Staff Report

Origin

This monthly activity report for the Community Bylaw Department provides information on Property Use, Grease, Soils, Parking and Animal Control.

This report supports Council's 2014-2018 Term Goal #1 A Safe Community:

Maintain emphasis on community safety to ensure Richmond continues to be a safe community.

Analysis

Property Use

Property Use Officers continue to respond to changing public demand with a recent focus on demolition permits, zoning issues, recycling offences and sign infractions.

Grease and Soils

The Grease Officer remains diligent in inspecting food establishments while maintaining a focus on education and voluntary compliance. Inspection volume continues to increase due to a recent position upgrade from part-time to full-time status.

The Soil Officer remains engaged in the investigation of files that require ongoing monitoring, inspection and liaison with various departments and external agencies. In particular, several stop-work-orders have been issued for unauthorized fill activity.

Parking and Animal Control

Parking and Animal Control Officers remain proactive in patrolling for non-moving traffic violations and continue to place priority on safety and liability issues (fire hydrants, crosswalks, school zones). This month saw an increase in the number of violations issued due to improved weather conditions and the resolution of several staff re-alignments.

Dog re-licencing continues at a steady pace and the initiation of canvassing patrols is expected to enhance the licence renewal rate.

Consolidated Revenue (Figure 1)

The following information represents an analysis of Parking Program Revenue for March 2017, in comparison to the previous month and the same month last year.

Monthly revenue from meter, permit and enforcement operations totalled \$152,079 and year to date revenue totalled \$425,227. This represents an increase of 33.6 per cent when compared to last month and a decrease of 20.8 per cent when compared to the same month last year.

Month over month revenue increased due to a rise in enforcement revenue and permit revenue remains on target despite monthly fluctuations. However, meter and enforcement revenue are down compared to last year due to extraordinary issues that negatively impacted Community Bylaws.

Meter Revenue

Monthly revenue from meter operations totalled \$49,926 and year to date revenue totalled 154,355. This represents a decrease of 2.5 per cent when compared to last month and a decrease of 29.8 per cent when compared to the same month last year.

Road work and building construction has led to ongoing traffic restrictions, which in turn has limited access to various permit and meter zones. Correspondingly, these closures have led to a decrease in pay-parking revenue.

Permit Revenue

Monthly revenue from permit operations totalled \$15,685 and year to date revenue totalled \$56,291. This represents an increase of 72.1 per cent when compared to last month and a decrease of 3 per cent when compared to the same month last year.

Monthly swings in permit revenue are not uncommon due to variations in customer payment cycles.

Enforcement Revenue

Monthly revenue from enforcement operations totalled \$86,468 and year to date revenue totalled \$214,581. This represents an increase of 61.6 per cent when compared to last month and a decrease of 17.5 per cent when compared to the same month last year.

Enforcement revenue decreased the previous month due to staff re-deployments. However, these resource issues have been addressed resulting in a subsequent rebound in enforcement revenue.

Financial Impact

None.

Conclusion

Community Bylaw staff strive to maintain the quality of life and the safety of residents through coordinated efforts with other City departments and community partners. Staff remain committed to educating the public and promoting a culture of voluntary compliance.

At present 24 residences remain on the “Abandoned /Vacant Home Joint Operations” list, which staff continue to monitor.

