Dear Mr. Nagra:

Re: Delegation Request

In response to your request, this is to confirm that arrangements have been made for you to appear at the Parks, Recreation and Cultural Services Committee meeting scheduled for Tuesday, June 24th, 2003 at 4:00 p.m. in the Anderson Room, second floor of Richmond City Hall.

If you have any questions related to the Committee agenda please contact the undersigned at 604-276-4272.

Yours truly,

Deborah MacLennan
Administrative Assistant

Subject: June 24, 03 - Parks, Recreation and Cultural Services Committee meeting

Hi Deborah,

Further to our conversation, I would like to appear as a delegate at the upcoming Parks, Recreation and Cultural Services Committee meeting to discuss the manner in which MacLean Park is maintained. The following are my concerns:

MacLean Park was designed in conjunction with the Hamilton Community Association. It was decided some five years ago certain sections of the park would be designated as environmentally friendly, whereby the grass would only be cut a couple times a year. At MacLean Park, the City tried out a new grass seed which was suppose to produce slower growing grass. If the results the City was looking for were achieved, this would have been an excellent test project. Unfortunately, the problem with this was, poor quality soil was used and grass grows at a regular rate, in addition weeds have infested the Park. When you drive along Westminster Highway and see MacLean Park it looks like a real eye sore. This is my issue!! The value of our homes are impacted by MacLean Park. Clearly the results the City was looking to achieve were not accomplished, yet the City is not prepared to deal with its failure. My request is very simple, since this project was a failure the grass at MacLean Park needs to be cut on a regular basis. At the committee meeting I will present the members with pictures taken from Westminster Highway of the Park, taken in early June. At the time the pictures were taken the grass had just been cut, which was about a foot plus tall.

My apologies to canceling on you the previous times. Unfortunately, I tend to travel a far amount and many trips come up at the last minute.

Should you have any questions, please do not hesitate to contact me.

Cheers,
Narinder Nagra

Dear Narinder Nagra:

Re: McLean Park

The Park Construction Committee from Hamilton Community Association were instrumental in designing McLean Park. The chairman for the committee lives two houses away from the park and the vice-chair lives in a house that backs onto the park. They both supported the idea of a totally natural park (no grass cutting) and what you see is a compromise to that position. The plan when completed was presented to a public forum for feedback and endorsement. There is about a third of the park in grass that is cut once a year. Long grass to some people is unsightly while to others it is environmentally friendly. It provides a different texture that the City is including in all new parks. The plan went to Council and was approved and the park was built 3 years ago. The level of maintenance was estimated and approved into the base level budget at that time. If the manicured look were to be extended to the once a year cut area there would be a cost to upgrading and then maintaining it more often that would have to be approved first by the community and then by City Council as a capital improvement and an additional level of maintenance service in the budget. It is my personal opinion that this would be extremely difficult.

If you wish to talk to me further in this matter, please contact me at 244-1210.

Yours truly,

Gordon Barstow

Mr. Harold Steves
Chair of Parks, Recreation &
Cultural Services Committee
City of Richmond
Richmond, B.C.

Dear Mr. Steves:

Re: Request to appear as a delegation at the Oct 23, 2001 Parks, Recreation & Cultural Services Committee Meeting

As a resident of the Hamilton area I find the manner in which McLean Park is maintained to be a real eye sore. When you drive along Westminster Highway the park looks like its very poorly maintained, the result of how the grass is cut. Currently, certain areas are cut on a regular basis, with outlining areas cut a few times a year. These so called outlining areas tend to be an eye sore, as you either see tall grass with weeds growing or grass covered with thick grass and weed clippings.

I understand the Hamilton Community Association was involved in the initial development of the park. I think the resident's of the Hamilton area should be consulted once again in how they would like their park maintained, as the park has a direct impact on the value of their homes.

I have spoken with Gordon Barstow on this matter and he has indicated I must address my concerns with the Parks, Recreation & Cultural Services Committee. In order to rectify this problem, I am requesting the Parks, Recreation & Cultural Services Committee authorize all of McLean Park's grass area be cut on a regular basis.

I look forward to attending the upcoming Parks, Recreation & Cultural Services Committee meeting to further expand on my concerns.

Thanks in advance for your consideration.

Yours truly,

N. Nagra
