## Staff Report

### Origin

In 2014, the Provincial Government amended the *Local Government Act* to require municipalities to adopt underlying zoning bylaws for all Land Use Contract (LUC) properties by June 30, 2022, and to provide for the termination of all LUCs on June 30, 2024. The amending legislation also established an optional process to enable municipalities, by bylaw, to undertake early termination of LUCs and provide expanded authority to Boards of Variance to hear appeals and grant time extensions to existing property owners for reasons of hardship.

On November 24, 2015, Richmond City Council adopted a set of bylaws that established underlying zoning for 93 separate LUCs that included single-family properties, as well as adopted bylaws to terminate these LUCs effective one year from the date of adoption (i.e., November 24, 2016). Following November 24, 2015, there remained 46 LUCs on a total of 95 properties (including 3,078 units) in the City containing multi-family, commercial, industrial, and agricultural uses, which were not subject to the underlying zoning bylaws and early termination bylaws. These remaining LUCs were to be dealt with separately at a later date because they were not subject to the same redevelopment pressures as that of the LUCs that included single-family properties.

Consistent with the *Local Government Act*, City Council must consider bylaws to establish underlying zoning for the properties developed under the remaining LUCs. This involves the standard bylaw reading and adoption process, and includes holding a Public Hearing for all bylaws.

In the fall of 2017, City Council adopted underlying zoning bylaws for five of the remaining LUCs. These new underlying zones are applicable to nine commercial/industrial properties in the north portion of City Centre. At that time, the following approach was endorsed by City Council for dealing with the remaining LUCs:

- Underlying zoning bylaws for the remaining LUCs would be brought forward separately on the basis of their geographic area (Attachment 1).
- Unlike the approach used for the LUCs that included single-family properties, no early termination bylaws are proposed to be brought forward for the remaining LUCs. Essentially, the existing remaining LUCs will remain effective and continue to govern the use and development of the affected properties until their termination date of June 30, 2024, at which time the underlying zoning will take precedence.

There are now 41 underlying zoning bylaws that must be established, applicable to a total of 82 properties in the City (including 3,027 units).<sup>1</sup>

---

<sup>1</sup> This includes remaining LUCs/properties that are currently the subject of active rezoning applications for redevelopment, which will be dealt with separately.

This report brings forward underlying zoning bylaws for 11 of the remaining LUCs (LUCs 001, 025, 051, 073, 096, 104, 115, 119, 131, 138 and 158). The proposed bylaws are applicable to 20 multi-family and commercial properties in the south portion of City Centre (Attachment 2).

The proposed bylaws aim to reflect the specific provisions contained in each LUC, as well as certain standard provisions contained within Richmond Zoning Bylaw 8500 for aspects not anticipated by the LUC. This ensures the underlying zoning bylaws mirror what is contained in the LUCs without granting additional development rights while still acknowledging current zoning norms. After the LUCs expire on June 30, 2024, where there are inconsistencies between the provisions of the proposed bylaws and what actually exists on the subject properties, the provisions for non-conforming uses and buildings under the *Local Government Act* will apply.

This report supports Council's 2014-2018 Term Goal # 3 – A Well-Planned Community:

*Adhere to effective planning and growth management practices to maintain and enhance the liveability, sustainability and desirability of our City and its neighbourhoods, and to ensure the results match the intentions of our policies and bylaws.*

*3.1 Growth and development that reflects the Official Community Plan (OCP) and related policies and bylaws*

This report and the proposed bylaws are also consistent with policies from the 2041 Official Community Plan (OCP), which support exploring alternatives to Land Use Contracts to achieve better land use management over time.

### **Findings of Fact**

A Land Use Contract is a contract between a property owner (typically a developer) and a municipality addressing the use and development rights of a property. The LUC regulations are similar to zoning, with the exception that the LUC is registered on the Title of the property and, until recently, agreement from both the property owner and municipality was required to amend or discharge the contract.

The provincial legislation enabling LUCs was in effect for a short period of time between 1973 and 1979 and allowed the ability to create tailor-made development contracts for specific sites. LUCs were also used to control the form and character of buildings and landscaping of sites and, in some cases, included detailed servicing requirements. Typically, the same LUC was registered by a developer against all the properties in a particular subdivision, thereby creating consistent use and development rights for those properties. Unless discharged, LUCs registered during such period remain in place today governing the use and development rights of the affected properties.

LUCs typically include limited development restrictions compared to today's standards. Any reference to a zoning bylaw within a LUC is specific to the zoning bylaw in place at the date of contract execution. Since LUCs are registered on Title and can only be amended or discharged with the property owner's consent, the result is that LUCs have not evolved over time as land use considerations have changed. Properties under the current Richmond Zoning Bylaw 8500 have

had multiple amendments over time to address various land issues such as building interface, landscaping, sustainability and overall building form.

### **Related Policies & Studies**

#### City Centre Area Plan

The City Centre Area Plan's (CCAP) Generalized Land Use Map designations for 20 of the subject properties include *General Urban T4*, *Urban Centre T5*, *Urban Core T6*, which provide for a range of low to high-density residential, commercial, and other land uses. The St. Alban's Sub-Area Plan further identifies four of the subject properties on Bennett Road for *Multi-Family Low Rise*, which provides for single-family dwellings, duplexes, townhouses, and three-storey apartments.

The proposed underlying zoning bylaws do not affect the subject properties' ability to redevelop in the future consistent with the land use designations in the CCAP and the St. Alban's Sub-Area Plan.

#### OCP Aircraft Noise Sensitive Development Policy

The OCP's Aircraft Noise Sensitive Development Policy identifies that 19 of the subject properties are located in the *Moderate Aircraft Noise Area (Area 3)* and that one of the subject properties is located in the *Aircraft Noise Notification Area (Area 4)*, in which all Aircraft Noise Sensitive Land Uses may be considered.