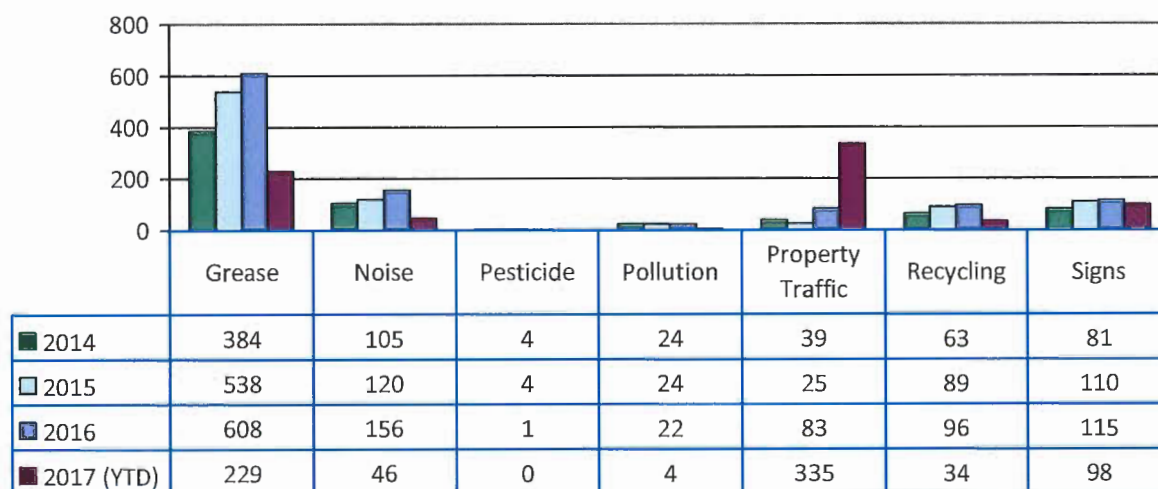

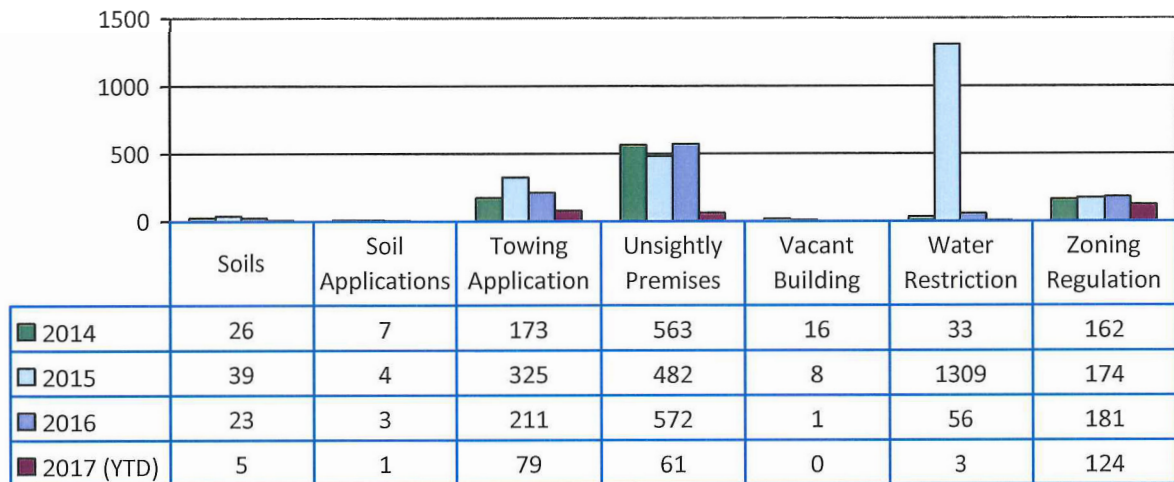

Figure 1c: Property Use, Grease and Soils Service Demand Comparison

2. Grease and Soils Activity

A total of 130 grease-trap inspections were conducted during the month of March 2017. This resulted in the issuance of six warnings and two fines for non-compliant activity.

A total of 35 soil files remain under active investigation including several “Non-Farm Use” soil applications and two stop-work-orders.

3. Parking Activity

A total of 2,699 violations were issued for parking offences during the month of March 2017. This activity represents an increase of 41 per cent compared to the number of violations issued during the previous month and a decrease of 21 per cent compared to the number of violations issued during the same month last year. Education, compliance and safety continue to be the focal point for officers.

Figure 2: Parking Violations Issuance Comparison

A total of 100 violations were cancelled during the month of March 2017. The following table provides a breakdown of common reasons for fine withdrawal pursuant to Council Grounds for Cancellation - Policy No. 1100.

Figure 3: Parking Violation Cancellation Comparison

Section 2.1 (a)	Identity issues	16
Section 2.1 (b)	Exception specified under this bylaw or other bylaw	8
Section 2.1 (c)	Poor likelihood of success at adjudication for the City	9
Section 2.1 (d)	Contravention necessary for the preservation of health and safety	0
Section 2.1 (e)	Multiple violations issued for one incident	6
Section 2.1 (f)	Not in the public interest	11
Section 2.1 (g)	Proven effort to comply	50
TOTAL:		100

4. Adjudication Activity

An adjudication hearing was held on February 28, 2017. A total of five cases were heard resulting in three violations being upheld and two violations being dismissed.

The next adjudication hearing is scheduled for May 23, 2017.

5. Animal Control Activity

A total of 99 new dog licences were issued during the month of March 2017. This activity represents a decrease of 15 per cent compared to the number of new licences issued during the previous month and a decrease of 6 per cent compared to the number of new licences issued during the same month last year. The decrease can be attributed to an increase in licencing last year that resulted in a higher renewal rate for 2016.

