My husband and I are both residents of Steveston and have been living in this area for over 20 years. At one time I also taught at Austin Harris School, which was located at the Moncton Street address.

We are thrilled that the land will be used for such a good cause.

We cannot understand why anyone would be upset by having a seniors home nearby. As the population ages we will need many more of these types of facilities. This is quite a small facility that is being proposed and it is only two storeys. There are many houses in that area that have 2 and 3 storeys.

Unfortunately, we are away on holidays on August 29th or we would have attended. So please consider this as our proxy vote.

MY HUSBAND AND I BOTH SUPPORT THE PROPOSAL for a seniors affordable living residence at 4111 Moncton Street, Richmond.
