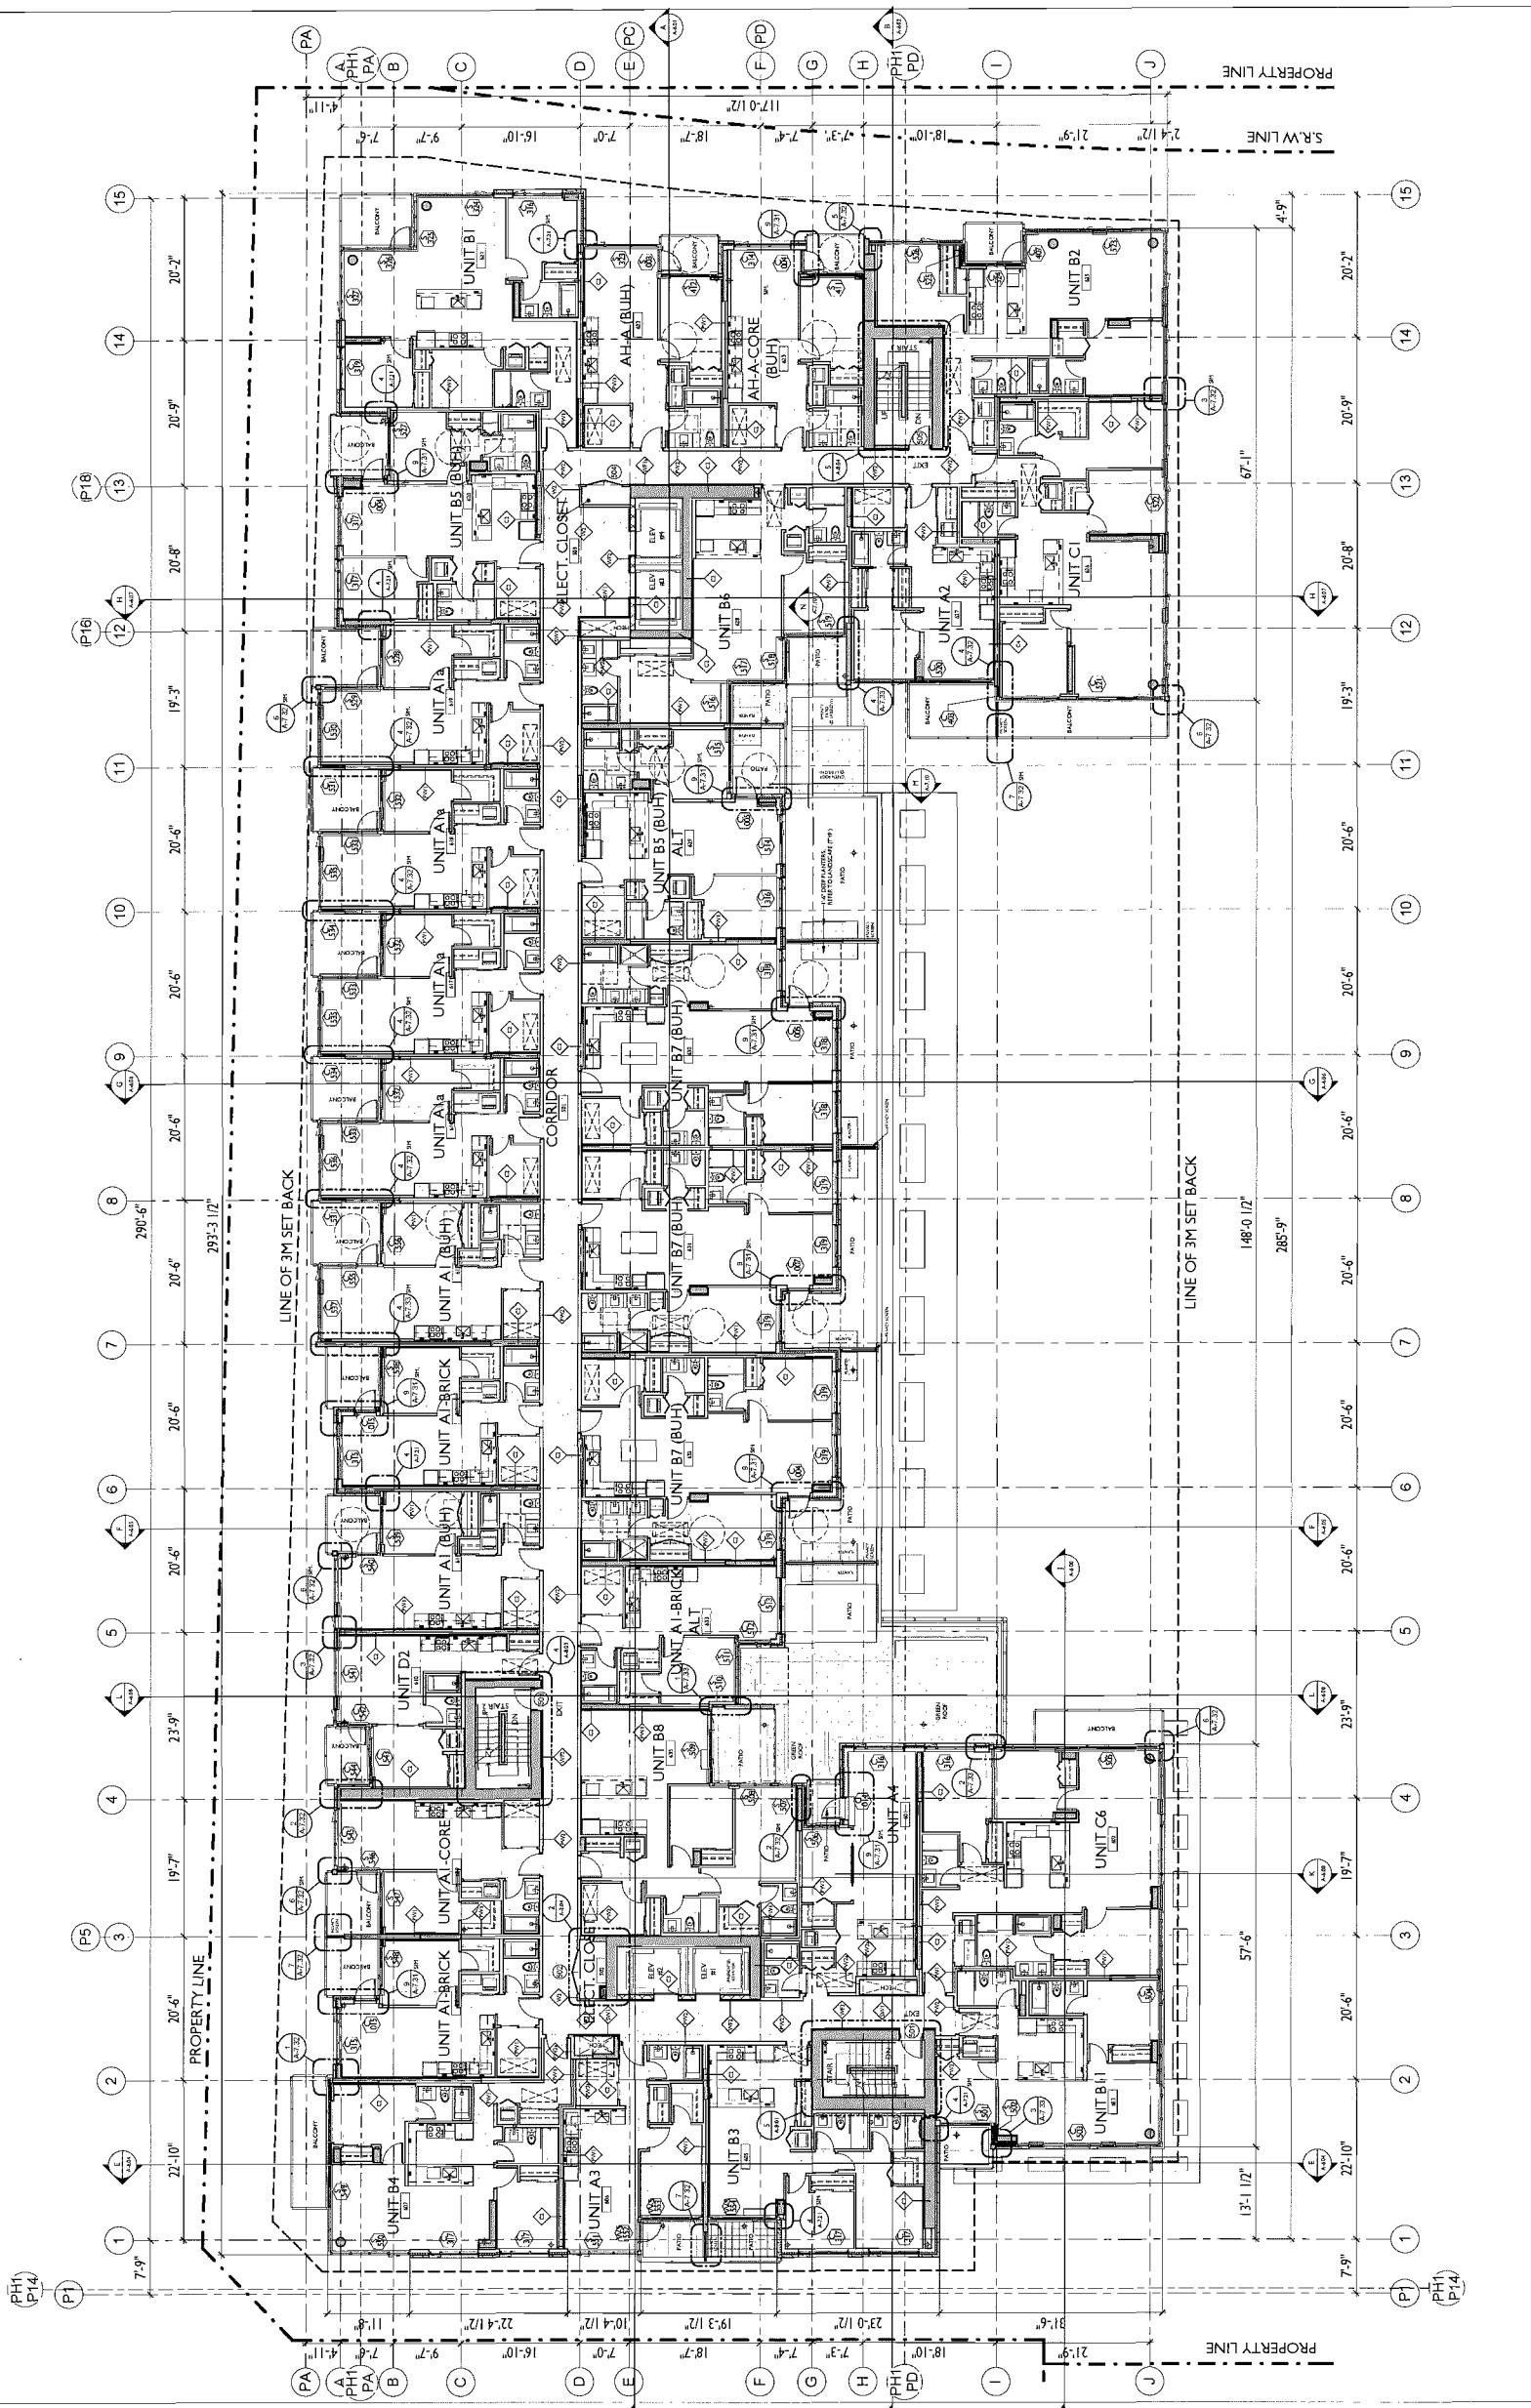

This detailed architectural floor plan illustrates the layout of a multi-unit residential building on Level 4 (FL 5). The plan includes:

- Unit Layouts:** The building contains several units, including UNIT A1, UNIT A2, UNIT B1, UNIT B2, and UNIT C1.
- Common Areas:** The plan shows a CORRIDOR, MECH. CLOSE., AMENITY ROOM, and various amenity spaces like a GYMNASIUM, SWIMMING POOL, and BANQUET HALL.
- Dimensions:** The building's width is indicated by horizontal dimensions such as 22'-10" and 20'-6". Vertical dimensions range from 7'-9" to 20'-9".
- Setbacks:** The building is bounded by "PROPERTY LINE" and "LINE OF 3M SETBACK".
- Vertical Circulation:** Stairs (STAIR 1, STAIR 2) and an ELEVATOR (ELEV.) provide vertical access between levels.
- Labels:** Labels include "OPEN TO POOL BELOW", "OPEN TO GYMNASIUM @ L2 BELOW", "OPENNESS BELOW", "OUTLINE OF TERRACE ABOVE", "OUTLINE OF TERRACE ABOVE", "OUTLINE OF TERRACE ABOVE", and "OUTLINE OF TERRACE ABOVE".
- Notes:** A note specifies "BALCONY REFER TO LEVEL 3".
- Scale:** A scale bar at the bottom right indicates distances up to 10' and 12'.
- Legend:** A legend in the bottom right corner defines symbols for PA (Public Area), PH (Private Hall), and B (Balcony).