The proposed underlying zoning bylaws do not affect the subject properties' designations under the OCP Aircraft Noise Sensitive Development Policy. Any future proposed development on the subject properties would have to comply with the applicable Aircraft Noise Sensitive Development Policy requirements as identified in the OCP as part of any Rezoning, Development Permit or Building Permit applications.

### **Analysis**

Staff propose a set of bylaws that introduce underlying zoning for the 20 properties developed under LUCs 001, 025, 051, 073, 096, 104, 115, 119, 131, 138 and 158 in the south portion of the City Centre, which are identified in Table 1 (page 6).

There is also an additional site at 6340 to 6390 No. 3 Road that was developed under LUC 062 in the south portion of City Centre for which an underlying zoning bylaw is not proposed at this time, as it is currently the subject of a separate LUC discharge and rezoning application for a four-tower mixed-use development currently being reviewed by City staff (RZ 17-773703). If the proposed rezoning at this site does not proceed, City staff will bring forward a separate report and zoning amendment bylaw to establish underlying zoning for the property prior to June 30, 2022.

Attachment 3 contains a series of summary tables that provide a comparison of the regulations under each of the 11 LUCs with those of the proposed underlying zone, and includes a map of each LUC. The summary tables in Attachment 3 are for reference purposes only and should not be interpreted as the actual LUC.

**Table 1. The 20 properties subject to the proposed underlying zoning bylaws.**

158	1	8291 Park Road	56
<b>Totals:</b>	<b>11</b>	<b>20</b>	<b>1718</b>

In developing the underlying zoning for the subject properties, staff considered the specific provisions in each individual LUC, and the existing land use designations in the OCP for the subject site and for adjacent properties within the immediate surrounding area. Staff were not able to use existing commercial or multi-family residential zones in Richmond Zoning Bylaw 8500 to develop the underlying zoning bylaws for the properties due to the very specific provisions contained in each LUC.

Staff proposes 11 new site-specific zones (described in Table 2, page 7). The proposed site-specific zones combine both the specific provisions from each LUC, as well as certain provisions contained within Richmond Zoning Bylaw 8500 for aspects not anticipated by the LUC. This ensures the underlying zoning bylaws to mirror what is contained in the LUCs without granting additional use and development rights while allowing some flexibility after LUCs expire on June 30, 2024 for landowners to make minor changes to their properties that would be in character with what is permitted on lots within the surrounding neighbourhood.

Where there are inconsistencies between the provisions of the proposed underlying zones and what actually exists on the subject properties, any continued use and existing development of the land that was lawful under the LUC will be protected in accordance with the provisions for non-conforming uses and buildings under the *Local Government Act* after the LUCs expire on June 30, 2024.

### Public Consultation and Public Hearing

Since the existing remaining LUCs will remain effective and will continue to govern the use and development of the affected properties until their termination date of June 30, 2024, at which time the proposed underlying zoning will be in place, it is anticipated that the proposed approach will not generate a significant amount of public interest. Therefore the standard bylaw adoption and public consultation processes are proposed. This is consistent with the approach used to establish the first set of underlying bylaws brought forward for the remaining LUCs containing multi-family, commercial, industrial, and agriculture land uses in the fall of 2017, and this same approach will be proposed for the remaining underlying zoning bylaws that are subsequently to be brought forward on the basis of their geographic area.

The standard bylaw adoption and public consultation process involves the underlying zoning bylaws being considered at a Planning Committee meeting, bylaw readings by City Council, the publication of the statutory Public Hearing Notice and newspaper ads, and includes the holding of a regular Public Hearing in the Council Chambers. This approach does not require additional financial or human resources beyond that of the standard rezoning and Public Hearing processes.

Prior to each Public Hearing at which underlying zoning bylaws are to be considered, a press release will be issued to publicize Council's decision to establish underlying zoning bylaws for the affected properties and to direct further inquiries to the City's LUC webpage, and to the general LUC inquiry email address and phone number. Staff will also send a letter to each of the affected property owners; which will contain information that is specific to the proposed underlying zoning for their respective property.

Following each Public Hearing, Council may consider adoption of those underlying zoning bylaws that do not require any additional approvals (e.g., by the Ministry of Transportation and Infrastructure (MOTI)). For those bylaws that do require additional approvals, Council may consider bylaw adoption at a subsequent Council meeting after the required approvals have been granted.

Following adoption of the underlying zoning bylaws, the existing LUCs on the affected properties will remain effective until June 30, 2024, after which time the underlying zoning bylaws will be in place to govern the use and development of the properties.

### **Financial Impact**

As mentioned in the previous section, the consideration of the proposed Bylaws 9799 through 9811 by the Planning Committee, City Council, and at a regular Public Hearing in the Council Chambers, will not require additional financial or human resources beyond that of the standard rezoning and Public Hearing processes.

### **Conclusion**

Consistent with the *Local Government Act*, City Council will have to consider bylaws to establish underlying zoning for the properties developed under the remaining LUCs in the city prior to June 30, 2022.

Staff propose to bring forward the underlying zoning bylaws for the remaining LUCs as separate items on the basis of their geographic area for consideration by Planning Committee, City Council, and at regular Public Hearings in the Council Chambers.

This report brings forward 11 underlying zoning bylaws for 20 multi-family and commercial properties developed under Land Use Contracts 001, 025, 051, 073, 096, 104, 115, 119, 131, 138 and 158 in the south portion of the City Centre area.

Staff recommend that Richmond Zoning Bylaw 8500, Amendment Bylaws 9799, 9801, 9802, 9804, 9805, 9806, 9807, 9808, 9809, 9810, and 9811, be introduced and given first reading.
