Analysis

Activities and Noteworthy Files

Pedestrian Fatality

On November 12, 2017, Richmond RCMP responded to a serious collision between a pedestrian and a vehicle at the 11000 block of Bridgeport Road. A 54 year old woman from Richmond was struck while crossing the road where there was no designated crossing area. The driver of the vehicle stayed on the scene and attempted to provide assistance to the injured woman. The pedestrian was transported to hospital but later succumbed to her injuries. In a media release, the Richmond RCMP reminded all users of roadways to use extreme caution as inclement weather and darkness add to the already challenging environment.

Suspicious School Incident

On November 15, 2017, Richmond RCMP responded to a field near Whiteside Elementary after reports that a 10 year old student was grabbed on her arm by a male in his 40s or 50s. The student was grabbed while she was running a lap near the field, which is directly south of the school. The male was allegedly taking photographs of the area with his cell phone prior to the incident. While the student advised that she did not feel threatened, the unusual incident has prompted a police investigation.

Richmond RCMP Toy Drive 2017

On November 18, 2017, the Richmond RCMP held their third annual Toy Drive in support of the Richmond Christmas Fund. The event featured a free pancake breakfast to members of the community who donated to the cause. To promote the event, the Detachment produced a “Cop Car Karaoke” video, which was uploaded to YouTube and Facebook. The video featured Superintendent Will Ng, Richmond-Steveston MLA John Yap, Richmond-Queensborough MLA Jas Johal and Richmond Chinese Community Society’s Executive Director Henry Beh, as well as to two Detachment police officers. The Toy Drive was a huge success, collecting enough toys to fill a five ton truck and raising over \$11,000 for the Richmond Christmas Fund.

Volunteer Appreciation

On November 30, 2017, the Annual Volunteer Appreciation Dinner was held at the Executive Airport Plaza Hotel in Richmond. This event recognized the 228 Richmond Detachment volunteers from the Auxiliary Constable program, Victim Services and the three community police stations: City Centre, South Arm and Steveston. These volunteers contributed 19,250 hours from September 2016 to September 2017.

Analysis of Crime Statistics

Arson

In November 2017, there were no incidents of arson, which is down two from October 2017. This number is five fewer than were recorded in November 2016. Year to date, arson is below the five year statistical average range.

Assault Serious (Assault with a Weapon)

There were 13 assault serious events, which is an eight per cent decrease from October 2017 and represents no change from November 2016. Year to date, assault serious is above the five year statistical average range.

Auto Theft

There were 26 auto theft incidents, which is 24 per cent increase from October 2017 and a four per cent decrease from November 2016. Auto theft is within the five year statistical average range.

Drugs

There were 62 drug incidents¹, which is a 29 per cent increase from October 2017 and a 35 per cent increase from November 2016. Drug incidents for the month of November are within the five year statistical average range.

¹ Drug incidents are on pace to meet the five per cent increase benchmark as noted in the Annual Performance Plan.

Mental Health

There were 112 mental health incidents, which is a 10 per cent decrease from October 2017 and a 17 per cent decrease from November 2016. Mental health incidents are within the five year statistical average range.²

Residential Break and Enter

There were 69 break and enters, which is a 28 per cent increase from October 2017 and a 10 per cent increase from November 2016. Over the past couple of months, the numbers have been trending back to normal totals. Although there was a small spike in the number of residential break and enters at the end of November, the numbers are within the five year statistical average, which can be attributed to a number of key arrests and crime reduction strategies.

Robbery

There were five robbery incidents, which is a 40 per cent decrease from October 2017 and 20 per cent decrease from November 2016. Robbery incidents are below the five year statistical average range. Year to date, the number of robbery incidents has decreased by 51 per cent.

Sexual Assault

There were 19 sexual offences in November, which represents a 36 per cent increase from October 2017 and a 138 per cent increase from November 2016. This number is almost four times the average monthly total. Sex offence files are 23 per cent higher year to date when compared to 2016 data. Sexual assault incidents are above the five year statistical average range. These trends will continue to be monitored and analyzed. One possible explanation for the increase is that more events are being reported to police due to the current social/cultural climate. Four sex offence files occurred between April and September but were not reported until this month. One suspect has been identified in a series of sex assaults/groping incidents which happened in late November. Investigators at Richmond Detachment are collaborating with other jurisdictions to make an arrest.

Shoplifting

There were 58 shoplifting thefts, which is a 10 per cent decrease from October 2017 and a 12 per cent decrease from November 2016. Shoplifting is within the five year statistical average range. Year to date, the number of shoplifting files has decreased by 20 per cent.

² Detachment training sessions and audits have been designed to help members better recognize when to flag files as mental health related. As a result, better training has led to a more accurate representation of calls for service and has increased the number of mental health flagged files.

Theft from Auto

There were 193 thefts from auto incidents, which is a 31 per cent decrease from October 2017 and a 21 per cent increase from November 2016. One major contributor to the significant reduction in theft from auto was the reduction in thefts perpetrated by a prolific offender who was under house arrest in the month of November. This individual is still being monitored by Richmond Detachment’s Prolific Offender Suppression Team. Theft from auto is within the five year statistical average range.

Auxiliary Constables

In November 2017, the Richmond RCMP Detachment had a total complement of 36 Auxiliary Constables, who provided 376 volunteer hours. There was a 44 per cent increase in hours from October 2017 and a 45 per cent increase from November 2016. Year to date, 4,586 volunteer hours have been completed, which is 23 per cent more than compared to this time last year. In the next month one or two Auxiliary Constables are expected to depart for RCMP Depot.

Figure 1 compares the monthly hours of service provided by month from 2013 to 2017.

Community Police Station Programs

Community police stations continue to enhance the Detachment's policing services by providing an array of crime prevention resources and community safety initiatives. City staff and volunteers pursued safety initiatives to enhance crime prevention program awareness, community engagement and police accessibility. These initiatives help to reduce anxiety and fear related to crime.