Year to date approximately 6200 dog licences have been renewed and or purchased for 2017. A total of 7700 dogs are expected to be licenced by the end of the year.

Twenty-eight animal control violations were issued during the month representing an increase of 300% in enforcement activity over the previous month. This increase is the result of licence canvassing activity that was initiated during March. Note, animal control violations are typically associated with failure to produce a dog license, failure to leash a dog or failure to pick up dog excrement.

The following parks/dykes were patrolled during the month of March:

McDonald Beach
Steveston Community Park
No. 3 Road Waterfront Park
South foot of No. 3 Road along South Dyke Trail
Woodwards Slough
Shell Road / Horseshoe Slough Trail
McCallan Park
Garden City Park
South Arm Community Park
Britannia
Gary Point North
Gary Point South
Imperial Landing

Eight new dog-bite files were opened during March and remain under active investigation.

Analysis

Community Involvement/Public Education

During the months of January, February and March 2017, staff and volunteers participated and facilitated in an Active Wellness Fair for Seniors and presentations at YVR for Canadian Border Service Agency teams.

Emergency Management Plans

As identified in a previous memo to Community Safety Committee, EP is working on three plans this year:

1. Evacuation Plan – a first draft has been completed of the plan and EP is seeking input from stakeholders before final publication. This initiative is on track for completion by the end of 2017.
2. Information Plan – in partnership with Corporate Communications, EP is coordinating a joint review to ensure integration with the City's overarching Emergency Management Plan. This plan is expected to be completed by the end of 2017.
3. Dangerous Goods and Spill Response Plan – EP is working in conjunction with Environmental Programs, who will begin integration with the Emergency Management Plan within the next couple of months. This plan is due for completion by the end of 2017.

City of Richmond Staff and Volunteer Education

Volunteer Recruitment

Volunteer recruitment for 2017 has begun, with a goal of 70 additional volunteers to bring the total to 140 in order to staff two reception centres. Staff are focusing on increased volunteer engagement, training and recognition of current members, redefining teams and roles and development of team leadership to promote self-management.

The application portal is active on the City of Richmond website and Emergency Programs encourages questions or interest in volunteering¹.

Emergency Operations Centre Open House

Currently, staff are preparing for the first annual EOC Open House for the spring. This initiative will serve dual purpose of training staff while providing visibility to this important function of the City's Emergency Programs Department. Tentative plans include the following:

- Open house for all City staff, volunteers and members of Council to view a functional EOC, completely ready for an incident
- EOC Functional groups – an Emergency Management of BC (EMBC) instructor will be on hand to facilitate orientation for each of the following groups:
 - Policy Group – pending availability of members of Council
 - Operations
 - Planning
 - Logistics
 - Finance and Admin
 - EP Volunteers
 - Richmond Emergency Programs Amateur Radio Group Society (REPARS)
- General invitations will be sent to members of the public to drop in during the later hours of the afternoon, early evening to see the EOC in readiness.

Date and times will be announced as staff work to finalize a schedule for that day and are able to confirm resources.

RichmondBCAlert/Emergency Notification System (ENS)

RichmondBCAlert is an emergency notification system that sends notifications in the event of an actual emergency. When an emergency occurs, voice or text messages will be sent to all registered contacts in the impacted area. Evacuation notices, emergency instructions, direction to emergency reception centres or shelters, and information on family reunification will be among the messages that could be sent out during an emergency situation.

During 2017 an upgrade to the current white and yellow pages entries will be completed with additional and corrected personal and business telephone numbers added or changed to the new 30,000+ data base.

During the past three months, staff promoted the ENS program to the citizens of Richmond at all Community Involvement/Public Education events, City of Richmond Staff and Volunteer Education events as well as through of social media. The table below shows the number of new registrations during the first quarter of 2016 and 2017 for both owner and tenant registrations:

Conclusion

In the first three months of 2017, Emergency Programs staff and volunteers were out in the community for two public education events, began the 2017 volunteer recruitment, are planning the EOC Open House and continue to promote the RichmondBCAlert System.

Staff Report

Origin

This report provides Council with an update on Richmond Fire-Rescue (RFR) activities. RFR is reporting on its activities in support of its mission:

To protect and enhance the City's livability through service excellence in prevention, education and emergency response.

This report supports Council's 2014-2018 Term Goal #1 A Safe Community:

Maintain emphasis on community safety to ensure Richmond continues to be a safe community.