Legal Address: 101 SECTONS 27 AND 28,

This architectural site plan illustrates a residential development layout. The plan includes several buildings labeled A through K, which are circled in red. Building A is located in the upper left, B is in the upper right, C is in the middle left, D is in the middle right, E is at the bottom center, F is in the lower right, G is in the middle left, H is in the middle right, I is in the lower left, J is in the lower right, and K is in the middle left. The site features a mix of green spaces, including a large central green area, smaller parks, and a golf course. Roads are labeled with names such as GMEN CITY ROAD, PRIVATE ROAD, PATERSON ROAD, and PATERSON AVENUE. A river or stream flows through the southern part of the development. Construction phases are indicated by hatching: Phase 1 is shown in grey, Phase 2 in light blue, and Phase 3 in orange. A legend on the right side defines these symbols. The plan also includes a north arrow and a scale bar.

UNIT - AH-C1 (BUH)

1/4" = 1'-0"

UNIT - AH-C1 (BUH)

1/4" = 1'-0"

CORRIDOR WIDTHS

9) COMMON CORRIDORS SHALL BE NO LESS THAN 1220.0 mm WIDE.
 FLOOR SURFACES THROUGHOUT THE BUILDING SHALL HAVE NO ABRUPT CHANGES IN LEVEL, I.E., A MAXIMUM BREAK OF THE FLUSH THRESHOLD OF 3.0 mm HEIGHT.

10) FLOOR SURFACES SHALL BE SLIP RESISTANT.

11) WHERE CARPETS ARE USED, THEY MUST BE FIRMLY FIXED, HAVE A FIRM UNDERLAY AND RUE UNDER 13.0 mm HEIGHT.

12) WHERE CARPETS ARE USED, THEY MUST BE FIRMLY FIXED, HAVE A FIRM UNDERLAY AND RUE UNDER 13.0 mm HEIGHT.

13) WINDOWS WHICH ARE ACCESSIBLE SHALL HAVE A WINDOW SILL HEIGHT THAT DOES NOT EXCEED 750.0 mm ABOVE THE FLOOR TO AFFORD SEATED VIEWING, AT LEAST ONE TWISTING OF THE UNIT.

14) WINDOWS WHICH ARE ACCESSIBLE SHALL HAVE OPENING MECHANISMS OPERABLE WITH ONE HAND AND OF A TYPE THAT DOES NOT REQUIRE TIGHT GRASPING, PINCHING OR TWISTING OF THE UNIT.

OUTLETS AND SWITCHES

15) LIGHT SWITCHES, ELECTRICAL PANELS AND INTERCOM BUTTONS SHALL BE A MAXIMUM 1220.0 mm FROM THE FLOOR.

16) ELECTRICAL OUTLETS, CABLE OUTLETS AND TELEPHONE JACKS SHALL BE LOCATED NOT LESS THAN 450.0 mm FROM THE FLOOR.

17) THERMOSTAT SHALL BE LOCATED BETWEEN 900.0 mm TO 1350.0 mm FROM THE FLOOR.

18) THE OPERABLE PART OF CONTROLS SHALL BE LOCATED WITHIN REACH OF THE CLEAR FLOOR AREA THAT HAS A WIDTH OF NOT LESS THAN 750.0 mm.

19) LIGHT SWITCHES WILL BE ROCKER OR PADDLE TYPE SWITCHES.

BATHROOMS

20) AT LEAST ONE BATHROOM SHALL HAVE A GRAB BAR BAN BE INSTALLED AND AT LEAST 1020.0 mm FROM ANY OBSTRUCTION ON THE NONGRAB BAN SIDE ON FRONT OF THE TOILET; AND

A) HAVE A TMINIMUM CLEAR LENGTH OF 760.0 mm BY 1220.0 mm POSITIONED FOR A PARALLEL APPROACH AND CENTERED ON THE SINK.

B) HAVE A TMINIMUM CLEAR AREA OF 914.0 mm BY 1220.0 mm POSITIONED FOR A TURNS-IN APPROACH AND CENTERED ON THE SINK.

C) HAVE A TMINIMUM CLEAR AREA OF 914.0 mm BY 1220.0 mm POSITIONED FOR A TURNS-IN APPROACH AND CENTERED ON THE SINK.

D) HAVE STRUCTURAL REINFORCEMENT OF THE WALLS AND THE FLOOR.

E) INCLUDE EASY TO GRASP HANDLES ON CUPBOARDS, E.G., LEVER TYPE FAUCETS.

