Re: Application by Krahn Engineering Ltd. for a Zoning Text Amendment to the "Light Industrial (IL)" Zone for a Site at 9920 River Drive

Staff Recommendation

That Richmond Zoning Bylaw 8500, Amendment Bylaw 9694, for a Text Amendment to the "Light Industrial (IL)" zone to allow "non-accessory parking" on a site-specific basis for the property at 9920 River Drive, be introduced and given first reading.

Wayne Craig
Director, Development

MM:blg
Att. 5

REPORT CONCURRENCE

CONCURRENCE OF GENERAL MANAGER

FOR JOE PRISKA

Staff Report

Origin

Krahn Engineering Ltd. has applied to the City of Richmond for a Zoning Text Amendment to the “Light Industrial (IL)” zone to allow for “non-accessory parking” at 9920 River Drive (Attachment 1).

The subject 8.44 acre (3.42 ha.) site is currently occupied by a large warehouse and smaller office/warehouse building utilized by a trucking company and two smaller tenants. The application is being made on behalf of Park’N Fly Ltd. for an off-site, long-term parking lot to supplement its current parking lot located near YVR Airport at 6380 Miller Road on Sea Island. Travellers to YVR Airport would drop off and pick up their vehicles at the current Park’N Fly location on Sea Island; with the vehicles being shuttled to and from the subject site by Park’N Fly staff.

The current warehouse and trucking firm tenants; permitted under the current “Light Industrial (IL)” zoning, will vacate the site in three (3) stages between summer 2017 and 2020, as their leases expire. When completely vacated, there will be 816 outdoor parking spaces and potentially some indoor parking (Attachment 3). The existing and proposed uses of the buildings require 89 parking spaces under Zoning Bylaw 8500 with the remaining 727 exterior parking spaces being available for airport parking.

Findings of Fact

A Development Application Data Sheet providing details about the development proposal is included in Attachment 3.

Surrounding Development

To the North: A vacant light industrial site zoned “Light Industrial (IL)”.

To the South: An active rail line, the Bridgeport Trail, and a vacant site zoned “Light Industrial (IL)”.

To the East: A BC Hydro substation zoned “Light Industrial (IL)”, and a townhouse complex zoned “Low Density Townhouses (RTL1)”.

To the West: A large light industrial/warehouse building zoned “Light Industrial (IL)”.

Related Policies & Studies

Official Community Plan/City Centre Area Plan

The Official Community Plan (OCP) designates the subject site as “Industrial (IND)”. The City Centre Area Plan designates the site as “General Urban T4 (25 m)” and “Area A – Industrial Reserve” which provides for the storing of goods with ancillary office use. Thus, the proposed use is consistent with both plans.

Public Consultation

A rezoning sign has been installed on the subject property. Staff have not received any comments from the public about the rezoning application in response to the placement of the rezoning sign on the property.

Should the Planning Committee endorse this application and Council grant first reading to the rezoning bylaw, the bylaw will be forwarded to a Public Hearing; where any area resident or interested party will have an opportunity to comment.

Public notification for the Public Hearing will be provided as per the *Local Government Act*.

Approval from the Ministry of Transportation and Infrastructure will be required prior to Council consideration of adoption of the zoning amendment bylaw.

Built Form and Architectural Character

The existing 5,634 m² (60,645 ft²) single-storey, tilt-up concrete warehouse building will be maintained for Park'N Fly service vehicles, a car wash, and indoor long-term airport parking. The existing 523 m² (13,000 ft²), two-storey building includes office space which will be used for Park'N Fly offices and services bays. Park'N Fly does not propose to make exterior alterations to the buildings (Attachment 3).

The existing parking areas that cover the majority of the site will be re-lined and repaired as needed to provide a total of 816 parking spaces. The resultant parking areas will provide parking and loading meeting the City's Zoning Bylaw requirements.

