Subject: question!

Dear Cecilia Achiam,

- This is Jane Hong who lives on Alberta rd 69-9339. I recieved the "Notive of aplication for a development permit DP 05-302414, and I was surprised after reading about the height, and how close this builing was going to be. Our house is approximately 10m, and I think that a building, around two stories higher than ours, being built right in front of us is quite unexpected. For I had thought that it would be around the same height as our building, or in a different position-so that it woun'dn't be right in outside our livingroom window, and i think that this building would not only block our view, but also take away our privacy.
- I was shocked when I read the notice, and I have gone to visit you on Jan, 16, monday, however, you were not there, so I got your business card, and am sending you this letter. I also wish to attend the meeting, but, because I am a newcomer, I do not think my english will be good enough to keep up in the meeting, and because this issue is so important to me, I wish to see what happens in the meeting, so I wonder if there could be a Korean interpreter there. (I am from South Korea).
- P.S Incase you were wondering, I have got my son to help me write this letter.