21) WHERE BATHROOMS ARE PROVIDED TO SERVE A COMMON AMENITY SPACE, AT EAST ONE SHALL BE WHEELCHAIR ACCESSIBLE AS DESCRIBED IN THE BUILDING CODE AND THE TOP OF THE RIM OF THE TOILET IN THAT ONE BATHROOM SHALL BE 480.0 mm ABOVE THE FLOOR.

KITCHENS

22) THE KITCHEN MUST HAVE:

A) SOME USEABLE COUNTER SPACE AND CUPBOARDS THAT CAN BE EASILY ACCESSED BY PEOPLE WITH DISABILITIES, INCLUDING PEOPLE WITH WHEELCHAIRS, E.G., CONTINUOUS COUNTER BETWEEN THE STOVE AND SINK, ADJUSTABLE SHELVES IN ALL CABINETS; PULL-OUT WORK BOARDS AT 810.0 mm HEIGHT; AND PULL-OUT CABINET SHELVES;

B) EASY TO GRASP HANDLES ON FAUCETS, E.G., LEVER TYPE FAUCETS.

C) TASK LIGHTING AT SINK, CUPBOARDS, E.G., D OHL TYPE FAUCETS.

D) PLUMBING AND UTILITY PIPES LOCATED TO PROVIDE FOR A POTENTIAL 3.0 mm WIDE UNDER COUNTER WORKSPACE SO AS NOT TO PREVENT THE EASY FUTURE CONVERSION OF COUNTER SPACE AND SINKS TO BEING UNIVERSALLY ACCESSIBLE FOR KNEE SPACE UNDER THE SINK WHERE THERE IS A COUNTER TOP STOVE BUILT-IN.

BEDROOM AND CLOSET

23) THE SPACE AROUND A BED IN A DWELLING UNIT THAT CONSISTS OF A BACHELOR SUITE, AND AT LEAST ONE BEDROOM IN EVERY OTHER DWELLING UNIT SPACE TO PROVIDE A TURNING DAME OF 1500.0 mm ON ONE SIDE OF A DOUBLE BED.

24) THE MINIMUM CLEAR OPENING FOR THE INTERIOR DOORS TO AT LEAST ONE BEDROOM IN COMMON AREAS SHALL HAVE A CLEAR AND LEVEL AREA WHICH IS NOT LESS THAN 800.0 mm.

25) DOORS TO EVERY DWELLING UNIT AND DOOR ASSEMBLIES IN COMMON AREAS SHALL BE OPERABLE BY DEVICES THAT DO NOT REQUIRE TIGHT GRASPING OR TWISTING OF THE DOORS.

26) FLUSH THRESHOLDS THROUGHOUT THE BUILDING SHALL BE A MAXIMUM OF 13.0 mm IN HEIGHT.

27) THE ABOVE-NOTED REQUIREMENTS FOR DOORS DO NOT APPLY TO MECHANICAL ROOMS, SERVICE AREAS, CLOSETS, ETC. WHERE THROUGH ACES IS NOT REQUIRED AND ACCESS TO A PERSON WITH A DISABILITY IS NOT ANTICIPATED.

28) DOORS TO EVERY DWELLING UNIT AND DOOR ASSEMBLIES IN COMMON AREAS SHALL HAVE A CLEAR AND LEVEL AREA WHICH IS NOT LESS THAN 800.0 mm.

29) WHERE THERE ARE DOORS IN A SERIES FROM THE AREA PUSH DOOR, 220.0 mm LONG BY WIDTH OF THE DOOR PLUS AT LEAST 600.0 mm CLEAR SPACE ON THE LATCH SIDE.

30) WHERE THE DOOR SWINGS AWAY FROM THE AREA PUSH DOOR, 220.0 mm LONG BY WIDTH OF THE DOOR PLUS THE WIDTH OF THE DOOR, 220.0 mm CLEAR SPACE IF TROUGH IN WIRING IS PROVIDED FOR FUTURE CONVERSION FOR AN AUTOMATIC DOOR OPENER.

31) DOORS TO EVERY DWELLING UNIT AND DOOR ASSEMBLIES IN COMMON AREAS SHALL BE OPERABLE BY DEVICES THAT DO NOT REQUIRE TIGHT GRASPING OR TWISTING OF THE DOORS.

32) STAIRWELL HANDLES, LEVER TYPE HANDLES FOR PLUMBING FIXTURES, DOOR HANDLES, SOLID BLOCKING IN WASH-ROOM WALLS FOR FUTURE GRAB BARS BESIDE TOILET, BATH-TUB AND SHOWER.