The applicant will also plant a landscape buffer and lawn fronting River Drive. There will be a further 2.5 m (8.0 ft.) wide landscape buffer along the east side of the site adjacent to an existing adjacent townhouse complex. This buffer will include:

- A solid wood 2.4 m (7.9 ft.) high fence.
- 25 Pin Oak and European Hornbeam trees with a 6 cm (2.4 inch) caliper
- 26 Emerald Cedar hedge plants with an minimum initial height of 2.5 m (8.0 ft.).
- 996 other shrub and ground cover plants.

The remainder of the perimeter of the site will be flanked by a 2.0 m (6.6 ft.) high chain link fence with privacy slats.

The applicant will submit a landscape security in the amount of \$214,561 to ensure that the landscaping and fencing is installed within one (1) year of adoption of Bylaw 9694.

Existing Legal Encumbrances

There is an existing City statutory right-of-way (SROW) running along the southern property line for storm, sanitary and water services (AB243356). There is also an existing flood indemnification covenant with a minimum 2.9 m Flood Construction Level (FCL) registered on Title (AC286407) in 1989.

Transportation and Site Access

Primary vehicle access to the site will be provided by the existing driveway to River Drive. This access will be used by Park'N Fly staff shuttling patron's cars to/from their YVR Airport location and for employee use. The gate has been located so as to permit the queuing of up to three (3) vehicles in front of gate on the property. The existing driveway to No. 4 Road will be maintained over a private easement on the lot to the east for secondary access to the site.

The applicant has agreed to registration of a restrictive covenant on title that restricts the use of site so that primary vehicle access is provided to River Drive and that the driveway to No. 4 Road is maintained for only emergency vehicle access and to provide alternative vehicle access to the site at any time that the River Drive access may be temporally blocked or inoperable (e.g. during road construction or repair).

Given the proposed change of use of the site, the applicant has prepared a traffic study as required by the City. The study concludes that there will be approximately 10 vehicles per hour in the peak hour of site traffic with almost all site trips occurring between 7:00 a.m. and 7:00 p.m. The study concludes that the traffic impacts are anticipated to be minimal. Compared to the existing warehouse and light industrial uses, the proposed Park N' Fly operation is anticipated to generate fewer vehicle trips.

For the long-term transportation needs of the area, the applicant has agreed to register a Statutory Right of Way (SRW) over an area of approximately 501 m² (5,392 ft²) of the south-west corner of the site to allow for future City construction of a section of a proposed public road that will connect Bridgeport Road with Van Horne Way (see Attachment 2 and Attachment 5 – Appendix A). The current owner will be able to use the SRW area for surface parking and landscaping until the City requires the SRW area for public road purposes.

The City's parking and loading provisions in Zoning Bylaw require 89 parking spaces; while 816 exterior parking spaces are being proposed to be provided. The proposal also includes two medium-size (SU-9) loading spaces and one large (WB-17) loading space as required under the Zoning Bylaw.

Contaminated Sites Regulation

A Ministry of Environment (MOE) Certificate of Compliance or alternative approval regarding potential site contamination issues will need to be issued by MOE prior to the zoning amendment bylaw being considered for adoption.

Site Servicing and Frontage Improvements

There will be no road frontage improvements required as part of this application. There may be the need to replace and upgrade City utility service connections and mains at the time of a Building Permit application for any tenant improvements.

Financial Impact or Economic Impact

There are no impacts associated with this application.

Conclusion

The proposed Zoning Text Amendment to permit “non-accessory parking” on the site will allow for additional long-term airport parking within the City on an existing developed, industrial site. Given the proposed parking use and enhanced landscaping adjacent to River Drive and the townhouse development to the east, it is recommended that Richmond Zoning Bylaw 8500, Amendment Bylaw 9694, be introduced and given 1st Reading.

