Dear Mayor Brodie and City Councillors;

Ladies and Gentlemen;

I would like to request some time on your agenda to do a presentation on the "Patient Bill of Rights". I am a registered nurse at the Richmond Hospital. In the past, you have generously allowed me to bring the health care concerns for the citizens of Richmond. You have taken the time to follow up on the issues I have raised and I appreciate the concern that the Council has for the health of the community which you represent.

0150-20-HEAL

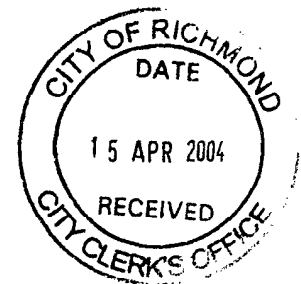

This document was developed by the BC Nurses' Union to set out for the residents of British Columbia the minimum standards required to maintain their health. Many of the public do not understand what health care services they are entitled to and have no idea what is or isn't included in the Canada Health Act. It calls on the provincial and federal governments to increase funding for a publically funded health care system and calls for accountability to the public for it's administration.

As policy and decision makers for your community; I feel that this document requires in the very least, some discussion and endorsement by the Richmond City Council.

I wait to hear when you will have the earliest possible time on your agenda.

Sincerely

Marnie Hewlett RN
