Staff Report

Origin

Development in North McLennan is progressing rapidly in the north-west section of the area, between Ferndale Road and Alberta Road. The north half of the new north/south connection between Alberta and Ferndale (known as Katsura Road) has been provided by the adjacent developers. The south half of Katsura Road (from Hemlock to Alberta) was secured by the City several years ago by the purchase of 9251 Alberta Road. As the lands adjacent to it develop, the City will dedicate the land to "road" and recover its costs in varying portions from the developers.

In the meantime, Policy Planning staff have identified the future south half of Katsura Road (9251 Alberta Road) as the routing for hydro services which are needed now for the developments adjacent to the north half of the road.

Findings Of Fact

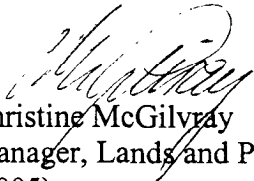

Granting the right of way at this time will enable BC Hydro to put the works in place in advance of the remaining Katsura road dedication.

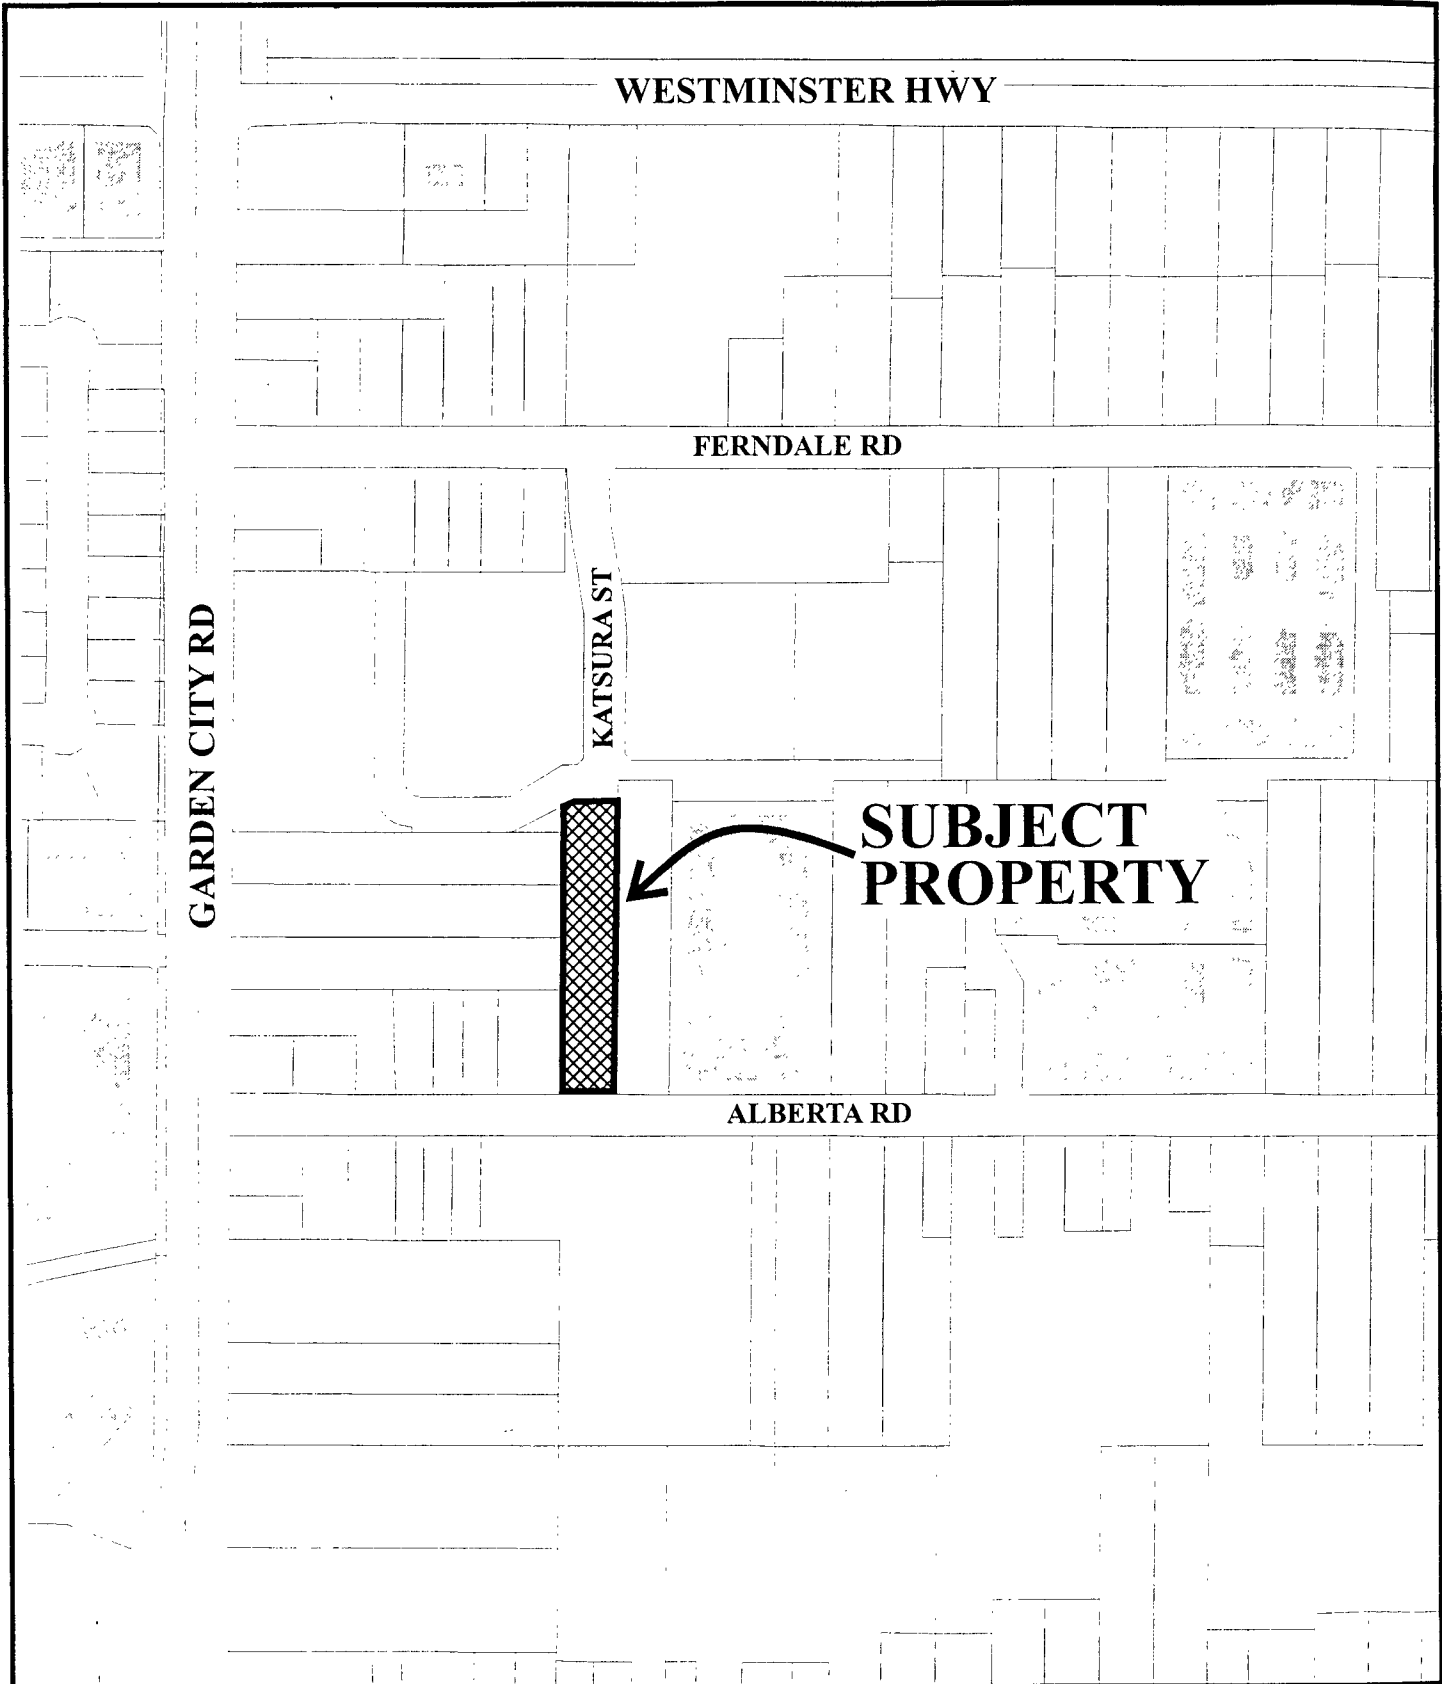

Financial Impact

None at this time, other than advertising the right of way as a disposition of land in the local media.

Conclusion

Council approval is required for a right of way over City land.