Analysis

Community Involvement

RFR advances public awareness, education and community bridge building by participating in training events and community activities. During March 2017 the following events took place:

- Public Education and Fire Safety Trailer visits to: Mitchell Elementary School, Kidd Elementary School, Spul'u'kwuks, Grauer Elementary School, Blair Elementary School and Bridge Elementary School. Education staff engage with 209 students providing fire safety education;
- Information sessions for fire prevention were provided to: Works on Wheels (Adults), Monet Strata (Rancho Management Services), Richmond Family Place and Community Living Services; and
- RFR supported or hosted charitable/community events including the Annual Minoru Seniors' Society Fair event.

Staff engaged with over 602 children and adults in the community during March, providing fire safety and harm reduction information.

Emergency Response

RFR's goal is to respond to events in a manner where loss of life, reduction of property damage and protection of the environment is mitigated. In March 2017 there were a total 958 incidents, representing a 10.5 per cent increase in calls from March 2016 (Attachment 1). The average time on scene for RFR crews was 26.5 minutes, an increase of 1.9 per cent from 2016. This is due to the nature and severity of each call and the duration on scene.

In March 2017 there were 33 dispatched fire calls. Of those, 23 were actual reportable fires, 125 apparatus' were used and 371 fire personnel attended.

Fire damage and property losses during the month are estimated at \$2,840. This total includes \$2,040 for building/asset loss and \$800 for content loss. The total building/asset and content value at risk was estimated to be \$535,500 and the total value preserved from damage was \$532,660. These numbers translate to 99 per cent of value protected (Figure 1), this figure is an increase from the 94 per cent protected value observed in 2016.

Figure 1: Fire Calls By Type and Loss Estimates – March 2017						
Incident Type Breakdown	Call Volume	Estimated Building / Asset Value (\$)	Estimated Building / Asset Loss (\$)	Estimated Content Value (\$)	Estimated Content Loss (\$)	Estimated Total Value Preserved (\$)

Single family	2	500	40	-	-	460
Multi family	5	500,000	-	35,000	800	534,200
Commercial / Industrial	6	-	2,000	-	-	-2,000
Outdoor	5	-	-	-	-	-
Vehicle / Vessel	5	-	-	-	-	-
Totals*	23	500,500	2,040	35,000	800	532,660

*The dollar losses shown in this table are preliminary estimates. They are derived from RFR's record management system and are subject to change due to delays in reporting and confirmation of actual losses from private insurance agencies (as available).

Fire crews minimized loss and limited fires to the place of origin in these notable March 2017 incidents:

- Hazardous materials leak at Worster Court. Crews responded quickly to a report of a warehouse worker, who had developed red blotches on their arm after a package had split and white powder had leaked out. Crews started Hazmat operations on site, including patient care, containment, testing and cleaning up of substance. Initial testing showed that the product may have been a biological substance. The patient's rash was cleaned and began to subside.
- Fire at a commercial warehouse on Vulcan Way. Crews arrived on scene to smoke coming from the roof of the building. Crews quickly found and attacked the fire. Crews then proceeded to check for further damage to the site including the roof area. Ventilation was set up to remove smoke from the effected warehouse and office areas. A fire investigator was requested to attend the scene.

- Fire at a commercial property on Sexsmith Road. Arriving crews found heavy smoke and water flow coming out of a unit. Crews proceeded to locate and extinguish the fire and neighbouring units were evacuated for safety. BCAS, RCMP, utilities and a fire investigator were requested to attend the scene.
- Fire at a commercial property on Graybar Road. Arriving crews were led to an area where a forklift, which had been on fire, had completely burnt out. The vehicle was located near to stored wood which was still smoldering. Crews extinguished the fire and due to the suspicious nature of the incident both the RCMP and a fire investigator were requested to attend.
- Motor vehicle incident on Ackroyd and No 3 Road. Arriving crews found a two vehicle motor vehicle incident and one of the vehicles had driven into a Skytrain support. RFR crews assisted BC Ambulance crews with patient care. RCMP were requested to attend the scene to ensure the safety of the Skytrain system.

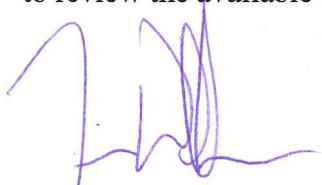

Financial Impact

None.

Conclusion

During March 2017, calls for service increased by 10.5 per cent from March 2016. RFR will continue to monitor these activities to identify trends and ensure potential solutions.

The continued increase in RFR's emergency response has a direct impact on unit availability, response times, availability for non-emergency operations and in-service training. RFR continues to review the available statistics and amend resource allocation, as necessary.
