I think the recommendation by Janet Lee to go ahead with building a complex to house a liquor, and bar should be denied. Living close to the planned site I can say that it will affect the quality of my life. Noise levels, more traffic, and more acts of public drunkenness will be the outcome. I hope you reconsider your position on the building the bar, and truly value the citizens of Richmond. There is already a pub on five road there is no need for another one. I thank you for addressing my concerns.