Prior to final adoption of Richmond Zoning Bylaw 8500, Amendment Bylaw 9694, the developer is required to complete the following:

1. Provincial Ministry of Transportation & Infrastructure Approval.
2. Ministry of Environment (MOE) Certificate of Compliance or alternative approval to proceed granted from MOE regarding potential site contamination issues. This approval is required prior to dedication of land or road to the City if applicable.
3. Registration of a Statutory Right-of-Way (SRW) on title for the purposes of a future public road for the area as shown in Appendix A for vehicle and pedestrian use and for City construction and maintenance of the roadway, sidewalks, street lighting and other services and utilities; and that permits the current owner to use the SRW area for surface parking and landscape until the City provides one (1) year notice of its need to use the SRW area for public road purposes.
4. Registration of a restrictive covenant on title that restricts the use of site so that primary vehicle access is provided to River Drive and that the driveway to No. 4 Road is maintained for only emergency vehicle access and to provide alternative vehicle access to the site at any time that the River Drive access may be temporarily blocked or inoperable (e.g. during road construction or repair).
5. Submission of a Landscape Security in the amount of \$214,561 to ensure that the landscaping and fencing proposed in Appendix B is completed within one (1) year of adoption of Bylaw 9694 with 10% of this security to be held by the City as a maintenance security for year (1) after substantial completion of the landscape.

Prior to Building Permit Issuance, the developer must complete the following requirements:

1. Submission of a Construction Parking and Traffic Management Plan to the Transportation Department. Management Plan shall include location for parking for services, deliveries, workers, loading, application for any lane closures, and proper construction traffic controls as per Traffic Control Manual for works on Roadways (by Ministry of Transportation) and MMCD Traffic Regulation Section 01570.

Note:

- Where the Director of Development deems appropriate, the preceding agreements are to be drawn not only as personal covenants of the property owner but also as covenants pursuant to Section 219 of the Land Title Act.

All agreements to be registered in the Land Title Office shall have priority over all such liens, charges and encumbrances as is considered advisable by the Director of Development. All agreements to be registered in the Land Title Office shall, unless the Director of Development determines otherwise, be fully registered in the Land Title Office prior to enactment of the appropriate bylaw.

The preceding agreements shall provide security to the City including indemnities, warranties, equitable/rent charges, letters of credit and withholding permits, as deemed necessary or advisable by the Director of Development. All agreements shall be in a form and content satisfactory to the Director of Development.

- Additional legal agreements, as determined via the subject development's Servicing Agreement(s) and/or Development Permit(s), and/or Building Permit(s) to the satisfaction of the Director of Engineering may be required including, but not limited to, site investigation, testing, monitoring, site preparation, de-watering, drilling, underpinning, anchoring, shoring, piling, pre-loading, ground densification or other activities that may result in settlement, displacement, subsidence, damage or nuisance to City and private utility infrastructure.

- Applicants for all City Permits are required to comply at all times with the conditions of the Provincial *Wildlife Act* and Federal *Migratory Birds Convention Act*, which contain prohibitions on the removal or disturbance of both birds and their nests. Issuance of Municipal permits does not give an individual authority to contravene these legislations. The City of Richmond recommends that where significant trees or vegetation exists on site, the services of a Qualified Environmental Professional (QEP) be secured to perform a survey and ensure that development activities are in compliance with all relevant legislation.

Richmond Zoning Bylaw 8500
Amendment Bylaw 9694 (ZT 16-753545)
9920 River Drive

The Council of the City of Richmond, in open meeting assembled, enacts as follows:

1. Richmond Zoning Bylaw 8500 is amended by:

(a) Adding the following to Section 12.2.3 (B. Additional Uses):

“parking, non-accessory”

(b) Renumbering Sections 12.2.11.4 and 12.2.11.5 respectively as 12.2.11.5 and 12.2.11.6, and inserting the following new Section 12.2.11.4:

“Parking, non-accessory shall be only permitted on the following site:

9920 River Drive
P.I.D. 017-483-166
Lot 1 Except; Part Subdivided By Plan LMP 5990, Section 22 Block 5 North
Range 6 West New Westminster District Plan LMP 1596”

2. This Bylaw may be cited as “Richmond Zoning Bylaw 8500, Amendment Bylaw 9694”.
